**ACTIV-Pro3 Specifications**
Choose 2 or 3 stage legs with T or C foot style

Seamless integration with ILINE

Complete workstations: privacy screens, monitor arms, cable management, storage and seating

Linear, 90° and 120° Worksurfaces

Standard handsets with 4 memory presets

Two foot lengths support 24” and 30” deep worksurfaces
Gyroscope / Anti-Collision Technology

ACTIV bases have built-in gyroscope sensors in their control boxes which can detect angle and speed changes on three axis, triggering the anti-collision safety feature. When activated, bases reverse direction for 2 seconds before stopping.

Reaction Time: 50ms-600ms

Any object in the path of ACTIV base’s movement will initiate the anti-collision safety feature, reversing the direction of the base.
Design and export a customized cut sheet for ACTIV products in our online 3D Design Tool: amqsolutions.com/3d
