x 12

Not used in this
application

Step 1

Before installing the “Screen corner connectors”, we should adjust the spacing between the “Top mounted bracket assembly” at the far end of the worksurface as shown in the diagram “Detail A”.

Step 2

Slide in the “Screen corner connectors” to the back screen first, the “Screen corner connectors” should be 50~80mm away from the edge of screens as shown in “Detail C” or top of “Top mounted bracket assembly” as shown in “Detail D”.

Step 3

Slide down the side screens into the “Top mounted bracket assembly” first, as shown in “Detail E” below. And then slide the side screens into the “Screen corner connectors” as shown in “Detail F” below.

Step 4

Your set up is now complete.
