Adriena Daunt, VBB’s Marketing Strategy consultant presented findings and notes from the discovery phase of her strategy plan. During the month of February, Daunt engaged in stakeholder interviews and consumer research. Contracts have been made with Buxton Research and AirDNA for collecting visitor data and profiles. Daunt and VBB may consider Trip Advisor for further research. The use of mobile phone tracking may also be used to collect data pertaining to events.

The next steps for Ms. Daunt are to analyze the research results to begin drafting the visitor marketing strategy. Areas of focus will be defining the ideal visitor, educating visitors on appropriate behavior, and helping residents understand that VBB is working to bring the best outcome for the community.

Ms. Rangel gave an update on the Care For Big Bear campaign. VBB is wrapping up campaign guidelines and visual guidelines with Gerrit Creps, the graphic designer on retainer for the project. The library of assets includes stickers and garments at this time. Sheet magnets are on now displayed on Nativescapes work trucks as they continue their community cleanup this winter season. Large stickers have also been placed on the additional dumpsters VBB paid for during the winter season. The goal of these logo placements is brand/campaign awareness for C4BB.

The next steps for the C4BB campaign is programming. The discussion will involve the proper steps for getting visitors and locals involved in the programs that will be offered in the Valley.

Danielle Goldsmith asked if the Board will be involved in the campaign’s direction? Ms. Rangel suggested adding this topic to an upcoming Board Marketing Committee meeting.

The Visitor Center staff is currently preparing a new retail area within the VC to include C4BB items.

- Financial Report and Fund Balances

Mr. Perry gave a recap on TBID progress. The current Proposal to the City is a 10 year term. Assessments on lodging companies and BBMR will remain the same. The 10 year Proposal is important so VBB can plan long term for marketing, staffing, and new events, an example being the Goldmine Music Festival among others. City Council has suggested that they will move to approve the TBID on March 8, though the term of the agreement has not been determined. New MOU guidelines with the City and VBB will allow City Council and VBB Board to update the MOU over time.

President Hafen read through the “deal points” of the MOU.

Motion to approve MOU with change made by Danielle Goldsmith and seconded by Christie Brewster.
