Danny Folkman is an award-winning plein air artist and a Signature Member of the Laguna Plein Air Painters Association. His work has been described as capturing “the idea of California,” revealing the quiet beauty of everyday scenes; freeways, side streets, and alleyways transformed by light, shadow and color.

In Danny's words,

“A simple shadow or fresh morning light can bring these otherwise mundane scenes to life.”

At night the vision Danny puts to canvas is extraordinary. We are so very fortunate to have Danny in Big Bear to share his masterful approach to painting the night during a special nocturne demo at Big Bear's World Art Day Artists' Retreat!

***Show/Sell your work the next day at our Pop-Up Gallery!
No commision on sales in Celebration of the Artist***
