

READ ME: OData_SampleData.fmp12

About this File:

- 1) **OData_SampleData.fmp12**, can be hosted on:
 - Claris FileMaker Cloud
 - FileMaker Server installation
- 2) Doing so allows for running examples found in: **OData_Examples.fmp12**
- 3) Note that hosting this file is not a requirement.

To prepare OData_SampleData.fmp12 for hosting:

- 1) Unzip **OData_SampleData.fmp12.zip**
- 2) Open **OData_SampleData.fmp12** using FileMaker Pro.
- 3) Using Menus: File > Manage > Security, make the following changes to **OData_SampleData.fmp12**:
 - Disable the "Admin" [Full Access] account.
 - Add a new [Full Access] account.
 - Create a new account with [Data Entry Only] privileges.
 - Assign strong passwords to the newly created accounts.
 - Record account names and passwords in a secure location.
 - Save the above changes, and exit the Security configuration window.
