Good Afternoon

On behalf of the Chiquita Canyon Landfill, the following information is provided to you regarding the weekly results of methane readings at GP-13 and GP-15 as stipulated in your letter dated May 8, 2024, Items 2 and 3, and in the LEA's June 6, 2024 Compliance Order. The methane data for monitoring wells GP-13 and GP-15 is shown on the attached data table with two rows for August 19, 2025 as GP-13 and GP-15 were read at different times by two different technicians.

As previously stated, we have not included any update on additional GCCS expansion activities, as Chiquita completed its installation of the 107 LFG extraction wells listed in its February 26, 2024, Remediation Plan.

The as-built attached for your use is the latest figure prepared for the GCCS at Chiquita Canyon, based on the system in place as of June 25, 2025. Please note that the multiple headers and laterals are being modified, but due to the amount of work being done, a full survey of the piping will be required to update the drawings as was stipulated in previous submittals. That initial survey is now complete, and the results are being compiled and inserted into Autocad to create the new piping map. This will result in significant changes to this drawing upon completion. However, this drawing does show the locations of the new wells installed through August 20, 2025.

Thank you.

Sincerely,

Art
