All,

In accordance with Condition 65 of the Modified Stipulated Order, below is the summary of the installation and operation of dewatering pumps for the Chiquita Canyon Landfill. This information is subject to change based on further review and verification.

During 09/26/2025 to 10/02/2025, Chiquita completed the installation of, and began operating during the day, two (2) pumps in a vertical LFG extraction well for a total of one hundred and nineteen (119) pumps operating in vertical LFG extraction wells. Please refer to the attached, up-to-date map of LFG wells with operating pumps.

During 10/03/2025 to 10/09/2025, given the number of dewatering pumps installed to date, and the maintenance associated with those pumps, Chiquita plans to install and begin operating an additional four (4) pumps in vertical LFG extraction wells in locations along the north and south slope of the reaction area. The pump installation locations for next week are subject to change due to weather and/or safety conditions.

Regards,

STEVEN Ruben Medina, **E.I.T.**
