Todos - Según la Condición 65 de la Orden Estipulada Modificada, a continuación se encuentra el resumen de la instalación y operación de las bombas de desagüe para el Vertedero de Chiquita Canyon. Esta información está sujeta a cambios, en base a una mayor revisión y verificación.

Durante período que corrió del 10/10/2025 hasta el 16/10/2025, Chiquita completó la instalación y comenzó a operar durante el día siete (7) bombas en un pozo vertical de extracción de LFG dando un total de ciento treinta y tres (133) bombas que operan en pozos verticales de extracción de LFG. Además, la semana pasada se retiraron dos (2) bombas de la línea, generando un aumento neto de cinco (5) bombas. Por favor, consulte el mapa actualizado adjunto de los pozos de LFG con bombas operando.

Durante el período que va del 17/10/2025 hasta el 23/10/2025, dada la cantidad de bombas de desagüe instaladas hasta la fecha y el mantenimiento asociado a esas bombas, Chiquita tiene planeado instalar y comenzar a operar otras cuatro (4) bombas en pozos verticales de extracción de LFG en ubicaciones a lo largo de la pendiente norte y sur de la zona reactiva. Las ubicaciones de las instalaciones de las bombas para la semana que viene están sujetas a cambios debido a las condiciones climáticas y/o de seguridad.

Jessie Han
