Good Evening

I am resending this update as I noticed I still had references to 2025 in a couple of places. Apologies for that oversight. Neither change impacted the attachments.

On behalf of the Chiquita Canyon Landfill, the following information is provided to you regarding the weekly results of methane readings at GP-13 and GP-15 as stipulated in your letter dated May 8, 2024, Items 2 and 3, and in the LEA’s June 6 , 2024 Compliance Order. The methane data for monitoring wells GP-13 and GP-15 is shown on the attached data table.

Monitoring was not performed on January 1 due to the holiday and GP-15 was unable to be monitored on January 6 due to inclement weather creating unsafe conditions.

As previously stated, we have not included any update on additional GCCS expansion activities, as Chiquita completed its installation of the 107 LFG extraction wells listed in its February 26, 2024, Remediation Plan.

The as-built attached for your use is the latest figure prepared for the GCCS at Chiquita Canyon, based on the system in place as of January 7, 2026.

Additionally, the SVE Installation Schedule is below, as requested.

As of 1/7/2026 - Status of SVE Installation:

Chiquita has been diligently working to install the 8 SVE wells as part of Chiquita’s Revised Remediation Plan and related LEA correspondence. As of December 10, 2025, all 8 SVE wells were drilled and installed. Due to potential poor weather conditions and the inability to complete construction activities if the west perimeter road is wet, the estimated completion date of the SVE vaults and lateral installations is February 6, 2026.
