Re: Chiquita Canyon Landfill – Supplemental CUP Condition No. 69 Report

Dear Mr. Nguyen:

Condition 69 of Chiquita Canyon, LLC's ("Chiquita") Conditional Use Permit ("CUP") requires that, upon receiving four Notices of Violation ("NOVs") related to air quality in a given calendar year, Chiquita must submit a report to Los Angeles County Public Works ("PW") within 30 days after the fourth NOV, explaining the NOV and the steps taken to address it. Chiquita must also provide such a report within 30 days of receiving any additional air quality related NOV within the same calendar year.

In 2026, the South Coast Air Quality Management District ("South Coast AQMD") issued Chiquita four NOVs related to air quality, triggering Chiquita's obligation to provide a report under CUP Condition 69. Chiquita submitted reports on February 19 and March 27, 2026.

Since the submission of the March 27 report, South Coast AQMD issued Chiquita twenty additional NOVs for violations of South Coast AQMD Rule 402 and California Health & Safety Code ("HSC") § 41700 alleged to have occurred since March 29, 2026. Copies of these NOVs are provided in Attachment A.¹

¹ The NOV numbers and dates of the alleged violations are as follows: NOV P77874 (March 29, 2026); NOV P65813 (March 30, 2026); NOV P81042 (April 1, 2026); NOV P82512 (April 2, 2026); NOV P83251 (April 5, 2026); NOV P77699 (April 6, 2026); NOV P77700 (April 7, 2026); NOV P77793 (April 9, 2026); NOV P82807 (April 10, 2026); NOV P75583 (April 11, 2026); NOV P75584 (April 12, 2026); NOV P75932 (April 14, 2026); NOV P68900 (April 15, 2026); NOV P77875 (April 19, 2026); NOV P82808 (April 20, 2026); NOV P82515 (April 22, 2026); NOV P83401 (April 24, 2026); NOV P82194 (April 25, 2026); NOV P77794 (April 26, 2026); and NOV P83402 (April 27, 2026).

South Coast AQMD Rule 402 NOVs – Explanation and Corrective Action

A discussion of the South Coast AQMD Rule 402 NOVs, along with corrective actions taken by Chiquita in response to the NOVs, is provided below.

Explanation

These NOVs were issued after a South Coast AQMD inspector verified complaints about odors alleged to be coming from the Chiquita Canyon Landfill (“Landfill”). The NOVs are substantively the same as prior NOVs issued by South Coast AQMD that were addressed in Chiquita’s prior CUP Condition 69 reports. The source of the odors is the same as described in those reports: any odors coming from the Chiquita Canyon Landfill are related to an abnormal biotic or abiotic process (also known as a landfill reaction) taking place deep within a lined, but older and inactive portion of the Landfill waste mass.

Corrective Action

Chiquita provided detailed descriptions of corrective actions taken to mitigate the reaction and any odors emanating from the Landfill in its prior CUP Condition 69 reports. While Chiquita does not repeat information provided in the earlier reports in this report, it continues to take the actions listed in those reports. The corrective actions described in this section include only new measures taken since the last update.

South Coast AQMD Stipulated Order: Under the Stipulated Order for Abatement with South Coast AQMD (Case No. 6177-4) issued on September 6, 2023, and modified on January 17, March 21, April 24, August 27, November 13, 2024, April 16, 2025, June 24, 2025, and December 9, 2025 (“Stipulated Order”), Chiquita has implemented the following additional mitigation measures related to addressing odors:

- As of April 24, 2026, Chiquita has a total of 90 pumps operating in vertical landfill gas extraction wells. There are a greater number of pumps offline than usual due in large part to reduced off-site leachate disposal capacity and the ongoing High-Density Polyethylene /Ethylene Vinyl Alcohol (“EVOH/HDPE”) geomembrane cover deployment. Please note that Chiquita has additional pumps in operation in perimeter sumps that are not included in this count.

Chiquita submits status updates on its compliance with the modified Stipulated Order in its Condition 8 monthly reports to South Coast AQMD. These reports are posted on Chiquita’s Odor Mitigation website (<https://chiquitacanyon.com/odor-mitigation/>). More detailed information on Chiquita’s implementation of and compliance with the modified Stipulated Order is available on Chiquita’s website.

United States Environmental Protection Agency Unilateral Administrative Order: On February 21, 2024, Chiquita received a Unilateral Administrative Order (“UAO”) from the United States Environmental Protection Agency (“US EPA”) requiring Chiquita to submit workplans for its

existing and future efforts to address the reaction and any impacts and conduct additional work to address the reaction. Chiquita has implemented the following additional requirements from the US EPA UAO related to addressing odors:

- On March 17, 2026, Chiquita received an Additional Work Letter from the US EPA directing Chiquita to buttress and install geomembrane cover over the west slope to stabilize the area and minimize odors. Chiquita submitted a West Toe Buttress Work Plan on April 1, 2026, and a Preemptive West Slope Plan and Contingency West Slope Plan on April 16, 2026, to address these directives. Chiquita received comments from US EPA on its West Toe Buttress Plan on April 20, 2026, and is in the process of responding and updating the Plan as appropriate.

More information on Chiquita’s implementation of the US EPA UAO is available on Chiquita’s website.

Local Enforcement Agency Compliance Orders: On June 6, 2024, the Local Enforcement Agency (“LEA”) issued Chiquita a Compliance Order (“2024 Compliance Order”), formalizing CalRecycle-recommended mitigation measures that had previously been imposed by the LEA as well as a few additional requirements. On May 1, 2025, the LEA issued Chiquita another Compliance Order (“2025 Compliance Order”), requiring Chiquita to implement additional mitigation measures to address the reaction. Chiquita has implemented the following additional requirements from the LEA’s 2024 and 2025 Compliance Orders related to addressing odors:

- As of April 22, 2026, Chiquita has installed approximately 39.1 acres of the EVOH/HDPE geomembrane cover.

More detailed information on Chiquita’s implementation of the LEA’s 2024 and 2025 Compliance Orders is available on Chiquita’s website.

DTSC Imminent and Substantial Endangerment Determination and Order: On April 2, 2025, Chiquita received an Imminent and Substantial Endangerment Determination and Order dated April 1, 2025 (“ISE Order”) from DTSC requiring Chiquita to engage in three removal actions designed to further mitigate the reaction. More detailed information on Chiquita’s implementation of the DTSC ISE Order is available on Chiquita’s website.

Enhanced community air monitoring program: As described in prior reports, Chiquita has enhanced its current air monitoring program in coordination with the County Department of Public Health. Data and reports can be found on Chiquita’s Odor Mitigation website. The most recent reports were submitted on April 21, 2026. Chiquita has also established a Chiquita Canyon Landfill Community Air Monitoring Program Webpage: <https://chiquitacanyon.com/reports/community-air-monitoring-program/>. This webpage contains the most recent 1-hour average data for hydrogen sulfide and methane, as well as the average wind speed and direction for the same time period, for twelve community air monitoring stations.

Mr. David Nguyen
