Ref.: Vertedero de Chiquita Canyon - Informe de la Condición No. 69 del CUP Complementario

Estimado Sr. Nguyen:

La Condición 69 del Permiso de Uso Condicional ("CUP") de Chiquita Canyon, LLC ("Chiquita") requiere que al recibir cuatro Avisos de Violación ("NOVs") relacionados con la calidad del aire en un mismo año calendario, Chiquita debe presentar un informe a Obras Públicas ("PW") del Condado de Los Ángeles dentro de los 30 días después del cuarto NOV, explicando el NOV y los pasos tomados para tratarlo. Chiquita además debe proporcionar este informe dentro de los 30 días desde que recibe cualquier NOV adicional relacionado con el aire dentro del mismo año calendario.

En 2026, el Distrito de Gestión de la Calidad del Aire de la Costa Sur ("South Coast AQMD") emitió a Chiquita cuatro NOVs relacionados con la calidad del aire, activando la obligación de Chiquita de proporcionar un informe bajo la Condición 69 del CUP. Chiquita presentó informes el 19 de febrero, el 27 de marzo y el 28 de abril de 2026.

Desde que se presentó el informe del 28 de abril, el AQMD de la Costa Sur le emitió a Chiquita otros ocho NOVs por violaciones de la Regla 402 del AQMD de la Costa Sur y de la § 41700 del Código de Salud y Seguridad ("HSC") de California que denuncian que han ocurrido desde el 28 de abril de 2026.¹ El AQMD de la Costa Sur también le emitió el NOV P81141 a Chiquita por una presunta violación a la Regla 402 y a la § 41700 del HSC el 16 de abril de 2026, que se omitió inadvertidamente en el informe del 28 de abril. Se proporcionan copias de estos NOVs en el Adjunto A.

El 8 de abril de 2026, el AQMD de la Costa Sur le emitió a Chiquita el NOV P82513 con fecha 28 de marzo de 2026 por presuntas violaciones a la § 43401 del HSC y a la Condición No. 75(f) de la Orden de Depuración Estipulada en el Caso No. 6177-4 (la "Orden Estipulada") que se omitió inadvertidamente en el informe del 28 de abril. Se proporciona una copia de este NOV en el Adjunto B.

¹ Los números de los NOV y las fechas de las presuntas violaciones son los siguientes: NOV P82412 (28 de abril de 2026); NOV P75585 (29 de abril de 2026); NOV P82516 (30 de abril de 2026); NOV P82200 (2 de mayo de 2026); NOV P83104 (8 de mayo de 2026); NOV P83404 (9 de mayo de 2026); NOV P79278 (12 de mayo de 2026); y NOV P83105 (24 de mayo de 2026).

Sr. David Nguyen
Obras Públicas del Condado de Los Ángeles
28 de mayo de 2026
Página 2 de 6

El 1 de mayo de 2026, el AQMD de la Costa Sur le emitió a Chiquita el NOV P82517 con fecha 9 de octubre de 2025 por supuestas violaciones a las Reglas 430(b)(1), 3002(a)(1) y 3002(c)(1) del AQMD de la Costa Sur, a la § 42401 del HSC; a la Sección D, Permiso G43917, Condición 14 y a la Sección D, Permiso G55163, Condiciones 2, 8, 13 y 22(A) y a la Sección K del Permiso del Título V de Chiquita; y a las Condiciones No. 15, 22, 25 y 86(c) de la Orden Estipulada. Se proporciona una copia de esta NOV en el Adjunto C.

El 20 de mayo de 2026, el AQMD de la Costa Sur le emitió a Chiquita el NOV P82518 por presuntas violaciones a la § 42401 del HSC y a la Condición No. 27(e) de la Orden Estipulada. Se proporciona una copia de esta NOV en el Adjunto D.

NOVs de la Regla 402 del South Coast AQMD – Explicación y Acción Correctiva

A continuación, se proporciona un debate sobre las NOVs de la Regla 402 del South Coast AQMD, además de las acciones correctivas tomadas por Chiquita en respuesta a las NOVs.

Explicación

Estas NOVs fueron emitidas después de que un inspector del South Coast AQMD verificó los reclamos sobre los presuntos olores que provenían del Vertedero de Canyon de Chiquita (el "Vertedero"). Las NOVs son sustancialmente las mismas que las NOVs previas emitidas por South Coast AQMD que fueron tratadas en los informes previos de la Condición 69 del CUP de Chiquita. El origen de los olores es el mismo que el descrito en esos informes: los olores que provienen del Vertedero de Chiquita Canyon están relacionados con un proceso biótico o abiótico anormal (también conocido como reacción del vertedero) que está ocurriendo en un lugar profundo dentro de una parte revestida, pero más antigua e inactiva, de la masa de desechos del Vertedero.

Acción Correctiva

Chiquita proporcionó descripciones detalladas de las acciones correctivas que fueron tomadas para mitigar la reacción y los olores que emanaban del Vertedero en sus informes previos de la Condición 69 del CUP. Mientras que Chiquita no repite la información proporcionada en informes previos, continúa tomando las acciones indicadas en esos informes. Las acciones correctivas descritas en esta sección incluyen únicamente las nuevas medidas que se están tomando desde la última actualización.

Orden Estipulada del AQMD de la Costa Sur: Bajo la Orden Estipulada emitida el 6 de septiembre de 2023 y modificada el 17 de enero, el 21 de marzo, el 24 de abril, el 27 de agosto y el 13 de noviembre de 2024, el 16 de abril de 2025, el 24 de junio de 2025 y el 9 de diciembre de 2025, desde el informe del 28 de abril, Chiquita ha implementado las siguientes medidas de mitigación adicionales relacionadas con el tratamiento de los olores:

- Al 22 de mayo de 2026, Chiquita tiene un total de 110 bombas que operan en pozos de extracción vertical de biogás. Como se indicó en el informe del 28 de abril, hay una mayor cantidad de bombas fuera de línea de lo normal, debido en gran parte a la menor capacidad de disposición de lixiviados fuera del sitio y al despliegue en curso de cubiertas de geomembrana de polietileno de alta densidad/alcohol etileno-vinílico ("EVOH/HDPE"). Chiquita tiene otras bombas en funcionamiento en sumideros perimetrales que no están incluidas en esta cuenta.

Chiquita presenta a South Coast AQMD las actualizaciones sobre el estado de su cumplimiento de la Orden Estipulada en sus informes mensuales de la Condición 8. Estos informes están publicados en el sitio web de Mitigación de Olores de Chiquita (<https://chiquitacanyon.com/odor-mitigation/>). En el sitio web de Chiquita hay más información detallada sobre la implementación y el cumplimiento de Chiquita con la Orden Estipulada.

Orden Administrativa Unilateral de la Agencia de Protección Ambiental de Estados Unidos: El 21 de febrero de 2024 Chiquita recibió una Orden Administrativa Unilateral ("UAO") de la Agencia de Protección Ambiental de Estados Unidos ("US EPA") que requería que Chiquita presente planes de obra de sus esfuerzos existentes y futuros para tratar la reacción y los impactos y que realice una obra adicional para tratar la reacción. Desde el informe del 28 de abril, Chiquita ha implementado los siguientes requerimientos adicionales de la UAO de US EPA con relación al tratamiento de los olores:

- El 17 de marzo de 2026 Chiquita recibió una Carta de Trabajo Adicional de la EPA de EE.UU. indicándole a Chiquita que apuntale e instale cubierta de geomembrana sobre la pendiente oeste para estabilizar el área y minimizar los olores. Chiquita presentó un Plan de Trabajo para el Apuntalamiento del Talud Oeste el 1 de abril de 2026 y un Plan Preventivo para la Pendiente Oeste y un Plan de Contingencia para la Pendiente Oeste el 16 de abril de 2026, para tratar estas directivas. El 12 de mayo de 2026 Chiquita presentó los documentos del diseño del Apuntalamiento del Talud Oeste, que incluyeron un plan de nivelación preliminar y una evaluación de la estabilidad. Chiquita recibió comentarios de la EPA de EE.UU. en su Plan de Trabajo de Apuntalamiento del Talud Oeste el 20 de abril de 2026 y presentó una respuesta a los comentarios y actualizó el Plan el 15 de mayo de 2026.

En el sitio web de Chiquita hay más información sobre la implementación de Chiquita de la UAO de US EPA.

Órdenes de Cumplimiento de la Agencia de Cumplimiento Local: El 6 de junio de 2024, la Agencia de Cumplimiento Local ("LEA") le emitió a Chiquita una Orden de Cumplimiento (la "Orden de Cumplimiento de 2024"), formalizando las medidas de mitigación recomendadas por CalRecycle que habían sido impuestas previamente por la LEA, como también otros requerimientos adicionales. El 1 de mayo de 2025, la LEA le emitió a Chiquita otra Orden de Cumplimiento (la "Orden de Cumplimiento de 2025"), que requería que Chiquita implementara otras medidas de mitigación para tratar la reacción. Desde el informe del 28 de abril, Chiquita ha implementado los siguientes requerimientos adicionales de las Órdenes de Cumplimiento de la LEA de 2024 y 2025 relacionada con el tratamiento de los olores:

- Al 15 de mayo de 2026, Chiquita ha instalado aproximadamente 45.6 acres de la cubierta de geomembrana de EVOH/HDPE.

En el sitio web de Chiquita hay más información detallada sobre la implementación de Chiquita de las Órdenes de Cumplimiento de la LEA de 2024 y 2025.

Determinación de Peligro Inminente y Sustancial y Orden del Departamento de Control de Sustancias Tóxicas: El 2 de abril de 2025 Chiquita recibió una Determinación de Peligro Inminente y Sustancial y Orden con fecha 1 de abril de 2025 (la "Orden ISE") del Departamento de Control de Sustancias Tóxicas (el "DTSC") que indica que Chiquita debe tomar tres acciones de remoción

designadas para mitigar la reacción aún más. En el sitio web de Chiquita hay más información detallada sobre la implementación de Chiquita de la Orden ISE del DTSC.

Mejora del programa de monitoreo del aire comunitario: Como se describió en los informes previos, Chiquita ha mejorado su programa de monitoreo del aire actual en coordinación con el Departamento de Salud Pública del Condado. Los datos e informes se encuentran en el sitio web de Mitigación de Olores de Chiquita. El informe más reciente se presentó el 21 de mayo de 2026. Chiquita también hizo una Página Web del Programa de Monitoreo del Aire de la Comunidad del Vertedero de Chiquita Canyon: <https://chiquitacanyon.com/reports/community-air-monitoring-program/>. Esta página web contiene los datos promedio de 1 hora más recientes sobre ácido sulfhídrico y metano, como también la velocidad y la dirección del viento promedio para el mismo período de tiempo, de doce estaciones de monitoreo del aire de la comunidad.

NOV P82513 del AQMD de la Costa Sur

El 8 de abril de 2026, el AQMD de la Costa Sur le emitió a Chiquita el NOV P82513 con fecha 28 de marzo de 2026 por presuntas violaciones a la § 43401 del HSC y a la Condición No. 75(f) de la Orden Estipulada. El NOV denuncia específicamente que Chiquita no presentó un informe final que detalle los resultados del estudio de viabilidad realizado para evaluar la viabilidad y la funcionalidad de agregar el índice de flujo y la composición de los gases como parámetros de monitoreo en uno de los sistemas de monitoreo remoto de Chiquita.

Chiquita presentó el informe el 8 de abril de 2026. Chiquita no pudo presentarlo antes porque SCS Engineers ("SCS") tuvo un ataque informático que dio como resultado un corte continuo en el servidor y por este motivo no tuvo acceso a datos clave necesarios para elaborar el informe final. Cuando quedó claro de que SCS no podría finalizar y presentar el informe el 27 de marzo como estaba previsto originalmente debido al corte continuo del servidor, el 25 de marzo Chiquita le informó al AQMD de la Costa Sur que necesitaba una breve extensión como resultado del ataque informático. Chiquita nunca recibió una respuesta del AQMD de la Costa Sur. Después de que SCS volvió a tener acceso a sus servidores, el Comité de la Reacción finalizó y presentó el informe final el 8 de abril de 2026.

NOV P82517 del AQMD de la Costa Sur

El 1 de mayo de 2026, el AQMD de la Costa Sur le emitió a Chiquita el NOV P82517 con fecha 9 de octubre de 2025 por supuestas violaciones a las Reglas 430(b)(1), 3002(a)(1) y 3002(c)(1) del AQMD de la Costa Sur, a la § 42401 del HSC; a la Sección D, Permiso G43917, Condición 14 y a la Sección D, Permiso G55163, Condiciones 2, 8, 13 y 22(A) y a la Sección K del Permiso del Título V de Chiquita; y a las Condiciones No. 15, 22, 25 y 86(c) de la Orden Estipulada. El NOV denuncia específicamente que Chiquita (1) "[n]o quitó los materiales de excavación de la superficie del vertedero"; (2) "[n]o cumplió con todos los requerimientos reglamentarios y términos y condiciones de los permisos"; (3) "[n]o cumplió con todas las condiciones de permiso del sistema de Recolección de Biogás"; (4) "[n]o realizó acciones para mitigar olores y la dispersión y exposición de lixiviados en la atmósfera"; (5) "[n]o operó equipos para evitar la descarga de vapores líquidos con olor en la atmósfera"; (6) "[n]o obtuvo un Permiso para Operar ni un permiso temporal para operar antes de poner en funcionamiento un oxidante térmico"; (7) "[n]o realizó el mantenimiento correcto de los equipos ni mantuvo buenas condiciones operativas en todo momento";

Sr. David Nguyen
Obras Públicas del Condado de Los Ángeles
28 de mayo de 2026
Página 5 de 6

(8) "[n]o guardó los medios absorbentes usados del sistema de tratamiento de biogás en contenedores cerrados antes de su disposición"; y (9) "[n]o informó la descomposición al AQMD de la Costa Sur".

Chiquita continúa evaluando las presuntas violaciones y puede proporcionar una mayor explicación en el informe de seguimiento, como corresponda.

NOV P82518 del AQMD de la Costa Sur

El 20 de mayo de 2026, el AQMD de la Costa Sur le emitió a Chiquita el NOV P82518 con fecha 10 de enero de 2026 por presuntas violaciones a la § 42401 del HSC y a la Condición No. 27(e) de la Orden Estipulada. El NOV denuncia específicamente que Chiquita "[n]o presentó un informe de fugas o derrames de lixiviados al AQMD de la Costa Sur dentro de las 48 horas desde su descubrimiento". En base a otras correspondencias con el AQMD de la Costa Sur, Chiquita comprende que el NOV se refiere a dos ocurrencias separadas, una el 9 de enero y otra el 2 de mayo de 2026.

Chiquita continúa evaluando las presuntas violaciones y se asegurará de que los derrames y las fugas se informen dentro de las 48 horas desde que se descubren, siempre que sea posible. Chiquita puede proporcionar una mayor explicación en los informes de seguimiento, como corresponda.

Por favor, comuníquese conmigo si tiene alguna pregunta sobre este informe.

Atentamente,

Kevin Green
Gerente de Distrito
Vertedero de Chiquita Canyon

What is a Notice of Violation?

A Notice of Violation is issued by an SCAQMD Air Quality Inspector to inform a business that a failure to comply with one or more applicable federal, state, and/or local (SCAQMD) air pollution rules and regulations or legal requirements is being alleged.

What happens when I receive a Notice of Violation?

If you are operating in violation of one or more applicable federal, state, and/or local (SCAQMD) air pollution rules and regulations or legal requirements, each day or part of a day that you operate in violation is considered a separate violation even if only one Notice of Violation has been issued. Continuing to operate in violation may subject you to substantial civil or criminal penalties. **It is in your best interest to resolve any compliance problem immediately before you resume operation.**

What if I need to continue to operate the equipment named in the Notice of Violation?

If continued operation of equipment cited in the Notice of Violation is necessary, you may be able to obtain a variance from SCAQMD's Hearing Board. A **variance** is an administrative order that allows a company to continue operating without penalties while it takes appropriate steps to meet air pollution control requirements. Proof of specific legal circumstances must be provided before a variance can be granted. Timeliness in seeking such relief will be considered by the Hearing Board. Additional information concerning variances can be found in California Health & Safety Code §§ 42350-42359.5 and at <http://www.aqmd.gov/home/about/hearing-board>.

During a hearing for a variance, you may be represented either by yourself or by your attorney or consultant. You will have the opportunity to present evidence and testimony, and to cross-examine any SCAQMD witness.

If you fail to comply with any order of the Hearing Board, you may be subject to additional civil or criminal penalties set forth in California Health & Safety Code §§ 42400 *et seq.* and 42402 *et seq.*

How are Notices of Violation resolved?

The SCAQMD General Counsel's office reviews each alleged violation and, based on the facts, determines how best to resolve the allegation. Options available to the General Counsel's office include:

- **Minor Source Penalty Assessment Program**

Certain Notices of Violation may be eligible for resolution through SCAQMD's Minor Source Penalty Assessment Program if they are issued to a minor source or for violations other than emitting air toxics or creating a

public nuisance involving injury or property damage.

If your case is handled by this program, you will receive a letter or phone call from an investigator in the SCAQMD General Counsel's office offering to settle your violation. Settlement terms usually call for a penalty payment and written proof of current compliance. The investigator's name and telephone number are included in the initial settlement letter in the event you would like to discuss the case.

Be prepared to describe any facts about the violation that you believe SCAQMD should know in considering your case. Sharing your knowledge of the facts, possible causes for the violation and plans to avoid future violations will help the investigator arrive at an appropriate disposition. **Be sure to respond by the date indicated in the letter to avoid further legal action.**

If the Minor Source Penalty Assessment Program fails to result in a settlement, your Notice of Violation may be referred to an SCAQMD attorney and handled under the procedures for Civil Prosecution or resolved through a Small Claims Court.

- **Civil Prosecution**

If your case is handled as a civil matter, it will be reviewed by an attorney from the SCAQMD General Counsel's office, who will typically make first contact with you through a letter that asks for information about your case. If the allegations in the Notice of Violation cannot be informally resolved, the SCAQMD is authorized to file a civil lawsuit in court to recover civil penalties. In cases involving serious harm or danger, however, SCAQMD may immediately commence a legal action for civil penalties and a court-ordered injunction. A **mandatory injunction** is a court order compelling a person and/or company to take specific action. A **prohibitory injunction** is a court order compelling a person and/or company to refrain from taking a specific action. Injunctions, which may even lead to shutting down a business, may be sought by SCAQMD to prevent continuing or serious violations or damages from occurring.

- **Criminal Prosecution**

If SCAQMD determines that criminal prosecution is appropriate, the case will be referred to the appropriate state or federal law enforcement agency. That agency will determine if criminal prosecution is warranted.

Civil and Criminal Penalties

Penalties are determined by California Health & Safety Code §§ 42400 *et seq.* and 42402 *et seq.*

If continued operation of equipment cited in the Notice of Violation is necessary, you may be able to obtain a variance from SCAQMD's Hearing Board. A **variance** is an administrative order that allows a company to continue operating without penalties while it takes appropriate steps to meet air pollution control requirements. Proof of specific legal circumstances must be provided before a variance can be granted. Timeliness in seeking such relief will be considered by the Hearing Board. Additional information concerning variances can be found in California Health & Safety Code §§ 42350-42359.5 and at <http://www.aqmd.gov/home/about/hearing-board>.

During a hearing for a variance, you may be represented either by yourself or by your attorney or consultant. You will have the opportunity to present evidence and testimony, and to cross-examine any SCAQMD witness.

If you fail to comply with any order of the Hearing Board, you may be subject to additional civil or criminal penalties set forth in California Health & Safety Code §§ 42400 *et seq.* and 42402 *et seq.*

How are Notices of Violation resolved?

The SCAQMD General Counsel's office reviews each alleged violation and, based on the facts, determines how best to resolve the allegation. Options available to the General Counsel's office include:

- **Minor Source Penalty Assessment Program**

Certain Notices of Violation may be eligible for resolution through SCAQMD's Minor Source Penalty Assessment Program if they are issued to a minor source or for violations other than emitting air toxics or creating a

public nuisance involving injury or property damage.

If your case is handled by this program, you will receive a letter or phone call from an investigator in the SCAQMD General Counsel's office offering to settle your violation. Settlement terms usually call for a penalty payment and written proof of current compliance. The investigator's name and telephone number are included in the initial settlement letter in the event you would like to discuss the case.

Be prepared to describe any facts about the violation that you believe SCAQMD should know in considering your case. Sharing your knowledge of the facts, possible causes for the violation and plans to avoid future violations will help the investigator arrive at an appropriate disposition. **Be sure to respond by the date indicated in the letter to avoid further legal action.**

If the Minor Source Penalty Assessment Program fails to result in a settlement, your Notice of Violation may be referred to an SCAQMD attorney and handled under the procedures for Civil Prosecution or resolved through a Small Claims Court.

- **Civil Prosecution**

If your case is handled as a civil matter, it will be reviewed by an attorney from the SCAQMD General Counsel's office, who will typically make first contact with you through a letter that asks for information about your case. If the allegations in the Notice of Violation cannot be informally resolved, the SCAQMD is authorized to file a civil lawsuit in court to recover civil penalties. In cases involving serious harm or danger, however, SCAQMD may immediately commence a legal action for civil penalties and a court-ordered injunction. A **mandatory injunction** is a court order compelling a person and/or company to take specific action. A **prohibitory injunction** is a court order compelling a person and/or company to refrain from taking a specific action. Injunctions, which may even lead to shutting down a business, may be sought by SCAQMD to prevent continuing or serious violations or damages from occurring.

- **Criminal Prosecution**

If SCAQMD determines that criminal prosecution is appropriate, the case will be referred to the appropriate state or federal law enforcement agency. That agency will determine if criminal prosecution is warranted.

Civil and Criminal Penalties

Penalties are determined by California Health & Safety Code §§ 42400 *et seq.* and 42402 *et seq.*

Available Resources

You can obtain SCAQMD Rules, permit application forms, and detailed information about SCAQMD and the Hearing Board using the resources provided below:
