Re: Chiquita Canyon, LLC's Responses to Questions Asked During the August Community Advisory Committee, Castaic Area Town Council, and Chiquita Canyon Landfill Community Meetings

Dear Mr. Lewis:

Chiquita Canyon, LLC ("Chiquita") provides the following responses to questions asked during Chiquita's community meeting on Thursday, August 20, the Chiquita Canyon Landfill Community Advisory Committee ("CAC") meeting on Tuesday, August 11, 2026, and the Castaic Area Town Council ("CATC") meeting on Wednesday, August 19. Chiquita also intends to provide responses to additional questions during next month's meetings.

Chiquita provides these written responses to ensure complete and accurate information is provided to the public, together with the appropriate context. Because many of the questions addressed overlapping topics, Chiquita has grouped them by subject to avoid repetition. Chiquita will also post these responses on its Odor Mitigation website (<https://chiquitacanyon.com/odor-mitigation/>).

Operational Updates

- Wellhead Temperatures. Based on the most recent readings taken in August, the highest wellhead temperature is currently 201 degrees Fahrenheit. Chiquita believes that the recent fluctuations in wellhead temperatures are due to the increased pumping of liquids on-site, which allows for increased movement of landfill gas and heat throughout the Landfill.

Other Questions

- Future Written Responses. Beginning this month, Chiquita will copy the Val Verde Civic Association on these written responses as requested.

Chiquita Canyon, LLC Responses to Questions Asked During August Community Meetings
