Hard to believe it's been 873 days since the end of CinemaCon 2019. A lot has happened since then and you might say, "we aren't in Kansas anymore". Or, better put, we aren't in London, Tokyo, Sydney or Mexico City, if you will. So, where are we? Great question. This and many others will be addressed during this in-depth discussion on the International market, which accounts for upwards of 70% of the global box office.

WORKFORCE HAPPINESS: YOUR SECRET WEAPON FOR A SUCCESSFUL COMEBACK

Valerie Alexander, CEO, Goalkeeper

Our theaters and, more than ever, our employees, are on the front lines of our industry's recovery. Which means our front-line people have to love the part we play in making this happen. The best way we can ensure that love happens is by making their happiness our top priority. Across more than a dozen distinct metrics, having a happy workforce creates enormous value and savings for employers, but beyond that, it's just more fun to go someplace that feels warm, welcoming and, well...happy, especially to watch a movie! Valerie Alexander is a renowned expert on the brain science behind happiness. She is joining us today to explore the top factors that determine how happy we all are in our jobs and to share simple, meaningful changes we can make in policies and training that can be put into practice immediately to achieve inspiring results for everyone in our work families. We all want the movie-going experience to once again be the memory-making, uplifting and thought-provoking endeavor it's always been, and making sure the people who bring us those movies are happy, from the box office to the ticket-takers to the projectionists to the popcorn poppers, will be the surest way to bring back that joy.
