

Eldercare Plus

Support. Just When You Need It.

“When Dad got sick, I didn’t know where to start. CONCERN helped me create a plan to make sure Dad was well taken care of.”

The majority of people 65 and older suffer from cognitive impairment or a disability that can hinder their daily lives. As your parent, family member or spouse ages, you may find yourself worrying more about their health and well-being.

CONCERN’s Eldercare Resources, eldercare consultants, and geriatric care managers will take a comprehensive and customized approach to your loved one’s welfare, and follow up at week one and three, and six months. Additionally, Eldercare Plus provides six hours per year of Home-Based Eldercare services anywhere in the U.S.

-  **Needs Assessment:** We’ll evaluate financial, health and living circumstances, develop a customized plan, and help set priorities
-  **Targeted Educational Materials:** Learn about Medicare, Medicaid, and other topics with our complementary book and online articles and links
-  **Pre-screened local and nationwide resources:**
Our network of resources includes:
 - Skilled nursing facilities
 - Home health care options
 - Assisted living and adult daycare options
 - Eldercare attorney referrals
 - Expertise on Alzheimer’s issues
 - Meals on Wheels services
-  **Down the Line:** On-going communication and consultation with family and/or facility review services can also be included

Call our toll free number and ask to speak with an Eldercare Plus specialist, and get your loved ones the assistance they need.
