Please make sure wall is structurally sound before installing Wall Shelf

Tools Required: Sockets or wrenches: 3/8" or 10mm

#2 Phillips bit for installing Screws

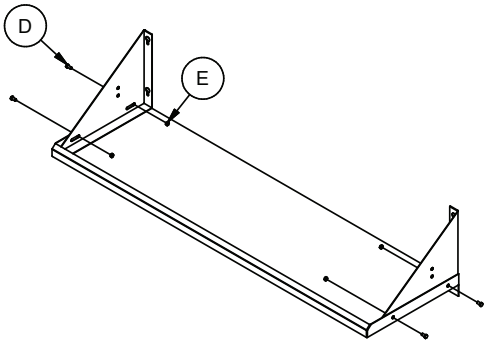

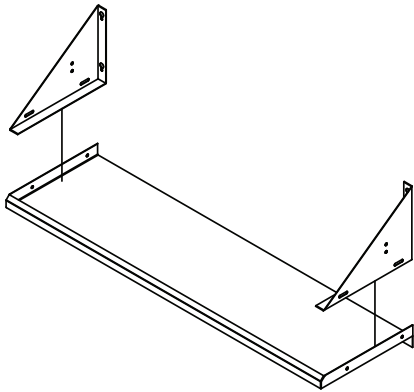

| PARTS INCLUDED | | |
|----------------|------------------------|-----|
| Item | Item # | Qty |
| A | Shelf | 1 |
| B | Left Mounting Bracket | 1 |
| C | Right Mounting Bracket | *1 |

*Note: 72", 84" & 96" wide Wall Shelves have a qty of 2 Right Mounting Brackets

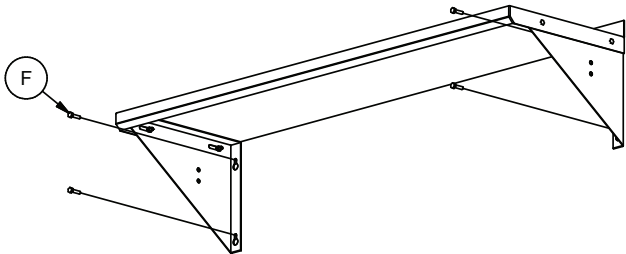

| HARDWARE INCLUDED | | | |
|-------------------|--------|-----|---|
| Item | Item # | Qty | Description |
| D | Bolt | 4 | M6-1.0 x 12mm Hex Cap Screw |
| E | Nut | 4 | M6-1.0 Lock Nut |
| F | Screw | **4 | 1/4"-14 x 1" Hex Head Sheet Metal Screw |

**Note: 72", 84" & 96" wide Wall Shelves have 6 Screws

1. Confirm all parts/hardware are included
2. A) Turn Shelf upside down on a clean surface to avoid scratching. Attach the Left & Right Mounting Brackets to the Shelf using the Nuts & Bolts provided. Once all the Nuts & Bolts are properly tightened, the Wall Shelf is ready to be attached to the wall.
Note: For 72", 84" & 96" Wall Shelves, the 2nd Right Mounting Bracket will be installed after the Wall Shelf is attached to the wall and will not attach to the Shelf.

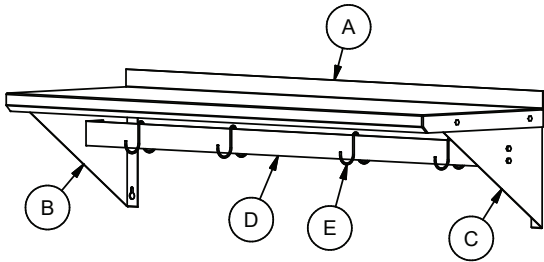

3. Attach the Wall Shelf to the wall using the Screws provided. **Note: If possible, mount Wall Shelf to wall studs.**
