IPEVO VOCAL Firmware Update Instruction

First, download the Firmware .bin file here with the Windows operating system and save it to your desktop.

.bin **Click Here**

IPEVO
www.ipevo.com

❶ Take VOCAL out of the package.

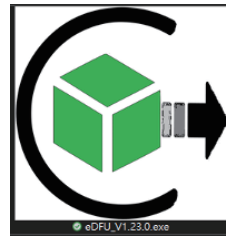

❷ Connect VOCAL to the laptop/computer through USB-C.

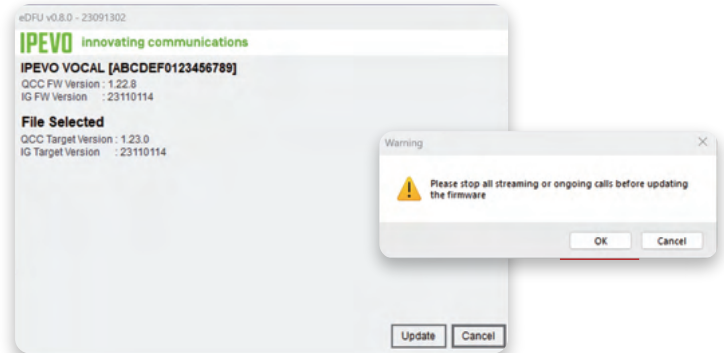

❸ Press and hold the power button to turn on VOCAL.

4 Open the Firmware .bin file
which you just download to execute
the eDFU update program.

* Notice: The update process can only be executed
on system windows 10/11

**5** Press the "Update" button
and then choose the "OK" button.

6 Start the first update, which takes about
6 minutes. After completion, it will
automatically enter the second update.

7 The second update starts, it takes about
4 minutes.

8 When the update is completed, please
confirm the updated version is correct
and click Confirm to end the update
process.

That's it! You're ready to take advantage of the new features of IPEVO VOCAL.
