

# IPEVO

## Uplift Magnetic

Multi-Angle Arm for iPhone 12 series and above

# Powerful one-second magnetic attachment.

### One-second attachment, one-hand removal

Uplift's magnetic holder is perfectly calibrated to provide maximum force while letting you remove your phone with just one hand.

### Freely adjustable - for the best viewing angle

Uplift's height, angle, and orientation are easily changeable by simply moving the arm into the desired position.

### Strong metal design

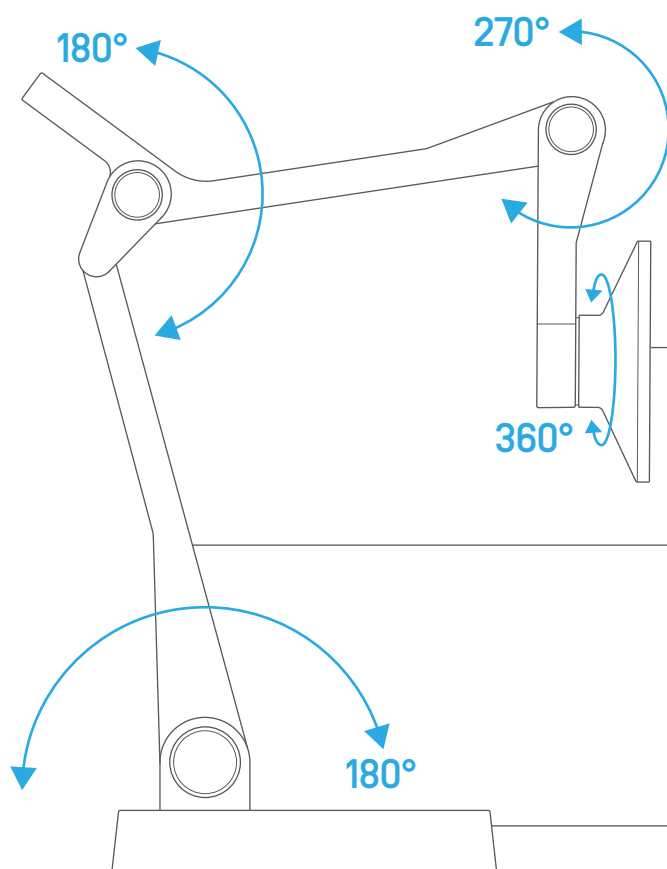

No sway nor shaking. The image steadiness is ensured by Uplift's aluminum alloy arm, anchored down by its heavy (2.2 lbs) base, sitting on a protective silicone pad.

### For every situation

Uplift is ideal for video communication, multi-screen workspace, online teaching, stock monitoring, presentations, and anytime you need to use your phone hands free.

Secure attachment ensured by the strongest neodymium magnet (N52 grade).

The three joints of Uplift's aluminum arm can be freely adjusted without any subsequent image shaking.

\* Uplift's carry weight limit is 0.66 lbs.

Uplift's thick base made of steel firmly stabilizes the whole stand while protecting your table with its anti-slip silicone pad.
