DIVISIONS/CONFLICTS

The guidelines for debate divisions follow the standards adopted by the Northwest Forensics Conference. Individual events will follow NFC guidelines for placement of students in divisions and will include novice, junior, and open divisions. Open and junior divisions will be offered in ALL events, and novice divisions will be offered in selected events. Novice and open division will be collapsed if there are fewer than 9 contestants entered in the division. Lower divisions will always be moved up. Junior division will be collapsed if there are fewer than 12 contestants in the division. All competitors must be undergraduate students.

Novice Debate:

Novice divisions in debate should be reserved for students with little or no experience. This is the place for students to gain experience in debate and to learn what the activity is about. In general, a novice division competitor will be in his or her first full year of collegiate forensics, and will not have advanced to semi-finals at more than three tournaments in collegiate competition. Coaches should refrain from placing students with significant high school experience in novice divisions.

Junior Debate:

Junior division should be reserved for students who have a significant amount of high school experience in debate or have had significant success at the novice levels of debate. In general, a junior competitor will be in his or her first or second full year of collegiate forensics and will not have advanced to quarterfinals more than eight times in collegiate competition.

Open Debate:

Students should be entered in senior divisions after they have demonstrated consistent success at the junior level. In general, a senior division competitor will be in his or her third or fourth full year of collegiate competition and/or will have demonstrated the consistent ability to be successful at the junior level. However, senior division is open to any competitor who wishes to enter it.

Novice Individual Events:

Novice divisions in individual events should be reserved for students with little or no experience. This is the place for students to gain experience in college forensics and to learn what the activity is about. In general, a novice divisions competitor will be in his or her first full year in collegiate forensics, and will not have won more than three first, second or third place trophies in that genre in collegiate competition. Coaches should refrain from placing students with significant high school experience in novice divisions.

Junior Individual Events:

Junior division should be reserved for students who have a significant amount of high school experience in competitive forensics or have had significant success at the novice levels of college forensics. In general, a junior competitor will be in his or her first or second full year of collegiate forensics and will not have advanced to finals more than eight times in that genre in collegiate competition.

Open Individual Events:

Students should be entered in senior divisions after they have demonstrated consistent success at the junior level. In general, a senior division competitor will be in his or her third or fourth full year of collegiate competition and/or will have demonstrated the consistent ability to be successful at the junior level. However, senior division is open to any competitor who wishes to enter it.

In debate and duo, the team member with the highest division placement determines the division in which the team is placed.

In individual events, competitors are restricted to **two** events per pattern. Character Debate counts as 1 event in pattern C, so students participating in this experimental event can enter one additional event in that pattern. It is the responsibility of all students to be on time for rounds.

TOURNAMENT ADMINISTRATION/NOTES

The tournament staff will include Directors of Forensics from throughout the region. Therefore, Linfield students will compete and will be eligible for awards if the judging pool permits. Individual events will be prematched using a computer program.

Participants for final rounds in individual events will be determined on the basis of: (1) cumulative rankings and (2) cumulative ratings. Should ties exist, the NFC tie breaking procedure will be used. Places will be determined on the basis of final round rankings. Should ties exist, the tie breaking procedure outlined in the NFC Bylaws will be used.

The first two round of debate will be prematched, so please report drops promptly. Powermatching will be done **after every subsequent round**, and the matching procedure will follow the NFC guidelines for designated tournaments. Variations in the procedure will be determined by the debate tab room staff prior to the beginning of the tournament. NOTE: If it is necessary to keep the tournament running on time, we may use a lag power match (for instance, matching round four based on results after round two).

Participants for elimination rounds in debate will be determined on the basis of: (1) win-loss record; (2) adjusted cumulative speaker ratings after dropping highs and lows; (3) cumulative speaker ratings; (4) quality of competition (win-loss record of opposing teams).

Sweepstakes points for the tournament will be calculated according to the following formula:

NPDA/IPDA

1st	15 points
2nd	12 points
Semifinalist	10 points
Quarterfinalist	8 points

BP Debate

1st	15 points
2nd	12 points
Finalist	10 points
Semifinalist	8 points

Individual Events & Character Debate

1st	12 points
2nd	10 points
3rd	8 points
4th	6 points
5th	4 points
6th	2 points

AWARDS

Awards will be presented to winners and finalists in all events. Speaker awards will be presented to the top five debaters in each division. Debate teams qualifying for elimination rounds will receive appropriate awards. Sweepstakes awards will be given to the top schools in each of the three NFC Divisions. The Linfield travelling trophy will be awarded to the institution with the highest sweepstakes points, regardless of division. As in the past, the Mahaffey Outstanding Speaker Award will be presented to the individual speaker earning the highest number of sweepstakes points in open division events, and the Singletary Outstanding Debater Award will be given to the top debater regardless of style of debate. The Marshall award will be presented to the individual novice/junior speaker earning the highest number of sweepstakes points. For the Mahaffey/Marshall awards points earned in the speaker's top FIVE events will count and the Mahaffey/Marshall winner will be determined using the following criteria: (1) total number of sweepstakes points, (2) number of events advancing to finals, (3) number of first-place finishes in finals. Note: junior/novice level competitors can still earn points toward the Marshall award in events that are collapsed due to small entries. For the Singletary award, the top speakers from each division of the three debate formats will be determined, and the winner will be selected using the following criteria: (1) number of times the debater earned the highest speaker points in prelim rounds, (2) record in elimination rounds. In the event that all criteria have been exhausted and the tie cannot be broken for either the Singletary award, division may be used to break the tie with preference given to competitors in the open division.

FEES

I realize that many of you are working under the constraints of extremely tight budgets. We genuinely want to provide all programs the chance to participate. Please contact me if you want to attend the tournament but are concerned about the fees. We may be able to waive the school fee or negotiate a reduced registration fee of some sort.

Registration Fees

School Fee:	\$30.00 (waived for all non-NFC schools)
Debate Fee:	\$70.00/team, \$35.00/IPDA
Individual Events Fee:	\$8.00 per slot
NFC Fee (for students from NFC schools):	\$4.50 per person

Judging Fees

Each school must provide the equivalent of one full-time judge in order for students to compete at this tournament. Programs that do not have a DOF should contact Jackson regarding a waiver of this rule. One full-time judge covers two debate teams or four contestants in IPDA. All debate judges are committed through the quarterfinal round. One full-time judge covers four individual events per pattern. We are anticipating a large tournament this year, so please bring extra judges. Please note that the tournament will not be obligated to accept more than **4 uncovered debate entries** from any one school. Also, if we need to ask schools to drop some teams due to room limitations, programs with **uncovered entries** will be asked to drop first. As most of you know, the McMinnville pool of judges is limited.

Uncovered Debate:	\$150.00/team, \$75.00 IPDA
Uncovered Individual Events:	\$15.00 per slot

*A contestant may not enter more than **one** debate format.

*Three person debate teams and "mavericks" are **not** permitted.

PARLIAMENTARY DEBATE (N, J, O)

The NPDA divisions will use NPDA national tournament guidelines (except where these conflict with NFC rules) with topics announced in a general chamber. All divisions will use a 7-8-8-8-4-5 format with 20 minutes pre-round preparation (including walk time). **PLEASE NOTE: No materials written prior to the announcement of the topic should be consulted or used during the debate.** Debates will begin 20 minutes after the topic announcement—regardless of whether or not both teams are present.
