Nova 42.

Morality (an alternative for SAT).

same value criteria.

1) standard comparison among all classes.

1) biased

higher income → higher score.

Impacts: burden on economy

unequal income distribution

2) MIS SCHOLARSHIP OPPORTUNITY.

GPA → less bias

rich leads to higher score →

2) grade inflation

* benefit rich

bias to the rich response: test balance both classes regardless of background.

WOMEN response: doesn't solve problem.

GPA better predictor: test cut down rich advantage.

* Don't drop any contentions.

* need to extend impacts why GPA lead to morality. It is good that you tried, but tie it back on the impacts of both worlds. Now it benefits in a world w/o SAT & now it hurts w/ SAT

good rebuttal

* good on providing results of not having standardize test on the end.
