## Frequently Asked Questions

How does InVideo AI work?

Simply describe your video idea in plain English, and our AI will generate a complete video with scenes, voiceover, music, and transitions. You can then customize it using our intuitive editor or request revisions with simple text commands.

Do I need video editing experience?

Not at all! InVideo AI is designed for everyone. Our AI handles all the technical aspects of video creation, allowing you to focus on your content. The interface is simple enough for beginners but powerful enough for professionals.

What types of videos can I create?

You can create virtually any type of video: social media content (YouTube, TikTok, Instagram), ads, explainers, tutorials, presentations, training videos, product demos, and more. Our templates cover all major categories.

Can I use my own media?

Yes! You can upload your own images, videos, logos, and music to personalize your AI-generated videos. Our platform also provides access to millions of stock assets if you need additional content.

Is there a free trial?

Absolutely! We offer a 7-day free trial where you get full access to all features. No credit card required to start. You can create and export videos during the trial period to test our platform.
