

D River Welcome Center Stakeholder Input

Stakeholder Input

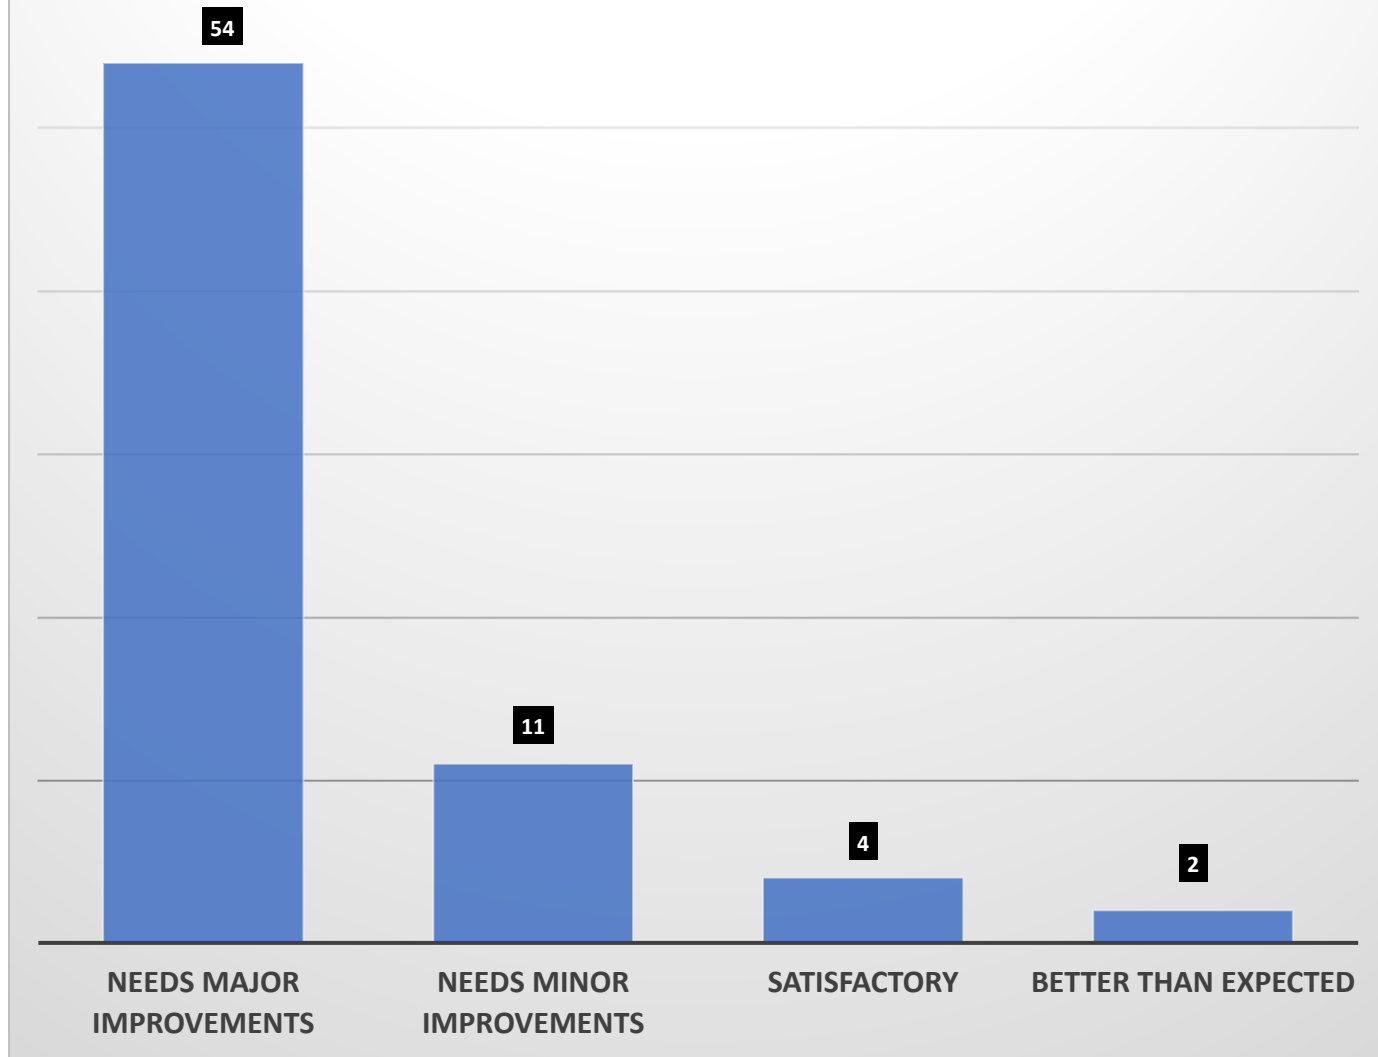

D River Welcome Center Public Survey

- Conducted Online, January 2023

D River Welcome Center Public Engagement Meetings

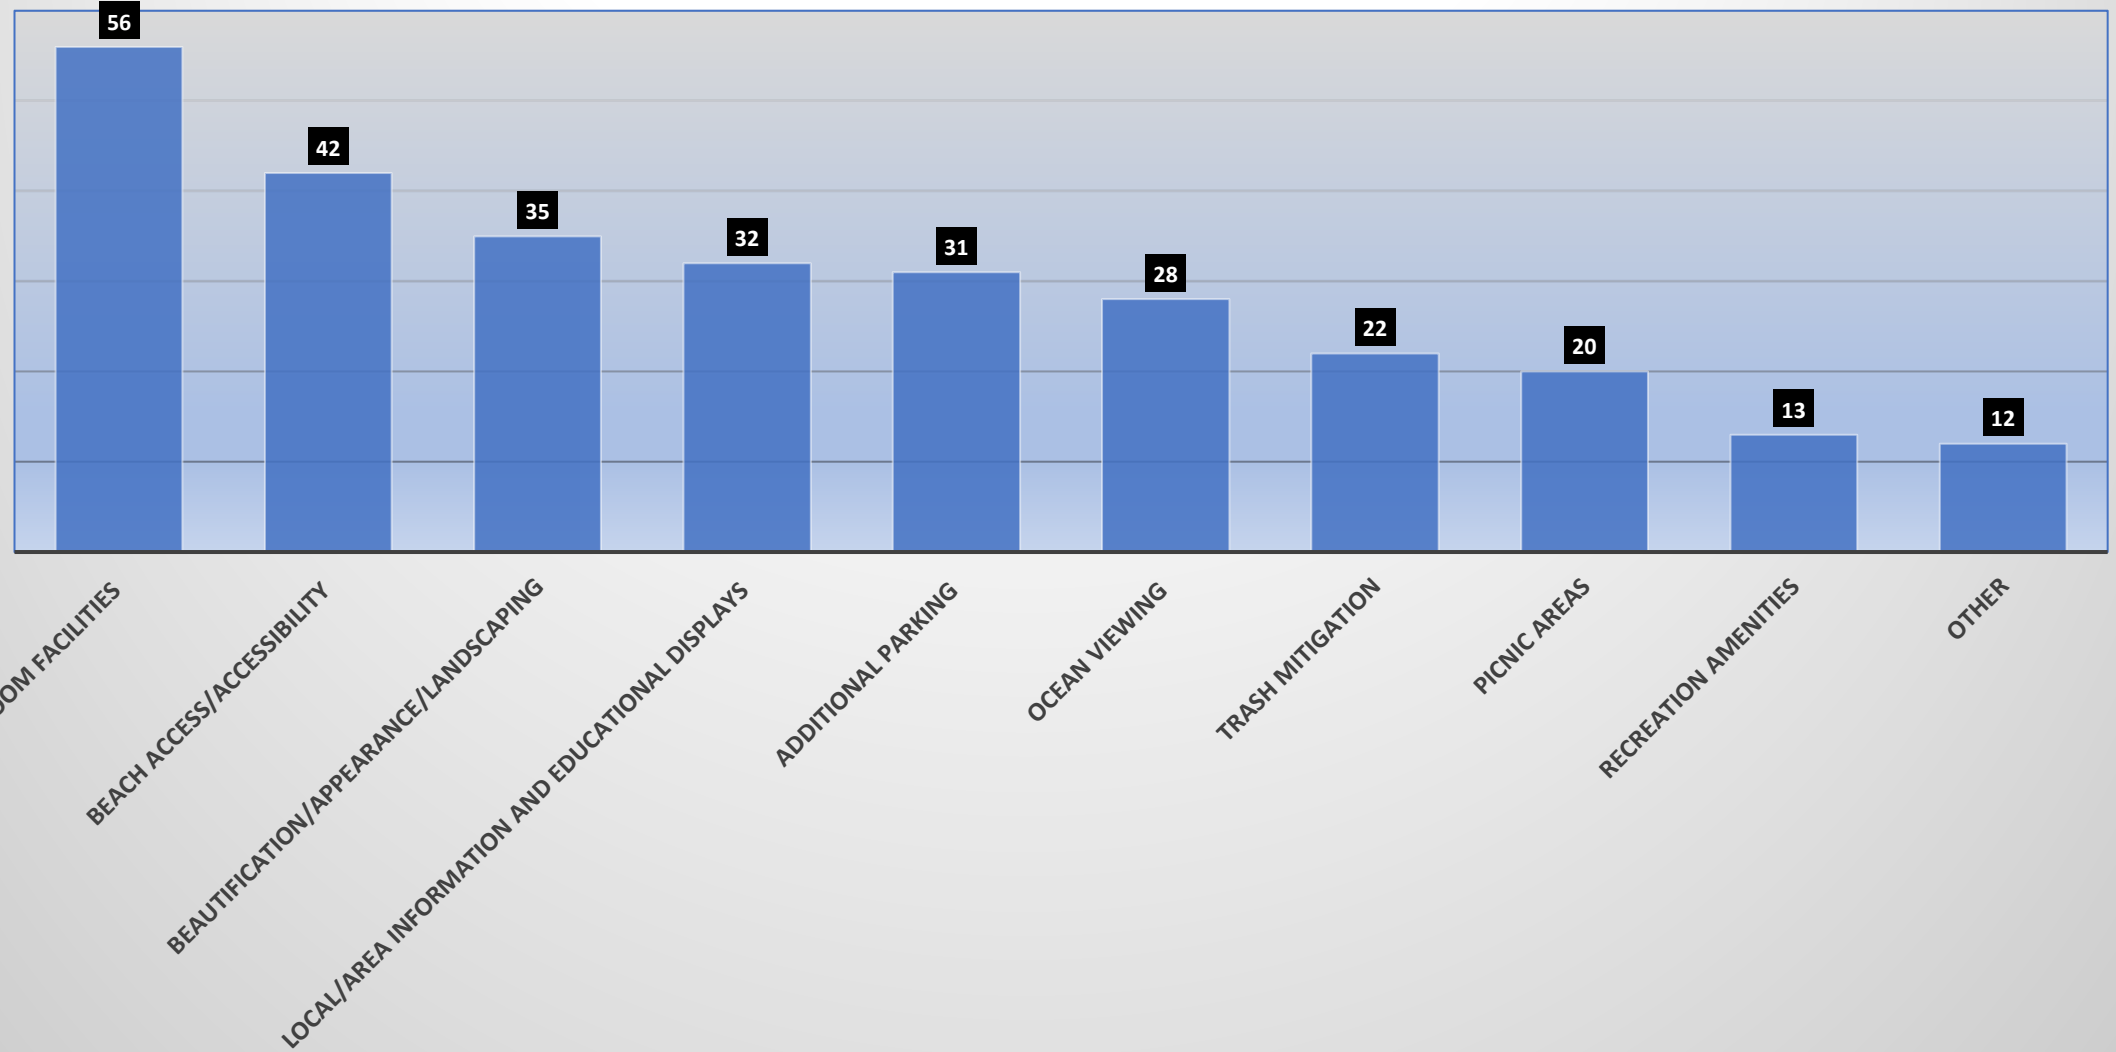

- Chamber of Commerce Ribbon Cutting at Temporary Welcome Center in City Hall: 9/9/22
 - Kiwanis Luncheon: 9/22/22
 - Rotary Luncheon: 11/30/22
 - Stakeholder Session #1: 11/1/22 at 2:00, City Hall
 - Chamber Luncheon: 1/13/23
 - Stakeholder Session #2: 1/13/23 at 6:00, City Hall
- 

Overall Impression of Current Facilities

- The current facility is in need of improvement.

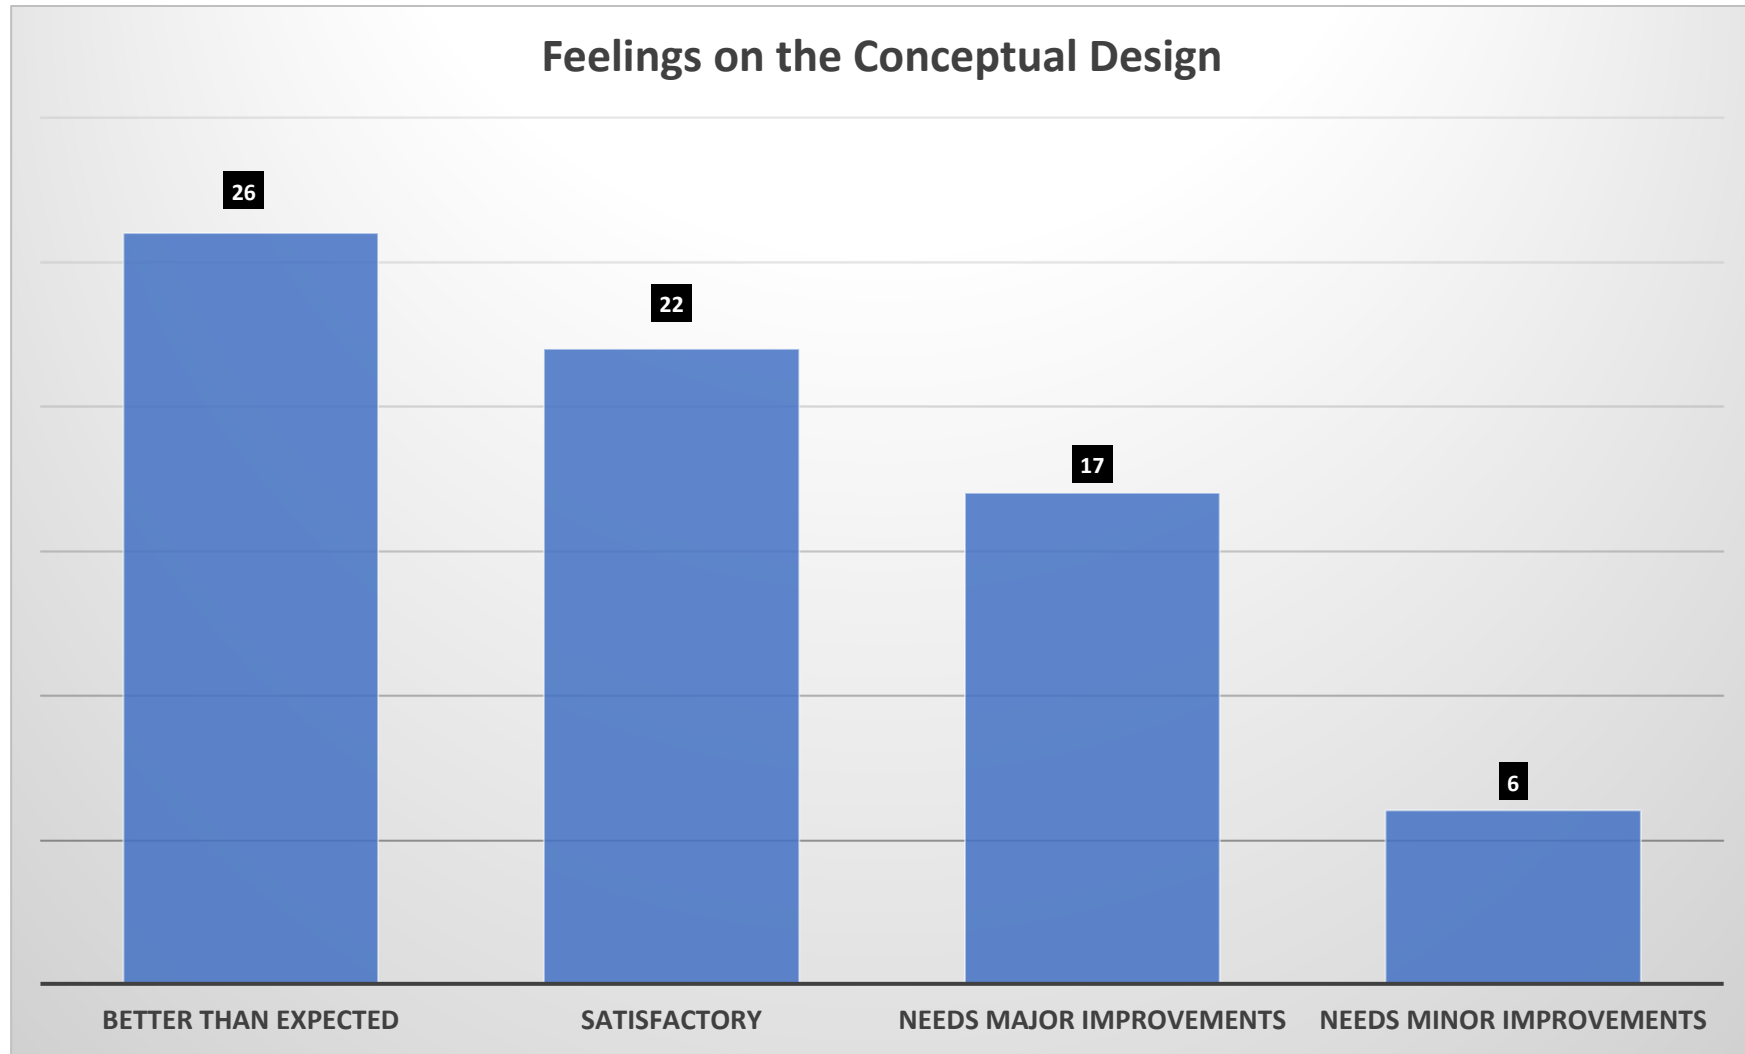

Top Priorities of Survey Participants

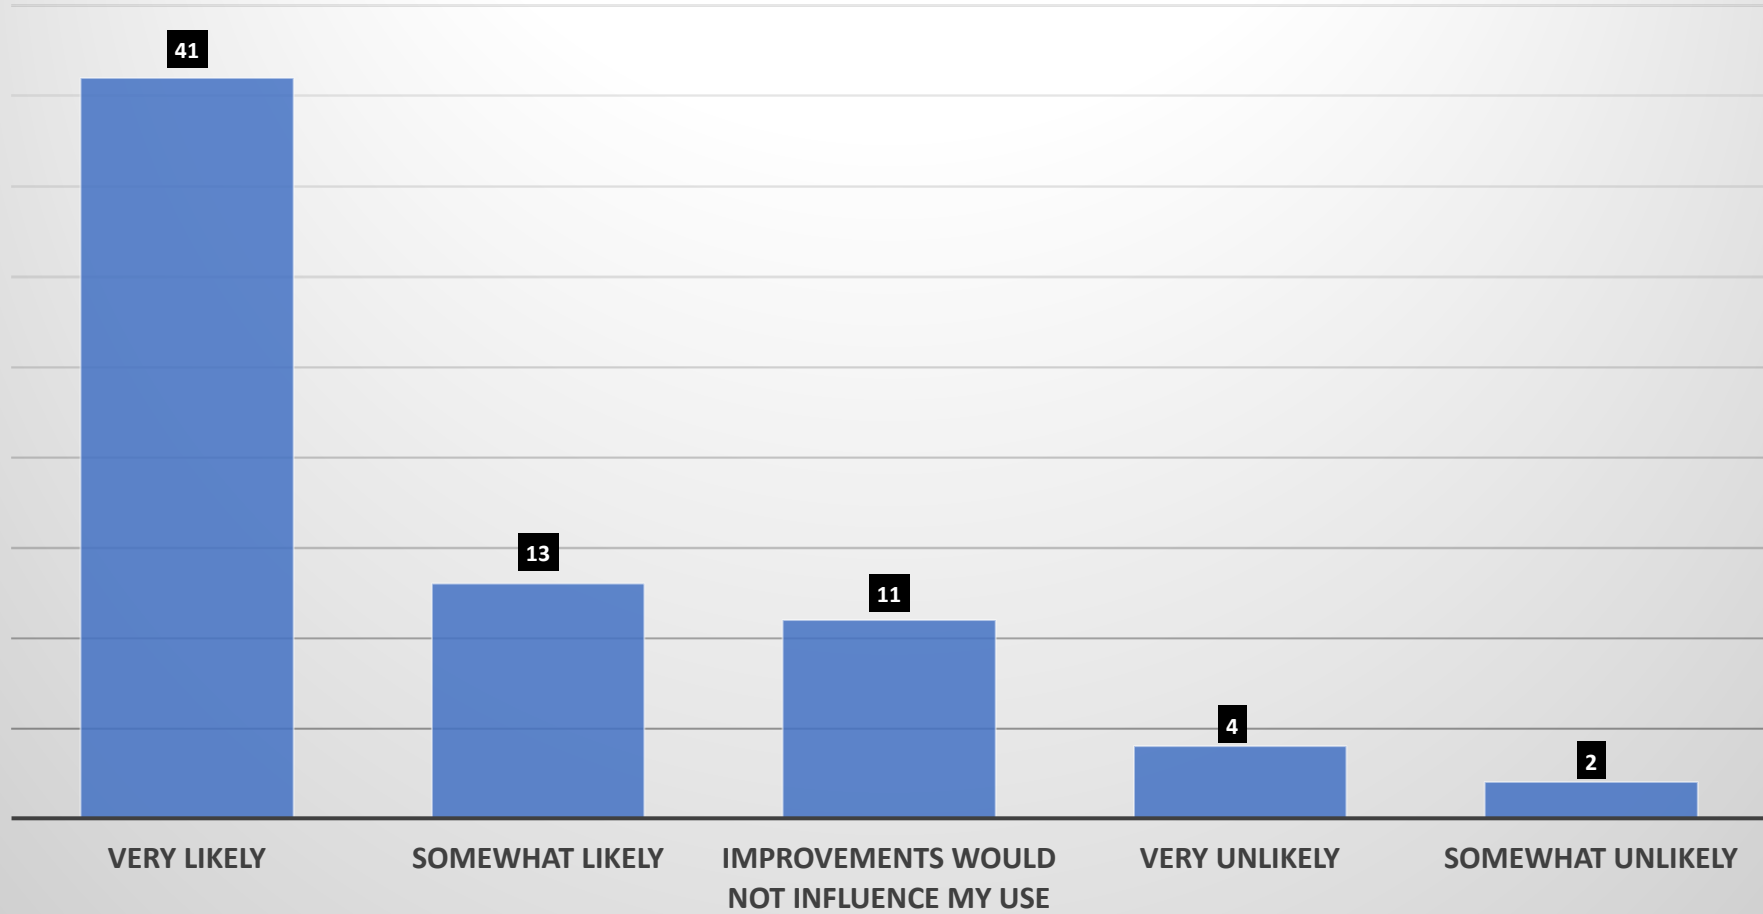

Other:

- Make the owner of the small strip mall across the street clean up. It distracts from the area.
- Would there be daily attention to cleaning?
- How would "information" be presented to the public?

Feelings on the Conceptual Design

Likelihood of Using Site After Improvements

One thing I like about most about the current conceptual design:

- Expansion of windows to the west with slanted roof.
- Visitor info center
- Style of building
- Is the blending with the environment
- Seems to address the major issues with the current facility.
- Building shape and design
- Style of the building.
- Fits our environment
- Lots of porch area

One thing I like about most about the current conceptual design:

- It is architecturally appealing
- I like both the elevated building and the hardscaping for good access to wheelchair ramp
- It's very attractive
- Modern, blends in nicely with the beach and feels a "part" of it, very welcoming
- Acts as a hub with information that it is brand new. Shows that we care
- It is clean and reflecting of direction of city's growth.
- Very modern and nice
- Modern design
- Blends well with the surroundings, it's a peaceful welcoming design with natural wood and native land

One thing I feel could be improved about the current conceptual design:

- Solar lighting for exterior lights
- Expand parking to include the area northeast to connect with the state park wetlands boardwalk.
- Picnic tables just outside would be useful
- I think the important aspects of the project were addressed
- The conceptual design looks fine!
- Hot Surf Shower
- Concerned that there will be less parking. Concerned about the orientation & size of the building.
- Make sure the design fits with the environment but never steals the show from the ocean views.

One thing I feel could be improved about the current conceptual design:

- Need large Covered area
- It might be too trendy and will look outdated quickly.
- I don't see specific dog "potty spots" for visiting dogs. Would biodegradable doggie pickup bags be
- It's fine
- Nothing that I can think of
- Signage
- How long will it take
- Ensuring the view will not be disrupted.
- None
- An image of exactly where it would sit on the property.
- Picnic tables vs. chairs, signage on building (maybe include Lincoln City Logo/art)

One thing I feel could be improved about the current conceptual design:

- ample parking;? Crossing Hwy 101 safely.
- Proceed!
- Improve park just NW of bridge for additional parking and access
- Highlight the UNESCO Cascade Head Biosphere Region and Marine Reserve.
Cement/sidewalk map of area.
- Would love to see a volleyball net on the beach in the summer.
- Great opportunity to educate the public about how to explore our very special natural environment.
- parking like drive in parking. All rows face the ocean. 2) wash facility at all entrances
- Eliminate Explore Lincoln City and use funds to improve the City's appearance. Explore Lincoln City

One thing I feel could be improved about the current conceptual design:

- Much needed building! Will it be possible for additional parking to be added and can additional vis
- I hope the visitors center has a nice display about area wildlife
- So glad this is being considered!
- This is long overdue. It is one of the busiest places in town for tourists and it definitely needs
