Nothing will show Manitoba’s resiliency, its resolve and its character like its return from the devastation of COVID-19. Fiscal year 2019/20 was one that began with triumphs and tributes, as Manitoba continued to celebrate its designation as one of Lonely Planet’s Top 10 regions to visit on the planet, and ended like every other destination on the planet, forced to shutter its tourism industry as an unprecedented pandemic raged worldwide. Results for the year reflect that reality, as they will in 2020/21 and beyond. None-the-less, we are proud of the significant achievements that were made during the year, as efforts towards recovery continue.

In April 2019, the Premier of Manitoba launched the Provincial Tourism Strategy, developed as a result of a partnership between Travel Manitoba, the Manitoba Chambers of Commerce and the Government of Manitoba. The five goals of the strategy are to lead brand and market positioning; to invest in experience and destination development; to improve transportation and connectivity; to foster collaboration; and to build public support for tourism.

We are proud that as a result of improvements made in community alignment and destination strength, Manitoba improved its DestinationNEXT Assessment score from its 2015 ranking. Destination International’s DestinationNEXT assessment tool examines the viewpoints of a destination’s tourism industry and its key stakeholders on the strengths and assets of the destination, and on its level of community support and engagement. Manitoba now ranks in the “Mountaineer” category, viewed as one that realizes some key benefits of tourism, but with the capability to reach its full potential through the building of destination strength and higher levels of community support and engagement.

Indicative of the growth in community engagement are factors such as the $1.1 million we achieved in industry partnership revenues, and the fact that more Manitobans indicate that the Manitoba…Canada’s Heart Beats campaign has improved their opinion of their home province. As the premier destination content publisher in the province, Travel Manitoba continued to increase its audience, with Facebook fans growing by 27% in Canada (outside of Manitoba), and increasing by 11% in the U.S. The creation of an app, in support of the Manitoba 150 initiative, drew over 6,000 users to explore the province.

After extensive stakeholder engagement, the Manitoba Indigenous Tourism Strategy was announced in April 2019, and significant progress was made in the identification of experiences with the potential to become market-ready or export-ready. Similarly, progress was made on the Northern Tourism Strategy, and a stakeholder survey in November 2019 indicated that over half of respondents felt the strategy is having a positive effect.

Looking to the future, we’re excited to have secured the bid to host Rendez-vous Canada in Winnipeg in 2022. We will once again be ready to welcome travel buyers from around the world to see why Manitoba earned the designation as one of the Top 10 regions in the world to visit.
ABOUT TRAVEL MANITOBA

VISION
Manitoba is a must-visit four season destination generating significant and sustainable economic growth by delivering inspiring and authentic experiences in its unique urban, rural and wild settings.

MISSION
Travel Manitoba will increase tourism’s contribution to the provincial economy by leading the marketing of Manitoba as a tourism destination and by fostering a competitive and sustainable tourism industry.

OBJECTIVES
- Increase brand engagement and traveller advocacy in Manitoba, within Canada and internationally.
- Recover visitor spending to $1.6 billion by 2024.
- Recover visitation levels to 10.6 million visitors by 2024.
- Recover investment in the tourism sector by partnering with business and governments.
- Optimize organization spending to deliver increased results in the most cost-effective way.
- Lead the implementation of the Provincial Tourism Strategy to ensure the objectives are achieved.
THE TOURISM INDUSTRY IN MANITOBA (PRE-COVID19)

According to the most recent figures available, Manitoba welcomed 10.5 million visitors who spent $1.63 billion throughout the province in 2019.

Please note that the results from the 2019 National Travel Survey cannot be compared to previous surveys (TSRC). Statistics Canada offers the following explanation: The National Travel Survey (NTS) and the Travel Survey of Resident of Canada (TSRC) are two different surveys with major differences in data collection methods and response rate. Even though the two surveys target the same population, they yield different results. NTS estimates of the total number of trips and the total number of nights, are lower and significantly different when compared to the TSRC. This creates a break in the domestic tourism series. Statistics Canada does not recommend comparisons between the two surveys. The international tourism statistics presented here are also not comparable to the precious years. Statistics Canada has replaced the International Travel Survey with the new Visitor Travel Survey (VTS) in 2018. In addition, Statistics Canada’s 2019 international tourism expenditure estimates are produced using Small Area Estimation (SAE) modelling to combine data collected from the VTS with aggregated payment processor data.

LEAD THE IMPLEMENTATION OF THE PROVINCIAL TOURISM STRATEGY

Travel Manitoba made significant progress in the delivery of the Provincial Tourism Strategy and the need for a whole-of-government approach to tourism, including:

NORTHERN TOURISM STRATEGY

A progress report on the status of the strategy’s implementation was delivered at a media event in February 2020, in conjunction with the Manitoba Outdoors Show.

HIGHLIGHTS OF 2019/20 ACCOMPLISHMENTS

Travel Manitoba hosted the first ever Northern Tourism Awards in The Pas in April, 2019 with 102 people in attendance and 72 nominations.
North Tourism Survey
Travel Manitoba completed a survey of Northern tourism stakeholders in late November to evaluate the impact of the Northern Tourism Strategy. Awareness of the Northern Strategy is high with 75% of survey respondents indicating that they are aware of the strategy. Of those aware, 75% have been contacted by Travel Manitoba regarding the strategy and 57% feel the strategy is having a positive impact on tourism in the region. Respondents communicated that the most positive impact of the strategy is advertising, promotion and branding efforts, followed by increased awareness. Awareness levels for specific marketing efforts were also evaluated, with 70% indicating awareness of the North MB Regional Travel Guide. The North MB website and North MB Facebook page had lower levels of awareness at 41% and 40%, respectively. Overall the majority of open ended comments were very positive, with several positive comments specifically regarding Travel Manitoba’s Northern consultant.

INDIGENOUS TOURISM STRATEGY
Significant progress was made this past year in the delivery of the Indigenous Tourism Strategy, including the identification of experiences with the potential to become market-ready or export-ready, and the formation of the Manitoba Indigenous Tourism Association, comprised of a core group of the advisory committee members and which will be eligible for federal and provincial funding to support strategic priorities.

A media event to announce Manitoba’s Indigenous Tourism Strategy was held on Opaskwayak Cree Nation in April 2019. Over 55 industry representatives attended the Manitoba Indigenous Tourism Summit held in Winnipeg on September 27, 2019. The Summit provided Indigenous operators with updates on the Indigenous Tourism Association of Canada (ITAC) programs and professional development opportunities and resulted in the creation of one, two and three day itineraries.

Travel Manitoba hosted a planning session with 27 community representatives and tourism operators within the UNESCO World Heritage site, Pimachiowin Aki, in Winnipeg. The session included a presentation of the Pimachiowin Aki strategic plan and discussed future tourism opportunities. One of the next steps in advancing tourism development in the area is the development of concepts for an Indigenous resort that could be potentially owned and operated by several communities.
EXPANDED MARKETING FOR PLACE BRANDS

The second annual Place Brand Summit was held October 2-4, 2019, hosted by Clear Lake Country in Riding Mountain National Park.

The Summit brought together representatives from all destinations that have participated in the place branding program. To date, place brands have been created for Clear Lake, Gimli, Brandon, Saint Boniface, Neepawa, Portage la Prairie, Morden/Winkler (joint), Flin Flon, Whiteshell Provincial Park and Thompson. The Summit addressed topics such as securing community engagement and partner funding, creating engaging advertising, building a social media presence, working with social media influencers, event creation and partnerships, among others. A combination of Travel Manitoba staff, local speakers and out-of-province experts presented the sessions, to unanimous positive reviews from the destinations.

Winnipeg: Travel Manitoba has been working closely with Economic Development Winnipeg/Tourism Winnipeg on the development of a new Winnipeg place brand. A brand platform has been approved by the boards of both Travel Manitoba and EDW, as well as by Mayor Bowman. Two creative concepts have been focus tested in Winnipeg and Brandon. Further focus testing planned for external markets (both consumer and meetings/conventions) was interrupted by the pandemic, but will continue as soon as possible.

Dauphin: A facilitated session was planned for the development of a Place Brand for the community prior to the pandemic. This will take place in the fall of 2020.

Thompson: With the dissolution of the Thompson Hotel Association, which had been the primary lead on the implementation of a new Thompson place brand, brand implementation has been taken over by the City of Thompson. Following the crisis, Travel Manitoba will work with the city to assist in marketing under the new brand. Strategic planning sessions were also held with Morden/Winkler to discuss advancing their place brand, and with Grand Beach stakeholders to assist in their creation of a new destination marketing committee. Travel Manitoba provided a new logo for the area and marketing recommendations.

HIGHLIGHTS OF 2019/20 ACCOMPLISHMENTS

MANITOBA 150

Travel Manitoba provided marketing support to the Manitoba 150 campaign through such things as the development of a promotional video, and the creation of the Explore 150 app and accompanying digital and content campaign to encourage Manitobans to explore the province. As of the end of March, 6,345 user accounts for the app had been created. A French version of the app has also been created.

OTHER PROVINCIAL TOURISM STRATEGY INITIATIVES INCLUDED:

• Travel Manitoba organized a Growing Sport Tourism strategic planning session in July 2019 with 21 attendees from Sport Manitoba, Tourism Winnipeg and Travel Manitoba to discuss future tourism and event acquisition opportunities. Travel Manitoba participated in a meeting with Mayor Bowman, Tourism Winnipeg and Stuart Murray to explore the potential to establish Winnipeg as the Canadian City for Human Rights.

• Preliminary research in the development of a Wayfinding and Signage Strategy. A Toronto-based international design consultancy and place branding firm was retained to develop the strategy, including identifying tourism best practices and implementation costs, economic impact and funding sources; making recommendations as to provincial and municipal wayfinding policies, conducting an audit of current Manitoba wayfinding assets, and developing business case options.

• Engaged stakeholders to create a Francophone Tourism Strategy. Price Waterhouse LLP has been retained to prepare an economic impact assessment of the Francophone and Métis tourism sector.

• Creation of a Snowmobiling Strategy and implementation of initiatives that included building a landing page for snowmobiling on the Manitoba North site that links to Snowman for detailed information on trails and features partners offering snowmobiling experiences, the creation of multi-day itineraries that feature accommodations and restaurants, a digital marketing campaign in October and November 2019, and hosting an out-of-province snowmobiling influencer.

HIGHLIGHTS OF 2019/20 ACCOMPLISHMENTS

Snowmobiling in Thompson
ALIGN PARTNERS AND FOSTER COLLABORATION

REVENUE GENERATION
Travel Manitoba worked with 225 industry partners and achieved $1.1 million in partnership and leveraged marketing in 2019/20.
Partnership opportunities for 2020 were launched at our AGM in September 2019, and were designed in response to a survey conducted with industry to which 354 operators responded. On average, respondents rated the value of marketing opportunities at 3.8 out of 5. For social media opportunities, destination spotlight videos and social media contests rated the highest (tied at 4.4 out of 5), followed by live influencer campaigns and Instagram stories (tied at 4.2 out of 5). For digital opportunities, digital campaign landing page placement was rated highest at 3.9 out of 5 followed by niche product page placement at 3.8 out of 5.
29% of respondents had an increase in sales over last year. For those that experienced an increase in sales, 72% indicated that sales increased in the Manitoba market, 48% in the rest of Canada, 40% in the U.S. and 14% in overseas markets. 26% indicated that Travel Manitoba’s marketing efforts had a positive impact on sales. Furthermore, our valued Invest in Tourism partners continued to support the industry. Our Invest in Tourism partners are:

INDUSTRY RELATIONS
Travel Manitoba hosted the Annual Tourism Awards on September 18, 2019 at the Metropolitan Event Centre with 287 attendees, and 88 nominations in nine categories. In conjunction with the Awards, our Tourism Conference drew 208 attendees to the Radisson Hotel for plenary sessions that included a futurist, marketing tips and a speaker from Google. Travel Manitoba received very positive feedback on the conference and in particular on sessions delivered by members of the Travel Manitoba team. Attendance at Travel Manitoba’s Annual General Meeting held in the Common at The Forks was also strong.

Travel Manitoba also conducted strategic planning sessions with Lac du Bonnet, Beausejour/Brokenhead and Assinippi/Paradise.
Travel Manitoba collaborated with Tourisme Riel and CDEM on the Francophone Tourism Strategy in order to develop an integrated marketing plan, a business case for investment in marketing, and experience development. Travel Manitoba was active in driving stronger collaboration amongst communities and regional tourism associations (RTAs) with a view to assessing the merits of a new approach to delivering regional tourism initiatives. The Manitoba Tourism Education Council (MTEC) collaborated with Travel Manitoba to provide necessary training and professional development opportunities to strengthen the industry.

LEAD THE BRAND AND MARKET POSITIONING

RESEARCH AND MARKET INTELLIGENCE
Key research findings in 2019/20 included:
DestinationNEXT Assessment
Travel Manitoba worked with NEXTFactor to conduct a DestinationNEXT assessment for Manitoba in 2015 and 2019. This survey of tourism industry stakeholders measures perceptions of Manitoba’s tourism strengths and community engagement. Manitoba shifted from the Mountaineer category to the Trailblazer category in 2019 compared to 2015, indicating stronger community alignment and increased destination strength. Manitoba’s scores in destination strength and community alignment are above industry average.
From a destination strength perspective, Manitoba’s perceived performance in convention and meeting facilities improved, but performance decreased for communications and internet infrastructure and accommodation. From a community engagement perspective, increases were achieved in several areas including funding support, policy and regulatory environment, industry support, economic development, partnership strength and organizational governance model.

- November 2015: 16%

AWAWARENESS OF MANITOBA TOURISM ADVERTISEMENTS - % AWARE
“Have you previously seen this or similar advertising from the Manitoba, Canada’s Heart… Beats campaign?”

Post Ad Campaign Study – Manitoba & Canadian Air Travellers
In March 2020, Travel Manitoba conducted consumer surveys among residents of Manitoba as well as among Canadian air travellers. The surveys evaluated the perceptions of Manitoba as a vacation destination as well as awareness and impact of Travel Manitoba ads. For the Manitoba survey, additional questions also focused on the impact of Northern Manitoba marketing efforts, the impact of Travel Manitoba’s Inspiration Guide as well as Manitoban’s perceptions of the tourism sector in Manitoba. Key findings include:
- A significant increase in the number of Manitobans who now recall seeing the Manitoba, Canada’s Heart…Beats ads in 2020, compared to 2015 (47% in 2020 versus 35% in 2015).
- Canadian Air Traveller’s recall of Travel Manitoba ads has also increased significantly, with 31% aware in 2020 compared to 21% in 2019.
- There are significantly more Manitobans who now say the ads have improved their opinion of Manitoba in 2020, compared to 2015 (48% in 2020 and 40% in 2015).
- 38% of Manitobans are aware of Manitoba tourism ads promoting Northern Manitoba and 43% feel that Northern Manitoba is appealing as a tourism destination.
- 30% of Manitoban respondents recall receiving the Travel Manitoba Inspiration Guide and 64% indicated that it motivated them to consider a trip in Manitoba or find out more about Manitoba vacation options.
- 57% of Manitobans see Manitoba’s tourism industry as very important for the economic well being of the province.
The Tourism Sentiment Index study examined approximately 250 million online conversations about Manitoba tourism and 106 million online conversations about Winnipeg tourism in 2017 and 2018 to establish Tourism Sentiment scores, which measure a destination’s ability to generate positive word of mouth about its tourism offerings. To provide further context, the Manitoba and Winnipeg results were compared with competing regions and cities. Both Winnipeg and Manitoba scored a 33 in 2017, which is similar to the median score for other destinations examined in the study. In 2018, Manitoba achieved a score of 34 and Winnipeg increased by 10 points to score 43. Strengths and potential opportunities are outlined in the table below.

Winnipeg Target Market Identification

In support of the upcoming Winnipeg brand launch, Travel Manitoba has developed target consumer segments to market Winnipeg to U.S. and Canadian consumers. Mobile phone data was purchased for Canadian and U.S. visitors to 13 Winnipeg attractions and event centres. The data was analyzed in-house using Envision, a platform that allows access to consumer segmentation databases. Analysis of the data allowed determination of where in the U.S. and Canada visitors are from, demographics (age, income, education), travel motivations and media usage patterns. Based on this analysis, customer targets have been identified for Winnipeg and will be used for the roll out of the Winnipeg brand campaign later in 2021. Identification of these new customer targets will allow digital marketing campaigns to be more focused and effective.

Data Source Audit and KPI Dashboards

Travel Manitoba is working with Rove Marketing to implement a Three Year Data and Analytics Strategy. A data source audit has been completed to identify gaps and enhanced coordination of data and analysis. Key performance indicators (KPIs) have also been updated for business areas. In the next phase of the project which will be implemented in 2020/21, automated online dashboard will be developed to facilitate performance evaluation and decision making.
As the premier destination content publisher in the province, Travel Manitoba continued to create compelling video content and engaging editorial. In 2019/20 we significantly increased our U.S. audience share, and grew our audience in other Canadian provinces, expanding beyond Manitoba’s borders.

10. Winnipeg’s Hermetic Code Tour proves mesmerizing

“The Hermetic Code Tour is the most surprising tour we have taken anywhere. The unlikely setting was the Manitoba legislature, its dome topped by the brilliant statue of the Greek god Hermes, commonly called the Golden Boy...Our heads never stopped spinning as he ushered us through a beguiling world of mythical gods, numerology, and the occult, liberally sprinkled with pagan, Christian, and Masonic imagery.”

Robin and Arline Kaplan, Western Producer

9. Follow the northern lights to Churchill

“The journey to Churchill is one of those rare experiences that merit the word “magical,” and between meeting the extraordinary people who live in this wild outpost and getting a glimpse of the spectacular natural treasures of the north, everyone in our group was vowing to return.”

Laura Beausire, TravelAge West

8. Bärenstarkes Kanada-Idyll (One heck of a Canadian idyll)

“With squeaking tires, my rental car comes to a halt only a paw’s length away from the small ball of fur. For a split second we stare at each other, scared to death, then the little black bear baby dashes away and disappears into the dense forest to my right. I can hardly believe my luck in Riding Mountain National Park!”

Marie Tysiak, reisen EXCLUSIV (Germany)

7. Go Here: Manigotagan River

“Manitoba is a wilderness of excess. For the majority of our paddling trip, the sun roasts our bodies and minds. The Manigotagan River runs entirely within the Superior Province of the Canadian Shield. Massive metamorphic rock outcrops make for easy campsites but they also reflect heat and offer little shade. The sun beats down on us, and the temperatures at the campsites push 40 degrees Celsius most days, requiring frequent cool-offs in the many waterfalls.”

Dustin Silvey, Explore

6. Hidden Canada: Whiteshell Provincial Park

“One sunny day I walk through the woods and climb up to an outcropping of the Canadian Shield overlooking a massive lake. By now, I have settled into the rhythm of the place. I don’t think about what is happening on my phone or what I have to do next. I watch the wind on the lake. I listen to the birdsong. It has been days since I’ve seen another person. I don’t take a picture of the view because by now I have stopped carrying my phone with me, but I’ll never forget what it was like standing there, away from it all.”

Dave McGinn, The Globe and Mail

5. Polar Star

“All around us, the dazzling white arcs of the belugas backs roll out and into the water with rhythmical grace, catching the late afternoon sunshine as they punctuate the air with blowhole bursts.”

Penny Hunter, The Australian

4. The wild rush of the north

“My body is numb and tingling as we stand eye-to-eye with Runway Bear, the 900-pound-plus apex predator with pigeon-toed gait exposing colossal claws. As our guide instructs, we stop taking photos and take two steps toward the bear. Immediately, the bear pauses. Slowly we all turn 25 degrees, encouraging the bear to peacefully pass around us. Runway Bear strolls into the sunset while adrenaline streams out of me in the form of tears.”

Jenn Smith Nelson, Just for Canadian Dentists

3. If you want to see a 100-snake orgy, book a ticket to Manitoba

“No need to worry about the sexual swarmings because the females have switched on their mating pheromones. They pick who to align their bodies with before “mating occurs” and they can slither away to summer feeding grounds, leaving the frantic band of suitors to pounce on the next snake woman.”

Jennifer Bain, The Daily Beast

2. How Winnipeg became Canada’s comeback city

“New attractions such as the CMHR not only help restore faith in the city – they’re drawing attention to Winnipeg’s long-standing yet little-known status as Canada’s cultural cradle. “The Peg” is, after all, home to Canada’s oldest ballet company (the Royal Winnipeg Ballet), its oldest continuously running theatre company (Le Cercle Molière) and the largest public display of contemporary Inuit art in the world (Winnipeg Art Gallery).”

Chloe Cann, The Independent (UK)

1. Manitoba, Canada: A true wilderness experience, complete with the northern lights

“From the air, it’s apparent why Manitoba is the lake province, where swirls of indigo sprawl towards the horizon straddled by islands of boreal forest. There are 110,000 lakes in this province alone, almost 16 per cent of its surface area. It’s one reason fishing enthusiasts are drawn from around the world and at Blackfish Lake, I clamber aboard a five-metre aluminium craft to have a crack myself.”

Guy Wilkinson, Traveller (Australia)
E-newsletter: In 2019/20 we saw significant improvements in open and click through rates through segmentation, welcome emails and birthday emails. Travel Manitoba developed distribution lists based on the following specific interests to deliver topic specific emails, which are being sent to the following number of subscribers:

Avg. Open rate: 22.93% (18%)

Avg. CTR: 6.78% (2.78%)

Content Campaigns

Travel Manitoba welcomed 14 influencers to Winnipeg as part of a partnership with Creator House, an influencer marketing agency based in the U.S. The 10-week project saw one influencer or pair of influencers visit the city for five days during each week of summer. They also spent one day out of the city exploring Manitoba. The creators generated a series of blog posts, videos and social media posts.

- Results:
  - Blogs: 18 posts, 20K unique visitors, 19K page views
  - Instagram: 64 posts, 44K likes, 411K reach
  - Instagram stories: 893 stories, 691K reach
  - YouTube: 1 video, 7K views
  - Facebook: 64 posts, 89K reach, 12.6K clicks
  - Twitter: 88 tweets, 239K impressions, 21K engagements
  - Pinterest: 81 pins, 697 re-pins

Travel Manitoba ran a Spring Break 2019 campaign, targeting Winnipeggers to visit other parts of the province for spring break. The campaign resulted in:

- 1.7 million impressions
- 25,363 link clicks to the blog
- 3,256 external clicks to partners
- 3.22% engagement rate

A Winnipeg metro area campaign highlighted day trips that could be done from the city. The campaign resulted in eight blog posts highlighting various family focused and rural adventures.

A Festival Explorer campaign saw our local influencer visit six summer festivals to generate live content on Instagram. The campaign resulted in:

- 986K impressions
- 934K people reached
- 6.41% engagement rate
DIGITAL MARKETING

Travel Manitoba continues to build engagement with relevant audiences across all digital platforms. Highlights of our digital marketing efforts in 2019/20 include:

- Digital audiences built around our target segments as identified by Environics’ PRIZM tool on all major digital advertising channels: display, social, video and native. This has allowed us to completely rework our targeting strategy, connecting with more receptive audiences across all channels and allowing us to target and compare specific segments across multiple campaigns and products.

- We increased conversions on TravelManitoba.com and across Travel Manitoba campaigns.
  - Established sitewide engagements goals focused on conversions to partners
  - Established baseline conversion rate of 5.9% for outbound clicks
  - Lowered average cost per click (CPC) across digital campaigns
  - Established average CPC of $2.50

- An updated EverythingChurchill.com was launched in December 2019, bringing our Churchill-specific web product into the TravelManitoba.com site as its own unique microsite.

- Completed user testing on TravelManitoba.com to overwhelmingly positive reviews. Used any identified problem points when creating the RFP for a new website, setting us up to improve user experience in the next version of the website.

- Completed an RFP process for a new TravelManitoba.com website and selected a new company, Tempest, as our next website partner. The rebuild project is currently underway and the new site will launch in November 2020.

* Travel Manitoba discontinued its German-language site at the end of 2019. German-language users continue to browse the site via use of Google Translate.
Manitoba’s fishing operators have provided Travel Manitoba with numerous anecdotal reports of phenomenal growth in 2019/20, with ice fishing, bear hunting, waterfowl hunting, and drive-to and fly-in fishing operators reporting between 60 to 100% increases in sales, with many being at or near sold-out capacity.

ANGLER TARGET MARKET IDENTIFICATION

Travel Manitoba has analysed Master Angler program submission data using Envision to determine where anglers are coming from, demographics, travel motivations and media usage patterns. Based on this analysis, customer targets have been identified for U.S. and Canadian anglers for fly-in and drive-to markets. This will allow digital marketing campaigns to be more focused and efficient. Evaluation and refinement of angling consumer targets will be continued throughout 2020.

Production and promotion in 2019/20 focused on ice fishing, destination and community-based content, and promotions with various lodges, outfitters and accommodation partners with media providers. Northern region fisheries, Lake Winnipeg and Lake Manitoba received extensive ice fishing exposure on YouTube and with media partners in Canada and the U.S. Travel Manitoba sponsored and was represented provincially in the second season of 39 Hours, an online fishing challenge between provinces that airs on YouTube and has garnered a massive, enthusiastic following. The second season premiered in January and the final show aired with a live event in Winnipeg and was watched by over 990,000 viewers in Manitoba, across Canada and in the U.S.

Travel Manitoba continues to partner with Destination Canada on the National Angling Program, a co-operative marketing partnership with Saskatchewan and British Colombia and supported at 2:1 funding by Destination Canada. The 2019/20 campaign was paused because of the pandemic and the closure of the U.S. border.

  - FB +132%
  - Instagram +197%
  - YouTube + 107%
- Referral: +102% Sessions
- Outbound Clicks to Operator/Outfitter Listings: +222%

Facebook and Instagram traffic have continually increased with Facebook followers exceeding 30,000 and Instagram followers of more than 1,100. The HuntFishMB YouTube channel has risen to over 1,600 subscribers.

The HuntFishMB blog continues to see steady traffic through organic, direct and paid search sources, with over 84,000 blog page views for 2019/20. A Google Ad campaign has focused on promoting black bear and waterfowl hunting, ice fishing and fly-fishing destinations.

Travel Manitoba initiated work with Probe Research in 2019/20 on an Economic Impact Study on the fishing and hunting sector, to be completed in 2020/21. The study will determine:

- Total expenditures generated by outfitted hunting and fishing in Manitoba
- Total GDP impact generated including direct and indirect impacts, induced impact and total impact.
- Total number of jobs and labour income generated by the outfitted hunting and fishing in Manitoba.
- Tax impacts at the federal, provincial and municipal level.
- Industry perspectives on environmental and social impacts in the areas of habitat preservation, resource management, energy use, social and emotional attachments, etc.
- Characteristics of hunting and fishing businesses (hobby business or full time, visitor origin, etc.).
- The current state of the industry including strengths, weaknesses, opportunities and threats for the hunting and fishing sector in Manitoba.
- Product/market matches for hunting and fishing products in Manitoba and identify development opportunities that hold the most potential to increase tourism expenditures in Manitoba.
- Provide recommendations and directions for the development of future promotional and marketing initiatives. Identify markets that hold the highest potential now and in the future for operators.
- Determine how long Canadian and non-Canadian hunters and anglers have been engaged in both hunting and/or angling to help identify trends in hunter/angler recruitment and retention.

Travel Manitoba supported two strategic planning sessions for the Manitoba Lodges and Outfitters Board of Directors which will be used to create a three year strategic plan for the association.
Travel Manitoba attended the Incentive Travel Exchange show in Park City Utah in April and hosted meetings with 35 corporate planners.

Travel Manitoba also attended Incentive Canada in British Columbia in June 2019. This event brings Canadian suppliers together with approximately 40 planners to sell Canadian Luxury and Legendary destinations. Travel Manitoba met with 38 meeting planners and buyers.

Travel Manitoba hosted incentive buyer Amy Black from the Wynford Group on a FAM trip to Churchill in July 2019 to experience Lazy Bear Expedition’s beluga product and pitch the experience to several clients based in Toronto.

In partnership with Tourism Winnipeg, Travel Manitoba assisted with the successful bid to host the 2021 Winter Cities Conference in Winnipeg in February 2021, should that proceed as planned.

Travel Manitoba participated in joint marketing and advertising activities with Ignite magazine and Hub, SITE (Society of Incentive Travel Excellence) and Business Events Canada.

Travel Manitoba and Tourism Winnipeg have secured the bid to host Rendez-vous Canada in Winnipeg in 2022. This event will bring 1,800 international travel and tourism buyers and sellers to Winnipeg.

Many major events that Travel Manitoba and Tourism Winnipeg successfully secured have now been postponed, due to the pandemic. These include:

- The Student and Youth Travel Association Conference originally scheduled for August 2020 has now been rescheduled for August 2023.
- Travel Manitoba, working jointly with the Indigenous Tourism Association of Canada, was to host the International Indigenous Tourism Conference in Winnipeg, September 29 to October 2, 2020 with 800 delegates. A great deal of planning and preparation was done this year with industry stakeholders and the organizing committee, work that will be lay the groundwork for a future conference.
DOMESTIC MARKETING

Advertising

Travel Manitoba continued its monthly advertising partnership with Air Canada in 2019/20, with video seat back advertising in May and June and monthly ads in their inflight magazine, enroute. Last year we moved to “Road Block Sponsorship”, a format in which commercials cannot be bypassed.

Travel Manitoba partnered with Canadian Living in a digital partnership that promoted articles on summer and fall in Manitoba through web banners, homepage promotions and social media promotion.

Our annual Inspiration Guide was distributed in January 2020, primarily in Canada but with limited distribution in the U.S. also.

Travel Manitoba partnered in a 75% match funding program with Destination Canada ($50,000 investment matched by a $37,500) to target Canadian “Learners” aged 35-64 and increase Canadian travel between December and May 2020 (the campaign was ended early as a result of COVID-19). The campaign was to engage Canadians in Destination Canada’s new brand: For Glowing Hearts. Tactics included commercial partnerships with Westjet, Marriott and Via Rail, digital video, content re-purposing, a re-fresh of DC’s website, a video series with Bell Media and distribution through their network, podcasts (one per province), a partnership with Spotify, social activation and media pitches.

INTERNATIONAL MARKETING

Travel Manitoba sponsored a Lonely Planet themed luncheon on the first day of RVC. Approximately 1,800 guests attended the luncheon. Brandon Presser from Lonely Planet provided the key address to the group and shared his video footage of beluga experiences in Churchill. Colin Ferguson introduced a curated video of Manitoba and additional partner photo presentations were displayed on the large screens over the course of the luncheon. Once again, the event was a great success.
Tourism industry operators were also encouraged to display the designation badge.

Lonely Planet: Throughout 2019, Travel Manitoba promoted Lonely Planet’s designation of Manitoba as one of the Top 10 regions to visit in 2019 in its marketing campaigns, collateral material, media outreach and in its Visitor Information Centres. Tourism industry operators were also encouraged to display the designation badge.

As a result of the previous year’s successful campaign with Lonely Planet, we partnered with them again in 2019/20 in both the U.S. and U.K. markets. The campaigns ran between June and August and consisted of articles, e-newsletter sponsorship, digital ads and further exposure of a custom video.

**ADVERTISING**

**UNITED STATES**

**ADVERTISING**

United Airlines: Travel Manitoba aired a new 60” commercial on United Airlines and American Airlines seatbacks in May, June, July and August 2019. The spot had premier placement (first or second) and could not be skipped. Overall passenger exposure on United at the time was approximately 9.3 million passengers on more than 100,000 flights. Overall passenger exposure on American Airlines was approximately 955,000, of which 100,000 are business and first class passengers.

Travel & Leisure: Reaching the western U.S. region with a circulation of 485,000, a partnership with Travel & Leisure included a custom content piece as well as a brand ad in the June issue, and a digital package for May and June on their Meredith digital network and on their Travel/Luxury Collection site.

**MATADOR NETWORK**

Matador Network: Travel Manitoba partnered with Matador Network, a U.S. digital media company and social network dedicated to travel. The partnership included the production of two videos, one featuring photographer/influencer Quin Schrock’s experience in Churchill, and one featuring the northern lights experience with Frontiers North. The campaign included shorter video versions for social media, and social media posts on the influencer’s channels, Matador Facebook and Instagram.

**DESTINATION CANADA**

Destination Canada: Travel Manitoba partnered in a 75% matching fund program with Destination Canada ($250,000 investment matched by $187,500) to target American learners aged 35-64 and increase overnight stays in non-compressed areas in July and August. Like all of Destination Canada’s marketing programs, this was put on hold but will resume when possible. Tactics were to have included consumer direct content marketing, as well as media pitches with direct leads to partners. Travel Manitoba would receive amplification of both new and re-purposed content, such as previously created content with Mashable, Matador and National Geographic, highlighting Churchill and other areas of Manitoba. One new content piece is to be produced with one of three publishers: Washington Post, New York Times or Conde Nast. Manitoba’s target cities for the campaign are Chicago, San Francisco and Dallas, based on identified future and past potential of these markets.

**TRAVEL TRADE**

Travel Manitoba hosted and sponsored the Educational Travel Consortium (ETC) in June 2019. This event was a combination of a FAM trip and the ETC advisory council planning committee meeting for 2020 conference. This event brought 11 alumni planners, six tour operators, four ETC staff and a videographer to Winnipeg and Churchill. Travel Manitoba attended the annual conference in Tennessee, with plans to bid on the 2021 conference jointly with Tourism Winnipeg.

Travel Manitoba conducted a sales mission while in Vancouver for a Canadian Inbound Tourism Association Asia Pacific (CITAP) meeting with trade operators such as Discover Holidays, Fresh Tracks, TPI, HIS, Journey’s across Canada, Via Rail and Destination Canada.

Trade FAM trips last year included:

- BI Worldwide, Compass Travel, Gate 1 Travel, Sun Tours, Western Leisure, Culinary Adventure Co. Frontiers North, northern lights and culinary, March 2019.
- Vacations by Rail, Anderson Vacations, HIS Holidays, Discover Canada, Jonview and Travel Alberta: Frontiers North, northern lights experience.

Travel Manitoba participated in a sales mission with Tourism Winnipeg and industry partners to Minneapolis and Chicago. Individual tour operator meetings were held in both cities with Travel Manitoba co-sponsoring a client event at the Jets vs Minnesota Wild hockey game on April 2, 2019. Advertising included digital boards and scoreboard advertising at the event, television and radio spots.

Travel Manitoba attended Adventure Elevate in the New York region in June 2019. This event brings together adventure travel planners with destinations and suppliers.

Travel Manitoba hosted the closing reception of Student and Youth Tourism Association (SYTA) 2019, at which it was announced that Winnipeg would host SYTA 2020 in Winnipeg. The theme was to be Northern Lights and Human Rights, however the event has now been postponed due to COVID-19. Joint marketing activities implemented this year with the following tour operators included: Road Scholar, Orbridge, Jonview, Discover Holidays, Alexander and Roberts, Voyage A +, Teach and Travel, Journeys across Canada, UCLA and Yale University.

Travel Manitoba had planned to host a luncheon at Renais- sance Canada 2020, which was subsequently cancelled due to COVID-19.
**ADVERTISING**

While all marketing activity in China has been paused since the beginning of 2020, first due to Chinese/Canada relations, then because of COVID-19, the development of content included the production of a video with popular influencer “North Rock” who visited Churchill in October 2019. This video will be released, along with a contest promotion, when the timing is appropriate. The influencer’s visit will be used to promote the contest. Additional footage was captured for use in a general Churchill video for the China market.

**TRAVEL TRADE**

Showcase Canada in Hong Kong was postponed for 2019 due to political unrest. Working with in-market agency Flow Creative and C-Trip, a large Chinese online travel agency, new itineraries were created for C-Trip’s website. Travel Manitoba attended CTAP annual trade show exhibition and networking events in Vancouver when we met with receptive tour operators who booked travel from China, Japan, Korea and Taiwan. Travel Manitoba developed and updated a trade toolkit for tour operators from China.

Due to Corroboree being held every other year, this year the Destination Canada Partners event was held in Perth. Travel Manitoba participated in training of 70 agents in attendance at the evening event. The in market representatives conducted numerous training events and road shows in Australia during 2019.

Travel Manitoba partnered in a 75% matching fund program with Destination Canada ($50,000 investment matched by $37,500) to target learners aged 45+ and increase visitor spend during May to September 2020. This program was put on hold. Tactics would include consumer direct content marketing, media pitches with direct leads to partners and amplification of five pieces of content.

**ADVERTISING**

National Geographic: Travel Manitoba partnered with National Geographic Traveller UK to produce a 10-page special feature for distribution in April. The package included digital coverage and a contest hosted on natgeotraveller.co.uk with a guaranteed minimum 10,000 page views. The prize provider received sponsorship of one National Geographic UK’s newsletter to 34,000 subscribers.

**TRAVEL TRADE**

Travel Manitoba hosted an event for product managers in London together with Destination Canada, held a webinar with My Canada Trips, conducted training with Gold Medal, First Class Holidays and North America Travel Services, and delivered campaigns with Audley Travel, Canadian Sky, Canadian Affair, Selling Canada and Trailfinders. Travel Manitoba’s in-market representative attended the Prestige Road show and provided training to 64 agents, and conducted training at Scott Dunn Gold Medal, First Class Holidays, North American Travel services and Premier Holidays. Training was also conducted at Funway Travel, BA Holidays, Kuoni, Trailfinders and Premier Holidays.

Travel Manitoba hosted three summer FAMs with participants from Scott Dunn (Churchill Wild), Imagine Travel (Frontiers North) and the Independent Traveller (Lazy bear Expeditions). Imagine Travel launched new Manitoba product itineraries in October 2019.

Travel Manitoba hosted three fall FAM trips with participants from Travel Pack, Bear Photos and Trailfinders. Imagine Travel launched new Manitoba product itineraries in October 2019. Travel Manitoba’s partnership in the United Kingdom with Destination Canada was scaled back this year to a $20,000 partnership in travel trade only, which was paused due to COVID-19.

**AUSTRALIA**

**TRAVEL TRADE**

A “Great Train FAM tour” was held in April 2019. Three groups from Australia were welcomed in Canada – first group to Manitoba, another group to Vancouver and the third group on board the Rocky Mountaineer. This was a joint marketing venture with Via Rail, Rail Plus and Travel Manitoba.

Travel Manitoba hosted five agents from Australia on a Canada Specialist FAM as well as a product manager from Intrepid Australia on a provincial FAM in October 2019 to visit Winnipeg, Riding Mountain National Park and Churchill. The team also hosted a travel trade journalist and product manager from Travelmarvel on a summer FAM to Churchill.

Joint market activities with Qantas, Momento, Travel Counsellors, Natural Focus Safaris and Helloworld were delivered and implemented, but a FAM with Natural Focus Safaris for August 2020 has been cancelled.

**STAYING STRONG**

**INTERNATIONAL MARKETING**

**UNITED KINGDOM**

**ADVERTISING**

Travel Trade Guide, National Geographic Traveller UK, and The Guardian Travel Guide received sponsorship of one page each and a contest hosted on natgeotraveller.co.uk with a guaranteed minimum 10,000 page views. The prize provider received sponsorship of one National Geographic UK’s newsletter to 34,000 subscribers.
TRAVEL TRADE

Travel Manitoba hosted America Unlimited on a summer FAM to experience Lazy Bear Expedition’s aqua gliding with belugas product. A microsite was created for America Unlimited featuring Manitoba product. Travel Manitoba also hosted America 4 U, a receptive operator who sells Canada to German markets on a FAM in the summer of 2019.

Travel Manitoba concluded joint marketing agreements with America Unlimited, Canusa, SK Touristik, CRD and Knecht Reisen, and distributed our newsletter to 239 travel trade in German speaking countries. Our in-market representatives participated in SK Touristik consumer road shows in September 2019 and in a Canada roadshow “Kanadas Geheimtipps” in November.

ITB Berlin, a major travel trade marketplace, was cancelled at very short notice due to COVID-19. While our team was already in Germany, Travel Manitoba conducted in person training and meetings at the following offices: Amerika Unlimited, Canusa, CRD, Erlebe Fernreisen, Explorer Fernreisen, SK Touristik, Takeoff Erlebnisreisen. Travel Manitoba’s partnership in Germany with Destination Canada was scaled back this year to a $30,000 partnership in travel trade only which was paused.
AWARDS

INDIGENOUS TOURISM ASSOCIATION OF CANADA AWARDS
- Inspiring Indigenous Culinary Award Winner: Buffalo Point Resort
- Indigenous Adventure Award Finalist: Wapusk Adventures

VISITOR SERVICES

Travel Manitoba partnered with Virgin Radio and the Ace Burpee on-air team to broadcast live from Travel Manitoba’s Visitor Information Centre at The Forks.

We expanded retail sales with promotional items to residents and visitors with both Travel Manitoba and HuntFish MB branded merchandise.

We also provided support for improvements and modernization of the Visitor Information Centre at Brandon’s Riverbank Discovery Centre.
INCREASE PUBLIC AWARENESS OF TOURISM

To increase awareness of tourism with the public, with all levels of government, and with the business community, Travel Manitoba regularly participates in public speaking engagements at regional annual general meetings and awards events, at the Manitoba Chambers of Commerce breakfast events, at sector conventions and other events. Travel Manitoba also ran a radio campaign in 2019/20 that conveyed the economic, job creation and community enrichment benefits of tourism.

Understanding the impact of COVID-19 on our tourism industry is ongoing. An assessment by Travel Manitoba based on data from Destination Canada, Tourism Economics, Environics Analytics and the Conference Board of Canada projects that Manitoba could still see a 45% to 60% loss in tourism spending in 2020 as compared to that of 2019. Between 6,800 and 11,000 jobs are expected to be lost.

The impact of COVID-19 on the tourism industry will be felt for many years, and in response, our Building the Tourism Recovery Plan is based on three phases: Respond, Rebuild and Restart. We responded to the immediate needs of the tourism industry – providing information and listening to their challenges. At the outset and in step with the Manitoba government, we supported the “stay home” message on our social media and website. And we paused all of our paid marketing activities, including our partnership activities. This pause will allow us to have more resources available for our recovery campaign in 2020/21.

In Phase 2 of the plan, Rebuild, our first step in resuming marketing activities is to focus on hyper-local travel… in other words, encouraging Manitobans to travel within the province. Manitoba travellers are important to our tourism economy, accounting for a majority of the visitation and expenditures. A focus on local and overnight intra-provincial travel has the potential to significantly impact local businesses and kick-start the tourism sector. This shift in focus will also mitigate the loss of visitors from international markets in 2020.

FINANCIAL STATEMENTS
For the year ended March 31, 2020

49 Management’s Responsibility for Financial Reporting
50 Independent Auditor’s Report
51 Financial Statements
51  Statement of Financial Position
52  Statement of Operations and Accumulated Surplus
52  Statement of Change in Net Financial Assets
53  Statement of Remeasurement Gains
53  Statement of Cash Flows
54  Notes to Financial Statements
Management’s Responsibility for Financial Reporting

The accompanying financial statements are the responsibility of the management of Travel Manitoba and have been prepared in accordance with Canadian public sector accounting standards. In management’s opinion, the financial statements have been properly prepared within reasonable limits of materiality, incorporating management’s best judgment regarding all necessary estimates and all other data available to the audit report date.

Management maintains internal controls to properly safeguard the assets and to provide reasonable assurance that the books and records from which the financial statements are derived accurately reflect all transactions and that established policies and procedures are followed.

The responsibility of the external audit is to express an independent opinion on whether the financial statements of Travel Manitoba are fairly represented in accordance with Canadian public sector accounting standards. The Independent Auditor’s Report outlines the scope of the audit examination and provides the audit opinion.

On behalf of Management:

To the Members of TRAVEL MANITOBA

INDEPENDENT AUDITOR’S REPORT

Opinion
We have audited the financial statements of Travel Manitoba (the “Organization”), which comprise the statement of financial position as at March 31, 2020, and the statements of operations and accumulated surplus, change in net financial assets, remeasurement gains and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Organization as at March 31, 2020, and its results of operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion
We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under these standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Organization in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Organization’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Organization or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Organization’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve concealment, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization’s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Organization’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Organization to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements fairly present the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes are an integral part of these financial statements.
1. Nature of the Organization

Travel Manitoba was created as a Crown Corporation on April 1, 2005 under The Travel Manitoba Act as the culmination of extensive consultation and leadership from both the tourism industry and the provincial government. Travel Manitoba’s mission is to increase tourism’s contribution to the provincial economy by leading the marketing of Manitoba as a tourism destination by fostering a competitive and sustainable tourism industry. Travel Manitoba collaborates closely and in partnership with the tourism industry and governments to attract visitors to Manitoba, sustaining and creating jobs and businesses in the tourism sector in the province.

Travel Manitoba receives core funding from the Province of Manitoba to facilitate operations and to mobilize public and private resources to further foster the growth and professionalism of the tourism industry in Manitoba. Travel Manitoba is economically dependent on the Province of Manitoba because it derives a significant portion of its revenue from the Province of Manitoba.

2. Summary of Significant Accounting Policies

The financial statements are prepared in accordance with Canadian public sector accounting standards (“PSAS”) as recommended by the Public Sector Accounting Board, and reflect the following significant accounting policies:

a. Financial Assets

Cash and cash equivalents consist of cash and short term deposits with a duration of less than ninety days from the date of acquisition.

Accounts receivable and amounts due from the Province of Manitoba are recorded at the lower of cost and net realizable value. An allowance for doubtful accounts is recorded when there is uncertainty whether the amounts will be collected.

b. Liabilities

Liabilities are present obligations as a result of transactions and events occurring prior to the end of the fiscal year. The settlement of the liabilities will result in the future transfer or use of assets or other form of settlement. Liabilities are recorded at the estimated amount ultimately payable.

c. Employee Future Benefits

The Organization provides retirement allowance and pension benefits to its employees.

Retirement allowances are provided to certain qualifying employees. The benefits are provided under a final pay plan. The costs of benefits earned by employees are charged to expenses as services are rendered. The costs are actuarially determined using the projected benefit method and reflect management’s best estimates of the length of service, salary increases and ages at which employees will retire. Actuarial gains and losses are recognized in income immediately.

Employees of the Organization are provided pension benefits by the Civil Service Superannuation Fund (“the Fund”). Under paragraph 6 of the Civil Service Superannuation Act, the Organization is described as a “matching employer” and its contribution toward the pension benefits is limited to matching the employees’ contributions to the Fund.

In addition, an individual has entitlement to enhanced pension benefits. The plan is based on final pay and is indexed. The cost of the benefits earned by the employee is charged to expenses as services are rendered. The cost is actuarially determined using the projected benefit method and reflects management’s best estimate of salary increases and the age at which the employee will retire.

 Sick leave benefits that accumulate but do not vest, are determined using present value techniques and reflect management’s best estimate of future cost trends associated with such benefits and interest rates. Adjustment to these costs arising from changes in estimates and experience gains and losses are amortized to income over the estimated average remaining service life of the employee groups on a straight line basis.

d. Non-Financial Assets

Non-financial assets are used to provide the Organization’s services in future periods. These assets do not normally provide resources to discharge the liabilities of the organization unless they are sold. The Organization’s non-financial assets include prepaid expenses and tangible capital assets.

e. Tangible Capital Assets

Tangible capital assets are recorded at cost less accumulated amortization and are amortized over the estimated useful lives of the assets at the following rates:

- Computer hardware: 30%, declining balance
- Computer software: 30%, declining balance
- Furniture and equipment: 5%, declining balance
- Leasehold improvements: 5%, declining balance
- VC technology: 5 years, straight line
- Vehicles: 5 years, straight line

f. Revenue Recognition

Government transfers without eligibility criteria or stipulations are recognized as revenue when the transfer is authorized. Government transfers with eligibility criteria but without stipulations are recognized as revenue when the transfer is authorized and all eligibility criteria have been met. Government transfers with or without eligibility criteria but with stipulations are recognized in the period the transfer is authorized and all eligibility criteria have been met, except to the extent that the transfer gives rise to a liability.

Partnership and marketing revenue are recognized when services are rendered if the amount to be received can be reasonably estimated and collection is reasonably assured.

The Organization recognizes revenue arising from non monetary transactions in the period when services have been rendered if the amount to be received can be reasonably estimated and collection is reasonably assured.

2019/20 ANNUAL REPORT STAYING STRONG
4. Cash and Cash Equivalents

The Organization invests all surplus cash into short term deposits with the Province’s Treasury Division. These deposits are made up of 30, 60 and 90 day callable term deposits.

A dedicated account has been established to safeguard the Organization’s retirement allowance obligation and enhanced pension benefit costs. Interest earned will be retained in the account. At March 31, 2020 is $126,789 ($124,190 at March 31, 2019).

The Organization has a credit facility to a maximum of $500,000 with interest at prime plus 1% (effective rate of 3.45% as at March 31, 2020) which is secured by a general security agreement. As at March 31, 2020, the facility remains unused.

5. Due from the Province of Manitoba

Upon inception on April 1, 2005, the Organization recorded accumulated severance pay benefits receivable and payable of $368,937 transferred from the Province of Manitoba for its employees. This receivable, or portion thereof, for the Organization, will be collected by the Organization as severance benefits are paid to employees on record as at April 1, 2005. The receivable from the Province of Manitoba at March 31, 2020 is $25,718 ($34,082 at March 31, 2019).

6. Tangible Capital Assets

Net book value: $343,904 ($88,986) $254,918

7. Employee Future Benefits

**Retirement Allowances**

The Organization measures its accrued benefit obligation for each of the retirement allowance and enhanced pension benefits as at March 31 of each year. The most recent actuarial valuation report for the retirement allowance was at April 1, 2020 and the most recent finalized and approved actuarial valuation report for the enhanced pension benefits was at December 31, 2018.

The significant actuarial assumptions adopted in measuring the Organization’s retirement allowance obligation and costs are as follows:

<table>
<thead>
<tr>
<th>2020</th>
<th>2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Benefit costs for the year ended March 31</td>
<td></td>
</tr>
<tr>

</tr>
<tr>
<td>Rate of compensation increase</td>
<td>3.50%</td>
</tr>
<tr>
<td>Employer contributions</td>
<td>$298,136</td>
</tr>
</tbody>
</table>
For the year ended March 31, 2020

7. Employee Future Benefits (continued)

The significant actuarial assumptions adopted in measuring the Organization’s enhanced pension benefit and costs are as follows:

<table>
<thead>
<tr>
<th></th>
<th>2020</th>
<th>2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Benefit costs for the year ended March 31</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Discount rate</td>
<td>5.75%</td>
<td>6.00%</td>
</tr>
<tr>
<td>Rate of compensation increase</td>
<td>3.50%</td>
<td>3.75%</td>
</tr>
<tr>
<td>Employer contributions</td>
<td>$17,038</td>
<td>$16,803</td>
</tr>
</tbody>
</table>

Sick Leaves

Sick leave benefits that accumulate but do not vest are determined using present value techniques and are estimated to be a liability as at March 31, 2020 of $46,000 ($42,000 in 2019). The amount is not considered to be significant by management, and as such has not been recorded as a liability in the financial statements of the Organization.

8. Deferred Revenue

Deferred revenue represents payments received for partnership initiatives that pertain to a future period and will be recognized in the period in which the service is performed.

<table>
<thead>
<tr>
<th></th>
<th>2020</th>
<th>2019</th>
</tr>
</thead>
<tbody>

<td>$260,500</td>
<td>$247,526</td>
</tr>
</tbody>
</table>

9. Financial Instrument Risk

The Organization is exposed to different types of risk in the normal course of operations, including credit risk and liquidity risk. The Organization’s objective in risk management is to optimize the risk return tradeoff, within set limits, by applying integrated risk management and control strategies, policies and procedures throughout the Organization’s activities.

Credit Risk

Credit risk is the risk that one party to a financial instrument fails to discharge an obligation and causes financial loss to another party. Financial instruments which potentially subject the Organization to credit risk consist principally of trade accounts receivable, due from the Province of Manitoba, and short term deposits.

The Organization’s maximum exposure to credit risk is as follows:

<table>
<thead>
<tr>
<th></th>
<th>0–30 Days</th>
<th>31–40 Days</th>
<th>Over 60 Days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trade accounts receivables (net of allowance of $15,000)</td>
<td>$190,882</td>
<td>$28,478</td>
<td>$486,166</td>
</tr>
<tr>
<td>Due from the Province of Manitoba</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Due from the Province of Manitoba

The Organization is not exposed to significant credit risk related to these balances as there are underlying agreements to support their collection.

Liquidity Risk

Liquidity risk is the risk that the Organization will not be able to meet its financial obligations as they fall due. The Organization has a planning and budgeting process in place to help determine the funds required to support the Organization’s normal operating requirements on an ongoing basis. The Organization ensures that there are sufficient funds to meet its short term requirements, taking into account its anticipated cash flows from operations and its holdings of cash and cash equivalents. To achieve this aim, it seeks to maintain cash balances to meet, at a minimum, expected requirements for a period of at least 90 days. The following table sets out the contractual maturities representing undiscounted contractual cash flows of financial liabilities.

<table>
<thead>
<tr>
<th></th>
<th>0–30 Days</th>
<th>31–40 Days</th>
<th>Over 60 Days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trade accounts payable</td>
<td>$1,664,062</td>
<td>$20,010</td>
<td>$10,629</td>
</tr>
</tbody>
</table>

10. Contingencies and Commitments

The Organization has entered into lease agreements for rental of facilities at various locations expiring in June 2035 with total annual payments of $474,876. In addition, the Organization has entered into lease agreements for computer equipment expiring in December 2024, for total annual payments of $19,813.

11. Non monetary Transactions

During the current year, the Organization entered into contracts with exchanges of non monetary services for other non monetary services with little or no monetary consideration involved. These transactions are within normal business activities and were done in order to carry out the mandate of the Organization. The aggregate amount of all non monetary transactions in the current year total $62,918 ($76,804 in 2019). The Organization has not incurred any gains or losses in the current year with respect to these non monetary transactions.

12. Uncertainty due to COVID 19

Subsequent to year end, the impact of COVID 19 in Canada and on the global economy increased significantly. For the Organization, there has been a decrease in revenue due to a reduction of advertising and uncertainties regarding future advertising. As the impacts of COVID 19 continue, there could be further impact on the Organization. Management is actively monitoring the affect on its financial condition, liquidity, operations, and workforce. Given the daily evolution of the COVID 19 outbreak and the global responses to curb its spread, the Organization is not able to fully estimate the effects of the COVID 19 outbreak on its results of operations, financial condition, or liquidity at this time.
