To: Members of the Florin Resource Conservation District Board of Directors
and Ratepayers of the Elk Grove Water District

The Florin Resource Conservation District (District) is required by State statute to publish a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP). These statements must also be audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. In meeting those requirements, we are pleased to present the Annual Comprehensive Financial Report (Annual Report) for the District for the fiscal years ended June 30, 2022 and 2021.

The information presented in this Annual Report is intended to provide financial information with all the disclosures necessary to enable the District's customers, investment community and general public to assess the District's financial condition. The Annual Report contains management's representations concerning the finances of the District. Management is responsible for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed to both protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Since the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been independently audited by Badawi & Associates, a firm of licensed certified public accountants with which the District contracts for these services. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal years ended June 30, 2022 and 2021, are free from material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for

the fiscal years ended June 30, 2022 and 2021, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This transmittal letter is designed to complement the MD&A and is intended to be read in conjunction with it. For comparative purposes, the District has elected a dual year presentation for its financial statements, reporting both the current year and prior year activities, and the MD&A reporting the current year and prior two years activities. The District's MD&A is located immediately following the independent auditors' report.

Accounting System and Budgetary Controls

The District's accounting records are maintained using the accrual basis of accounting where revenues are recognized when they are earned, and the expenses are recognized when they are incurred.

District staff develops annual budgets which are subject to the approval of the District's Board of Directors (Board). A proposed budget is first presented to the Board for review and comment. Once comments are received and incorporated, a final proposed budget is presented to the Board for their consideration and approval. The budget is required to be adopted on or before June 30th of each year. The budget is used as a management tool for projecting and measuring revenues and expenses.

DISTRICT PROFILE

History

The District was formed in 1953, pursuant to Section 9000 et seq. of the Public Resources Code of the State of California and is governed by a five-member Board of Directors serving four-year staggered terms. The District is located approximately six miles southeast of the City of Sacramento in the west central portion of unincorporated Sacramento County and was formed to address soil degradation issues resulting from poor irrigation and drainage. There currently are approximately 92,000 acres within the District. The District has historically provided technical assistance and conservation education to farmers, community members and students.

In addition to resource conservation efforts, the District provides water service within its 13-mile water service area through the Elk Grove Water Service, which was acquired in 1999. The Elk Grove Water Service operates as an enterprise fund of the District. In 2010, the name of the Elk Grove Water Service was changed to the Elk Grove Water District (EGWD).

The EGWD is classified as a medium sized water purveyor serving approximately 46,000 people. The EGWD service boundary is divided into two distinct service areas commonly referred to as Service Area 1 and Service Area 2.

Source water for Service Area 1 is provided by four (4) deep wells and three (3) shallow wells owned and operated by EGWD. Source water for Service Area 2 includes both groundwater and surface water which is provided on a wholesale basis by the Sacramento County Water Agency (SCWA). Water is not shared between the two service areas except in an emergency.

On April 18, 2018, the District adopted Resolution No. 04.18.18.01, declaring that effective July 1, 2018, all activities performed by the District be limited to water related activities that provide a benefit to EGWD ratepayers. With the adoption of this resolution, the District's sole focus shifted to the operation of the EGWD.

Mission Statement

The EGWD is "Continually committed to outstanding customer service along with supplying its customers with excellent, safe, affordable water for current and future generations."

Water Supply

Source Water – There are currently seven (7) wells that supply groundwater to Service Area 1. Four (4) of the wells are deep wells, and three (3) are shallow wells. The deep aquifer has concentrations of iron and manganese that may exceed current federal and state secondary drinking water standards. The deep wells are designed to produce approximately 1,800 gallons per minute (gpm) each. The water from the deep wells is conveyed to the Railroad Water Treatment and Storage Facility where it is disinfected with sodium hypochlorite and treated for iron and manganese removal. The treated water is held in two large storage tanks before it is pumped into the water distribution system.

Additional source water is provided from the shallow groundwater wells. The shallow wells are disinfected with sodium hypochlorite prior to being pumped directly into the water distribution system. The shallow wells are used to balance system demands.

Water Treatment

The EGWD maintains two water treatment facilities:

The Railroad Water Treatment and Storage Facility provides 4.0 million gallons of water storage, 10 booster pumps (rated at 1,700 gpm capacity each), and water treatment that removes iron and manganese. The facility contains one of the four deep wells on site. The facility has been equipped with a backup power supply generator to run the entire facility in the event of a power failure or emergency. All source water for the treatment facility is groundwater from the four deep wells. The Railroad Water Treatment and Storage Facility provides the majority of the water for Service Area 1.

The Hampton Village Water Treatment Plant (WTP) provides an additional 1,000 gpm of water to EGWD's source capacity and improves the reliability of the water system by providing redundancy to the Railroad Water Treatment and Storage Facility. The Hampton Village WTP contains one shallow well on site. Treatment facilities at the Hampton Village WTP include disinfection by sodium hypochlorite and arsenic, iron and manganese removal.

Financial Stability and Planning

The current and future financial stability of the District is positive with the existing revenue source from the EGWD remaining stable. Revenues are received entirely through water rates. EGWD provides water to nearly 13,000 service connections currently and growth projections suggest that the service connections should increase by approximately 150 in 2023.

In January of 2018, the Board directed staff to conduct a five-year water rate study (Study) for the EGWD to cover the period of calendar year 2019 through calendar year 2023. The Plan's objectives were as follows:

- Maintain appropriate levels for reserve funds
- Maintain appropriate levels of funding for operational requirements
- Generate the appropriate level of funding necessary to fund the five-year Capital Improvement Program
- Update the current Meter Connection Fee and Capacity Charges for new development

This study, referred to as the 2018 Water Rate Study, was approved by the Board on July 18, 2018, in compliance with the rate setting process governed under Proposition 218.

The 2018 Water Rate Study recommends rate adjustments over the next 5 years with the first adjustment commencing on January 1, 2019, and subsequent adjustments commencing each January 1 thereafter, through and including January 1, 2023. Water revenue adjustments recommended by the study and approved by the Board are as follows:

- January 2019 – 0%
- January 2020 – 0%
- January 2021 – 3% - deferred by Resolution No. 06.16.20.01
- January 2022 – 3% - deferred by Resolution No. 06.15.21.02
- January 2023 – 3% - the Board authorized a 2.0% rate increase

On June 21, 2022, the District's Board of Directors approved Resolution No. 06.21.22.03, approving a 2.0% revenue rate adjustment effective January 1, 2023. Each June, the Board also adopts a new five-year Capital Improvement Program (CIP) designed to build, replace, and maintain the necessary infrastructure for the safe operation of the EGWD. The CIP is available on the District's website www.egwd.org.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Florin Resource Conservation District for its Annual Report for the fiscal year ended June 30, 2021. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized Annual Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The District believe that its current Annual Report continues to meet the Certificate of Achievement Program's requirements and will be submitting it to the GFOA to determine its eligibility for the certificate for the fiscal year ended June 30, 2022.

The preparation of the Annual Report was made possible by the dedicated services of the entire staff of the Finance Department and the Florin Resource Conservation District management team.

Respectfully submitted,

ORGANIZATIONAL CHART

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
of the Florin Resource Conservation District
Elk Grove, California

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the Florin Resource Conservation District (District) as of and for the years ended June 30, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the District, as of June 30, 2022 and 2021, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

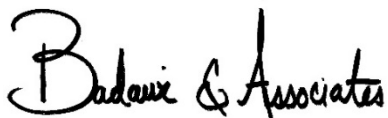

To the Board of Directors
of the Florin Resource Conservation District
Elk Grove, California

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, defined benefit pension plan schedules, and defined benefit OPEB plan schedules on pages 5 to 13 and pages 52 to 55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the Introductory Section and Statistical Section but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Florin Resource Conservation District

Management's Discussion and Analysis

For the years ended June 30, 2022, 2021 and 2020

The following narrative overview and analysis of the financial activities of the Florin Resource Conservation District (District) for the fiscal year ended June 30, 2022, 2021 and 2020 has been prepared by management to enhance the information provided in the transmittal letter. It is intended to be read in conjunction with that letter and should provide a better understanding of the District's financial operations and performance.

Although the District is a Resource Conservation District (RCD), it also provides water service to residents and businesses in the city of Elk Grove, CA. The water services are provided under the Elk Grove Water District (EGWD), which is owned and operated by the Florin Resource Conservation District.

On April 18, 2018, the District's Board of Directors adopted a resolution declaring that effective July 1, 2018, all future activities performed by the District will be limited to water related activities that provide a benefit to the EGWD ratepayers. In accordance with this resolution, in fiscal year 2019, the governmental fund of the District, which was used to account for resource conservation efforts not funded from user charges, was combined with the proprietary fund of the District, which is used to account for the water service activities funded primarily through user charges to customers.

FINANCIAL HIGHLIGHTS

- The District's total assets were \$103.0 million, \$100.4 million, and \$90.0 million for the years ended June 30, 2022, 2021 and 2020, respectively. There was an increase in total assets of \$2.6 million or 2.60% during fiscal year end June 30, 2022, an increase in total assets of \$10.4 million or 11.62% during the fiscal year ended June 30, 2021 and an increase of \$1.9 million, or 2.17%, during fiscal year ended June 30, 2020, respectively. The increase for fiscal year end June 30, 2022 was due mainly to a net pension asset of \$1.6 million and an increase in capital assets. The increase for fiscal year end June 30, 2021 was due mainly to a restatement of the District's capital assets balance to capture donated capital assets from prior years. The increases in total assets for the fiscal year ended June 30, 2020 was due to an overall increase in cash position as a result of revenues in excess of expenditures due to an increase in the number of customer accounts and an overall increase in water consumption as drought restrictions are lifted.
- The District's total liabilities were \$39.2 million, \$43.2 million, and \$45.4 million as of June 30, 2022, 2021, and 2020, respectively. The decrease in total liabilities of \$4.0 million, or 9.39% during fiscal year end June 30, 2022 was due mainly to the elimination of the net pension liability of \$1.6 million and the continued paydown of the District outstanding debt obligations. The decrease in total liabilities of \$2.1 million, or 4.7% during fiscal year ended June 30, 2021, and \$1.5 million, or 3.30%, during fiscal year ended June 30, 2020 were due mainly to the continued pay down of the District's outstanding debt obligations.
- The District's total operating revenues were \$16.0 million, \$16.6 million, and \$16.4 million, as of June 30, 2022, 2021, and 2020, respectively. The decrease in total operating revenues of \$0.6 million, or 3.81% for fiscal year ended June 30, 2022 was due water conservation effort due to drought conditions. The increase in total operating revenues of \$0.25 million, or 1.5% and \$1.2 million, or 7.78% during fiscal years ended June 30, 2021 and 2020 was

Florin Resource Conservation District
Management's Discussion and Analysis, Continued
For the years ended June 30, 2022, 2021 and 2020

due mainly to an increase in overall water consumption due to decreased rainfall during the fiscal year, as well as an increase in the number of new accounts in the EGWD's Service Area 2 related to new residential housing developments.

- The District's total operating expenses, after depreciation, were \$8.4 million, \$11.9 million, and \$11.2 million as of June 30, 2022, 2021, and 2020, respectively. The decrease in total operating expenses of \$3.6 million, or 29.83% for fiscal year end June 30, 2022 was due mainly to the recognition of net pension income of \$2.6 million as a result of CalPERS investment performance. The increase in total operating expenses of \$0.7 million, or 6.2% and \$0.5 million, or 5.05%, during fiscal years ended June 30, 2021 and 2020 is due mainly to an increase in water production costs associated with the increase in overall water consumption and water purchased from SCWA during those fiscal years.
- The District has benefited from continued positive net income, resulting in an increase in net position of \$6.0 million, or 9.87%, \$14.1 million, or 30.22% and \$4.0 million, or 9.43%, during fiscal years ended June 30, 2022, 2021, and 2020. The increase for year end June 30, 2021 was due mainly to a restatement of capital asset balances to capture donated capital assets from prior years.
- Capital assets net of depreciation increased \$2.7 million, or 3.34% during fiscal year ended June 30, 2022 and was due mainly to the tenant improvements on the District's new administration building. The increase of \$10.9 million, or 0.69% during the fiscal year ended June 30, 2021 was due mainly to the acquisition of a new administration building, offset by the sale of the District's old administration building and a restatement of capital asset balances to capture donated capital assets from prior years. There was a decrease of \$0.4 million, or 0.61%, during fiscal year ended June 30, 2020. This was primarily a reflection of the continued depreciation of capital assets in excess of construction in progress being added through new capital projects. The District added approximately \$2.3 million, \$0.9 million, and \$11.3 million in infrastructure, improvements and equipment during fiscal years ended June 30, 2022, 2021, and 2020 with annual depreciation for fiscal years ended June 30, 2022, 2021, and 2020 being approximately \$1.8 million, \$1.9 million, and \$1.6 million in each year, respectively. The \$11.3 million added for fiscal year end June 30, 2020 includes a restatement of approximately \$10.6 million to capital assets to capture donated capital assets from prior years. At the end of fiscal years June 30, 2022, 2021, and 2020, \$4.2 million, \$2.0 million, and \$0.02 million in infrastructure, improvement, and equipment assets were classified as "construction in-progress".
- Unrestricted net position was \$19.4 million, \$19.1 million, and \$18.3 million at June 30, 2022, 2021, and 2020, respectively. Unrestricted net position increased \$0.3 million, or 1.45% during fiscal year ended June 30, 2022 due mainly to the recognition of deferred outflows related to the District's pension and OPEB plans, offset by the decrease in cash. Unrestricted net position increased \$0.8 million, or 4.5%, and \$2.2 million, or 13.9% during fiscal years end June 30, 2021 and 2020 due mainly to positive operating results. The District reported \$0.6 million, \$0, and \$0 in restricted net position for fiscal years ended June 30, 2022, 2021, and 2020, respectively. The restricted net position reported in fiscal year June 30, 2022 is comprised of the net pension asset offset by associated deferred inflows related to pension.

Florin Resource Conservation District

Management's Discussion and Analysis, Continued

For the years ended June 30, 2022, 2021 and 2020

- The District had positive cash flow from enterprise fund operations of \$7.4 million, \$5.1 million, and \$6.8 million for the fiscal years ended June 30, 2022, 2021, and 2020, respectively. The District spent \$4.5 million, \$2.2 million, and \$1.3 million during fiscal years ended June 30, 2022, 2021, and 2020, respectively, on the acquisition of capital assets. The District spent \$3.9 million, \$3.9 million, and \$3.8 million during fiscal years ended June 30, 2022, 2021, and 2020, respectively, on debt principal and interest payments. The District experienced a decrease of \$1.2 million, \$0.7 million, and an increase of \$2.1 million in its ending cash and cash equivalents balances of \$16.5 million, \$17.7 million, and \$18.4 million for the years ended June 30, 2022, 2021, and 2020, respectively.

SECTIONS OF THE FINANCIAL STATEMENTS

The three sections of the District's financial statements are the: 1) introductory section, 2) financial section, and 3) statistical section.

Introductory Section

This includes the table of contents, letter of transmittal, list of Board of Directors and Staff, and organization chart. The transmittal letter includes discussion on items that had a significant impact on the financial statements.

Financial Section

This section includes the auditor's report, management's discussion and analysis and the basic financial statements. The District's basic financial statements are comprised of the financial statements, the notes to the basic financial statements, and the required supplementary information.

Statistical Section

The statistical section is the chief source of information regarding a government's *economic condition*. All of the information presented in the statistical section is organized around five specific objectives.

- *Provide information on financial trends.* Information needed to help users understand how a government's financial position has changed over time.
- *Provide information on revenue capacity.* Information needed to help the users understand and assess a government's ability to generate revenues.
- *Provide information on debt capacity.* Information needed to help users understand and assess a government's debt burden.
- *Provide demographic and economic information.* Information needed to help users understand the government's socioeconomic environment and to facilitate comparisons of financial statement information over time and among governments.

Florin Resource Conservation District
Management's Discussion and Analysis, Continued
For the years ended June 30, 2022, 2021 and 2020

- *Provide operating information.* Information needed to help users understand a government's operations and resources as well as to provide a context for understanding and assessing its economic condition.

OVERVIEW OF THE FINANCIAL STATEMENTS

The management's discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) financial statements, 2) notes to the basic financial statements, and 3) required supplementary information. The District's financial statements account for Water System activities funded primarily through user charges to customers.

The Statement of Net Position presents information on all assets and liabilities, with the difference between the two reported as total net position. The District's financial statements use the accrual basis of accounting, similar to private enterprises. When evaluated over a period of time, increases, or decreases in net position may serve as an indicator of whether the financial position of the District is improving or deteriorating. The Statement of Revenues, Expenses and Changes in Net Position reflect the revenues and expenses for the fiscal year ended. The Statement of Cash Flows shows the sources and uses of cash in the operating, non-capital, capital, and related financing, and investing activities. The notes provide in depth information that is vital to gaining a full understanding of the data provided in the financial statements.

FINANCIAL ANALYSIS OF THE DISTRICT

STATEMENT OF NET POSITION AS OF JUNE 30, 2022, 2021 AND 2020

	2022	2021	2020
Current assets	\$ 18,804,912	\$ 20,469,760	\$ 20,949,283
Capital assets, net of depreciation	82,656,952	79,986,153	69,050,274
Other assets	1,608,503	-	-
Total Assets	103,070,367	100,455,913	89,999,557
Deferred outflows	4,815,208	3,870,274	2,432,553
Current liabilities	4,619,284	4,120,573	3,833,076
Long-term liabilities	34,548,996	39,105,768	41,529,439

Florin Resource Conservation District
Management's Discussion and Analysis, Continued
For the years ended June 30, 2022, 2021 and 2020

Current assets decreased by \$1.7 million, \$0.5 million, and increased by \$2.3 million in fiscal years ended June 30, 2022, 2021, and 2020, respectively. The decrease in fiscal year 2022 was due mainly to the tenant improvements to the District's new administration building. The decrease in fiscal year 2021 was due to the acquisition of a new administration building, offset by the sale by the District's current administration building. The increases in fiscal years 2020 was due to an increase in cash and cash equivalents as a result of positive operating income due to prudent operating cost control. As a result of continued positive operating income due to prudent operating cost control, the District has been able to forgo the need for water rate adjustments for the past 4 years with an approved 2.0% revenue rate increase to be effective January 1, 2023.

Capital assets (net of depreciation) increased by \$2.7 million, \$10.9 million, and decreased by \$0.4 million in the fiscal years ended June 30, 2022, 2021, and 2020, respectively. The increase in fiscal year 2022 was due mainly to the tenant improvements on the District's new administration building. The increase in fiscal year 2021 was due to the acquisition of a new administration building, offset by the sale of the District's current administration building. The decreases in fiscal years 2020 was due primarily to depreciation expense exceeding the amount of capitalized construction in progress to depreciable assets. Total depreciation expense recognized was approximately \$1.8 million, \$1.9 million, and \$1.6 million for fiscal years 2022, 2021, and 2020, respectively.

Deferred outflows of resources increased by \$0.9 million, \$1.4 million, and \$0.5 million in the fiscal years ended June 30, 2022, 2021, and 2020, respectively. The increase in fiscal year 2022 was due mainly to the recognition of deferred outflows related to the District's pension and OPEB plans. The increase in fiscal year 2021 was due to an approximate \$1.7 million prepayment to CalPERS to pay down the District's unfunded accrued liability. The increase in fiscal year 2020 was due to a change in methodology in calculating the District's implicit rate subsidy related to GASB 75.

Current liabilities increased by \$0.5 million, \$0.3 million, and \$0.09 million in the fiscal years ended June 30, 2022, 2021, and 2020, respectively. The increase in fiscal year 2022 was due mainly to the recognition of \$0.4 million in unearned revenue related to an ARPA grant passed through from the City of Elk Grove for projects not yet started. All other increases are due mainly to principal debt payments coming due within the year.

Long term liabilities decreased by \$4.6 million, \$2.4 million, and \$1.6 million in the fiscal years ended June 30, 2022, 2021, and 2020, respectively. The decrease in fiscal year 2022 was due mainly to the elimination of the net pension liability as a result of CalPERS investment performance. All other decreases were due mainly to the continued pay down of the District's debt obligations.

Deferred inflows of resources increased by \$1.6 million, decreased by \$0.08 million, and \$0.08 million in the fiscal years ended June 30, 2022, 2021, and 2020, respectively. The increase in fiscal year 2022 was due mainly to recognition of deferred inflows related to the District's pension and OPEB plans offset by the amortization of pension and OPEB related deferrals.

Florin Resource Conservation District
Management's Discussion and Analysis, Continued
For the years ended June 30, 2022, 2021 and 2020

There was an increase in net position of \$6.0 million, \$14.1 million, and \$4.0 million in the fiscal years ended June 30, 2022, 2021, and 2020, respectively. The increase in fiscal year 2021 was due to a restatement of net position to capture donated capital assets from prior years. All other increase in net position is directly related to prudent cost control leading to operating revenues in excess of operating expenses.

**CONDENSED SCHEDULE OF REVENUES, EXPENSES
AND CHANGES IN NET POSITION
FOR THE YEARS ENDED JUNE 30, 2022, 2021 AND 2020**

	<u>2022</u>	<u>2021</u>	<u>2020</u>
Revenues:			
Water services	\$ 16,030,316	\$ 16,666,067	\$ 16,418,370
General Revenues:			
Interest earnings	(334,766)	69,849	311,494
Other	21,142	-	40,580
Total Revenues	<u>\$ 15,716,692</u>	<u>\$ 16,735,916</u>	<u>\$ 16,770,444</u>
Expenses:			
Water Service	9,711,228	13,380,546	12,745,042
Other	-	8,133	-
Total Expenses	<u>\$ 9,711,228</u>	<u>\$ 13,388,679</u>	<u>\$ 12,745,042</u>
Change in net position	6,005,464	3,347,237	4,025,402
Net position, beginning of year, as restated	60,816,655	57,469,418	42,678,363
NET POSITION, END OF YEAR	<u>\$ 66,822,119</u>	<u>\$ 60,816,655</u>	<u>\$ 46,703,765</u>

There was a decrease in revenues of \$0.6 million and an increase in revenues of \$0.2 million and \$1.2 million in fiscal years ended June 30, 2022, 2021, and 2020, respectively. The decrease in revenues for fiscal year 2022 was due mainly to water conservation efforts as a result of drought conditions. The increase in revenues for fiscal years 2021 and 2020 were due to an overall increase in the number of new accounts as residential development increased in the EGWD's Service Area 2.

Florin Resource Conservation District

Management's Discussion and Analysis, Continued

For the years ended June 30, 2022, 2021 and 2020

The breakdown of revenues by type for the fiscal years ended June 30, 2022, 2021 and 2020 were as follows:

There was a decrease in expenses of \$3.7 million and an increase in operating expenses of \$0.6 million and \$0.5 million in the fiscal years ended June 30, 2022, 2021, and 2020, respectively. The decrease in fiscal year 2022 was due mainly to the recognition of net pension income of approximately \$2.8 million related to the District's CalPERS GASB 68 pension plan. The increases in fiscal years 2021 and 2020 were due mainly to an increase in water production costs associated with the increase in overall water consumption and water purchased from SCWA.

The breakdown of expenses by type for the fiscal years ended June 30, 2022, 2021 and 2020 were as follows:

Florin Resource Conservation District
Management's Discussion and Analysis, Continued
For the years ended June 30, 2022, 2021 and 2020

CAPITAL ASSET AND DEBT ADMINISTRATION

Most of the District's annual assets and annual expenditures relate to the construction, repair and maintenance of the EGWD's infrastructure. Repair and replacement of aging infrastructure is one of the most significant challenges facing the District. The District assesses and manages the infrastructure of the EGWD through cost focus planning, taking into account water resource availability, consumer peak demand needs and climatic changes. Funding for capital projects comes primarily from user charges to District customers.

The changes in capital assets in fiscal years 2022, 2021, and 2020 were primarily a result of expenditures for infrastructure offset by depreciation each year. Depreciation expense for fiscal years 2022, 2021, and 2020 was approximately \$1.8 million, \$1.9 million, and \$1.6 million in each year, respectively.

Major capital asset projects during fiscal years 2022 and 2021 included the District's new administration building tenant improvements, Backyard Water Main Replacement Project, service line replacements and the purchase of a compact loader. In fiscal year 2021, the District acquired a new administration building located at 9829 Waterman Rd., Elk Grove, CA for \$1.85 million and sold the District's current administration building located at 9257 Elk Grove Blvd., Elk Grove, CA for \$0.9 million. No new debt was issued for the purchase of the new administration building. See additional information on capital assets in Note 3 on page 33.

OUTSTANDING DEBT ISSUES
AS OF JUNE 30, 2022, 2021 AND 2020

	2022	2021	2020
2014 Water Revenue Refunding Bonds	\$ 22,690,000	\$ 24,730,000	\$ 26,640,000
2016 Water Revenue Refunding Bonds	12,480,000	12,880,000	13,270,000
Total	<u>\$ 35,170,000</u>	<u>\$ 37,610,000</u>	<u>\$ 39,910,000</u>

The District issues debt as a funding resource for major repairs and maintenance on EGWD infrastructure. The District's debt covenant requires that "net operating revenues" equal or exceed 115% of the annual debt service cost in any year. For compliance history, please see the "Pledged Revenue Coverage" schedule in the Statistical Section. For more information on long-term debt activity, please refer to Note 4 on page 34.

Florin Resource Conservation District
Management's Discussion and Analysis, Continued
For the years ended June 30, 2022, 2021 and 2020

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The most recent data available from the Bureau of Labor Statistics for the Sacramento Metropolitan Area shows an improving economy despite the ongoing effects of the COVID-19 pandemic. As of June 2021, the local unemployment rate was 6.9%, compared to 12.8% in June 2020, respectively and the CPI for the San Francisco area, which is the nearest metropolitan area, increasing 5.0% over April of 2021.
- With inflation at 9.2% as of June 30, 2022 and the region closely monitoring the effects of global warming and potential drought conditions, the District has experienced a decrease in water consumptions of 3.91% as compared to fiscal year 2021. District staff continue to prudently manage District resources while minimizing revenue rate increases to offset the impact of the current economic conditions.
- On July 18, 2018 the Board adopted a five-year rate structure which recommends revenue rate adjustments as follows:
 - 0% January 2019
 - 0% January 2020
 - 3% January 2021 – deferred into future years
 - 3% January 2022 – deferred into future years
 - 3% January 2023 – the Board approved a 2.0% revenue rate increase

On June 16, 2020, the District's Board of Directors adopted Resolution No. 06.16.20.01, deferring the 3.0% revenue rate adjustment effective January 1, 2021 into future years. Furthermore, on June 15, 2021, the District's Board of Directors adopted Resolution No. 06.15.21.02, deferring the 3.0% revenue rate adjustment effective January 1, 2022 into future years. On June 21, 2022, the Board adopted Resolution No. 06.21.22.03, approving a 2.0% revenue rate adjustment effective January 1, 2023.

All of these factors were considered in preparing the Florin Resource Conservation District's budget for the fiscal year ending June 30, 2023. The District adopted an operating budget of \$16.4 million for FY 2022-23. Included in this amount is \$1.68 million in capital expenditures for FY 2022-23, as part of the five-year Capital Improvement Program totaling \$10.1 million.

Requests for Information

Florin Resource Conservation District

Notes to Basic Financial Statements

For the years ended June 30, 2022 and 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. *Reporting Entity*

The Florin Resource Conservation District (the District) was formed in 1953, pursuant to Section 9000 et seq. of the Public Resources Code of the State of California. The District, which is located approximately six miles southeast of the City of Sacramento in the west central portion of unincorporated Sacramento County, was formed to address soil dehydration issues resulting from poor irrigation and drainage. There is currently approximately 92,000 acres within the District.

The District provides technical assistance and conservation and conservation education to farmers dealing with natural resource management issues and views education as one of its primary objectives. The District additionally serves as the clearinghouse for solid and water conservation measures, such as administering the local water hyacinth eradication program. The United States Department of Agriculture, through its Soil Conservation Services, provides staffing and technical assistance to the District and the two adjacent soil conservation districts.

The District also provides water service within a 13-mile water service area through the Elk Grove Water Service, which was acquired in 1999. The Elk Grove Water Service operates as a proprietary fund of the District. In 2010, the name of the Elk Grove Water Service was changed to the Elk Grove Water District (EGWD).

On April 18, 2018, the District adopted Resolution No. 04.18.18.01, declaring that effective July 1, 2018, all activities performed by the District be limited to water related activities that provide a benefit to EGWD ratepayers. With the adoption of this resolution, the District's sole focus shifted to the operation of the EGWD.

B. *Basis of Accounting and Measurement Focus*

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The District reports the EGWD as a proprietary fund of the District. Proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Change in Net Position, and a Statement of Cash Flows.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets and liabilities (whether current or noncurrent) are included on the Statement of Net Position. The Statement of Revenues, Expenses and Changes in Net Position present increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which a liability is incurred.

Florin Resource Conservation District

Notes to Basic Financial Statements, Continued

For the years ended June 30, 2022 and 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

B. Basis of Accounting and Measurement Focus, Continued

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as nonoperating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as nonoperating expenses.

C. Cash, Cash Equivalents and Investments

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District does not have any investments that are measured using Level 3 inputs. For purposes of the statement of cash flows, the District considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents, including restricted assets and the District's investment in the State of California Local Agency Investment Fund (LAIF) and CalTRUST.

D. Restricted Cash and Investments

Certain proceeds of the District's long-term debt are classified as restricted cash and investments on the statement of net position because their use is limited by applicable bond covenants. The "reserve" account is used to report resources set aside to make up potential future deficiencies in the bond's debt service. There were no restricted cash and investments as of June 30, 2022 and 2021.

E. Accounts Receivable

Accounts receivable arise from billings to customers for water usage and include an estimate for unbilled revenues earned from the dates the customers were last billed to the end of the year. An allowance for uncollectible accounts of \$98,724 was recorded for fiscal years ended June 30, 2022 and 2021.

F. Inventory

Inventory consists primarily of materials used in the construction and maintenance of the water system and is valued using the specific identification method. The cost of the inventory is recorded as an expense when consumed, rather than when purchased.

Florin Resource Conservation District

Notes to Basic Financial Statements, Continued

For the years ended June 30, 2022 and 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

G. Capital Assets

Capital assets are reported on the statement of net position and are recorded at historical cost if purchased or constructed. Donated or contributed assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Depreciation is computed on the straight-line basis over the estimated useful lives of the various classes of assets as follows:

Buildings	40 years
Improvements	10 - 15 years
Equipment	5 - 25 years
Water treatment and distribution system	25 - 80 years

It is the District's policy to capitalize all capital assets with a useful life of more than one year, and original cost of \$5,000 or greater. Costs of the assets sold or retired (all the related amounts of accumulated depreciation) are eliminated from the statement of net position in the year of sale or retirement, and the resulting gain or loss is recognized in operations.

H. Bond Discounts, Premiums and Deferred Amount on Refunding of Long-Term Debt

Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which does not significantly differ from the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs, except for prepaid bond insurance, are expensed as incurred. Accounting gains or losses resulting from advance refunding of long-term debt are deferred in accordance with GASB Statement No. 65, *Items previously Reported as Assets and Liabilities*, and are reported as deferred inflows of resources or deferred outflows of resources on the financial statements. Deferred amounts on bond refunding are amortized over the remaining life of the old debt (had it not been refunded) or the life of the new debt, whichever is shorter.

I. Due to Other Governments

Due to other governments consisted of \$562,187 and \$610,936 payable to the County of Sacramento for water purchases at June 30, 2022 and 2021, respectively.

J. Compensated Absences

The District's policy allows employees to accumulate earned, but unused personnel leave time at the rate of ninety-six (96) hours per year and vacation time at the rate of forty (40) hours per year, eighty hours (80) per year after two years of service and one hundred and twenty hours (120) per year after five years of service. The liability for these compensated absences is recorded as a long-term liability on the statement of net position. The current portion of this long-term liability is estimated based on historical trends.

Florin Resource Conservation District

Notes to Basic Financial Statements, Continued

For the years ended June 30, 2022 and 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

K. *Unearned Revenue*

Unearned revenue is recognized for transactions for which revenue has not yet been earned. The District recorded \$436,000 and \$14,159 at June 30, 2022 and 2021, respectively.

L. *Net Position*

The financial statements present net position. Net position is categorized as net investment in capital assets, restricted, and unrestricted:

Net Investment in Capital Assets – This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of the capital assets.

Restricted Net Position – This amount is restricted by external creditors, grantors, contributors, laws or regulations of other governments.

Unrestricted Net Position – This amount is the remaining net position that does not meet the definition of “net investment in capital assets” or “restricted net position.”

M. *Use of Estimates*

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management, at the date of the financial statements, to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

N. *Risk Management*

The District is exposed to various risks of loss related to tort; theft of, damage to and destruction of assets; errors and omissions and natural disasters. These risks are covered through the District's participation in the Association of California Water Agencies Joint Powers Insurance Authority (ACWA/JPIA or JPIA) as described in Note 6. The insurance is subject to a deductible. No significant claims occurred during the years ended June 30, 2022 and 2021. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance coverage from the prior year.

Florin Resource Conservation District

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

O. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

P. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the District's California Public Employee's Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Q. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB and OPEB expense, information about the fiduciary net position of the District's OPEB plan and additions to/deductions from the OPEB plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2021
Measurement Date	June 30, 2021
Measurement Period	July 1, 2020 to June 30, 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

R. New GASB Pronouncements

In fiscal year 2022, the District adopted new accounting standards in order to conform to the following Governmental Accounting Standards Board Statements:

- GASB Statement No. 87, *Leases* – The objective of this statement is to recognize in the financial statements certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this statement did not have an impact on the District's net position for the years ended June 30, 2022 and 2021, respectively.
- GASB Statement No. 92, *Omnibus 2020* – The objective of this statement is to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation of certain GASB statements. The requirements of this statement did not have an impact on the District's net position for the years ended June 30, 2022 and 2021, respectively.
- GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32* – The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. The requirements of this statement did not apply to the District for the current fiscal year.
- GASB Statement No. 98, *The Annual Comprehensive Financial Report* – The primary objective of this Statement is to establish the term annual comprehensive financial report and its acronym ACFR. This new term and acronym replaces instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. This Statement has been implemented by the District for the current fiscal year.

For the years ended June 30, 2022 and 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

R. New GASB Pronouncements, Continued

- GASB Statement No. 99, *Omnibus 2022* – The primary objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The requirements of this Statement did not apply to the District for the current fiscal year.

S. Future Implementation of GASB Pronouncements

The District is currently analyzing its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

- GASB Statement No. 96, *Subscription-Based Information Technology Arrangements* – The objective of this statement is to provide guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to-use subscription asset—an intangible asset—and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. The requirements of this Statement are effective for the District’s year ending June 30, 2023.
- GASB Statement No. 100, *Accounting Changes and Error Corrections-an Amendment of GASB Statement No. 62* – The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The requirements of this Statement are effective for the District’s year ending June 30, 2024.
- GASB Statement No. 101, *Compensated Absences* – The primary objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for the District’s year ending June 30, 2025.

2. CASH AND INVESTMENTS

A. Summary of Cash and Investments

Cash and investments are classified in the accompanying financial statements as of June 30, 2022 and 2021 as follows:

	2022	2021
Deposits and Investments	\$ 16,476,954	\$ 17,709,471
Total cash and investments	\$ 16,476,954	\$ 17,709,471

Cash and investments were classified according to GASB Statement No. 40 as of June 30, 2022 and 2021 as follows:

	2022	2021
Cash on hand	\$ 300	\$ 300
Deposits with financial institution	5,849,418	6,737,768
Total cash on hand and deposits	5,849,718	6,738,068
Money Market F&M	100,825	100,564
Money Market US Bank	51,571	27,301
Local Agency Investment funds	5,410,575	5,465,881
CalTrust	1,340,835	1,388,837
US Government Securities held by custodian	3,723,430	3,988,820
Total investments	10,627,236	10,971,403
Total cash and investments	\$ 16,476,954	\$ 17,709,471

B. Deposits

The carrying amount of the District's cash deposit was \$5,849,418 and \$6,737,768 at June 30, 2022 and 2021, respectively. Balances before reconciling amounts were a positive amount of \$6,495,461 and \$6,803,146 at June 30, 2022 and 2021, respectively. The District has waived collateral requirements for cash deposits, which are fully insured up to \$250,000 by the Federal Deposit Insurance Corporation. The remaining amount was collateralized with securities pledged by the pledging financial institution in the District's name.

The California Government Code (Code) requires California banks and savings and loan associations to secure the District's cash deposits by pledging securities as collateral. The Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the District's name.

Florin Resource Conservation District
Notes to Basic Financial Statements, Continued
For the years ended June 30, 2022 and 2021

2. CASH AND INVESTMENTS, Continued

B. Deposits, Continued

The market value of the pledged securities must equal at least 110% of the District's cash deposits. California law also allows institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the District's total cash deposits.

The District follows the practice of pooling cash and investments of all funds, except for funds required to be held by fiscal agents under the provisions of bond indentures. Interest income earned on pooled cash and investments is allocated to the various funds based on the period-end cash and investment balances. Interest income from cash and investments with fiscal agents is credited directly to the related fund.

C. Investments

Investments are reported at fair value. California statutes authorize special districts to invest idle or surplus funds in a variety of credit instruments as provided for in the California Government Code, Section 53600, Chapter 4 – Financial Affairs. The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's investment policy, where more restricted) that address interest rate risk, credit risk, and concentration of credit risk. The table does not address investments of debt proceeds held by the bond trustee that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy. The District's permissible investments include the instruments listed below:

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds	5 years	None	None
U.S. Treasury Obligations	5 years	None	None
U.S. Agency Securities	5 years	None	None
California Local Agency Investment	5 years	None	None
Bankers Acceptances	180 days	40%	30%
Commercial Paper	270 days	25%	10%
Negotiable Certificates and Time Deposits	5 years	30%	None
Repurchase Agreements	1 year	None	None
Reverse Repurchase Agreements	92 days	20%	None
Medium Term Corporate Notes	5 years	30%	None
Mutual Funds	N/A	20%	10%
Money Market Mutual Funds	N/A	20%	10%
Mortgage Pass-through Securities	5 years	20%	None
Financial Futures and Option Contracts	1	1	1
Investment Pools, including LAIF	None	None	None

1 – The District may invest in financial futures and option contracts of any of the above authorized categories, subject to the same overall portfolio limitations.

Florin Resource Conservation District

Notes to Basic Financial Statements, Continued

For the years ended June 30, 2022 and 2021

2. CASH AND INVESTMENTS, Continued

C. Investments, Continued

The District complied with the provisions of the California Government Code and its investment policy pertaining to the types of investments held, the institutions in which deposits were made and the security requirements.

Investments are stated at fair value using the aggregate method in all funds, resulting in the investment income as of June 30, 2022 and 2021 as follows:

	2022	2021
Interest income	\$ 56,182	\$ 88,328
Unrealized gain/(loss) in change in fair value of investment	(390,948)	(18,479)
Total investment income	\$ (334,766)	\$ 69,849

The District's portfolio value fluctuates in an inverse relationship to any change in interest rate. Accordingly, if interest rates rise, the portfolio value will decline. If interest rates fall, the portfolio value will rise. The portfolio for year-end reporting purposes is treated as if it were all sold. Therefore, fund balance must reflect the portfolio's change in value. These portfolio value changes are unrealized unless sold. Generally, the District's practice is to buy and hold investments until maturity dates. Consequently, the District's investments are carried at fair value.

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The District's investments with LAIF at June 30, 2022 and 2021, include a portion of the pool funds invested in Structured Notes and Asset-Backed Securities. These investments include the following:

Structured Notes - are debt securities (other than asset-backed securities) whose cash flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or have embedded forwards or options.

Asset-Backed Securities - the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit card receivables.

Florin Resource Conservation District

Notes to Basic Financial Statements, Continued

For the years ended June 30, 2022 and 2021

2. CASH AND INVESTMENTS, Continued

C. Investments, Continued

As of June 30, 2022, the District had \$5,410,575 invested in LAIF, which had invested 1.88% of the pool investments funds in Structured Notes and Asset-Backed Securities as compared to 2.31% in the previous year. The LAIF fair value factor of 0.987125414 was used to calculate the fair value of the investments in LAIF.

As of June 30, 2021, the District had \$5,465,881 invested in LAIF, which had invested 2.31% of the pool investments funds in Structured Notes and Asset-Backed Securities as compared to 2.21% in the previous year. The LAIF fair value factor of 1.00008297 was used to calculate the fair value of the investments in LAIF.

The District is a voluntary participant in the Investment Trust of California (CalTRUST) which is a Joint Powers Authority governed by a Board of Trustees made up of local treasurers and investment officers. The Board of Trustees sets overall policy for CalTRUST and selects and supervises the activities of the Investment Manager and other agents. As of June 30, 2022 and 2021, the District had \$1,340,835 and \$1,388,837 invested in the CalTRUST Medium-term pool. Amounts that may be withdrawn from the Medium-term pool are based on the net asset value per share and the number of shares held by participants in each pool.

D. Risk Disclosures

Interest Risk: Interest rate risk is the market value fluctuation due to overall changes in the interest rates. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes, in market interest rates. One of the ways the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. The District's investment policy does not contain any provisions limiting interest rate risk that are more restrictive than what is specified in the California Government Code.

Information about the sensitivity of the fair values of the District's investments (including investments held by bond trustee) to market interest rate fluctuations is provided by the tables that shows the distribution of the District's investments by maturity as of June 30, 2022 and 2021 on the following page:

For the years ended June 30, 2022 and 2021

2. CASH AND INVESTMENTS, Continued

D. Risk Disclosures, Continued

Credit Risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligations to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. At June 30, 2022 the District's deposits and investments were rated as follows:

		Credit Quality Ratings	
		Moody's	S&P
F F C B	0.570% 7/02/24	Aaa	AA+
F N M A	0.580% 11/25/25	Aaa	AA+
F F C B DEB	0.870% 4/15/26	Aaa	AA+
F N M A M T N	0.720% 7/09/25	WR	AA+
Local Agency Investment Funds		Unrated	Unrated
CalTrust		Unrated	AA-f

Concentration of Credit Risk: The California Government Code limits the amount the District may invest in any one issuer, with the exception of U.S. Treasury obligations, U.S. Agency securities and LAIF. The District has no investments in any one issuer (other than money market mutual funds and external investment pools) that represent 5% or more of total District investments.

Custodial credit risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value for its investment or collateral securities that are in the possession of another party.

E. Investment Valuation

Investments (except money market accounts that are included as part of restricted cash and investments) are measured at fair value on a recurring basis. *Recurring* fair value measurements are those that Governmental Accounting Standards Board (GASB) Statements require or permit in the statement of net position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investment fair value measurements at June 30, 2022 and 2021 were as follows:

4. LONG-TERM DEBT, Continued

Long-term debt as of June 30, 2022 and 2021 consisted of the following:

	2022	2021
<u>Florin Resource Conservation District, Water Revenue Refunding Bonds, 2014 Series A</u>		
On December 16, 2014, the District issued the Florin Resource Conservation District, Water Revenue Refunding Bonds, 2014 Series A in the amount of \$32,325,000. The proceeds were used to prepay aggregate principal amount of outstanding certificates of participation previously executed and delivered by the District, purchase a debt service reserve surety bond, and pay for certain costs associated with the issuance of the 2014 Series A Bonds. The Bonds are secured by a lien on the net water system revenues. Annual principal payments of \$715,000 to \$2,450,000 are due on September 1 through September 1, 2032. Semi-annual interest payments of \$37,625 to \$688,909 are due March 1 and September 1, 2016 through September 1, 2032. Interest rates range from 4.30% to 5.00%. The refunding resulted in an economic gain of \$3,563,207 and an accounting loss that was recorded as a deferred outflow of resources. The unamortized balance of the deferred loss on refunding as of June 30, 2022 and 2021 was \$445,252 and \$489,778. The aggregate difference between the debt service requirements of the refunding bonds and remaining debt service of the refunded bonds was \$4,893,871.	\$ 22,690,000	\$ 24,730,000
<u>Florin Resource Conservation District, Water Revenue Refunding Bonds, 2016 Series A</u>		
On June 7, 2016, the District issued the Florin Resource Conservation District, Direct Placement Water Revenue Refunding Bonds, 2016 Series A in the amount of \$14,875,000. The proceeds were used to prepay aggregate principal amount of outstanding certificates of participation previously executed and delivered by the District, purchase a debt service reserve surety bond, and pay for certain costs associated with the issuance of the 2016 Series A Bonds. The Bonds are secured by a lien on the net water system revenues. Annual principal payments of \$350,000 to \$2,395,000 are due on September 1 through September 1, 2032. Semi-annual interest payments of \$43,110 to \$261,450 are due March 1 and September 1, 2016 through September 1, 2032. Interest rate 3.6%. The refunding resulted in an economic gain of \$2,098,268 and an accounting loss that was recorded as a deferred outflow of resources. The unamortized balance of the deferred loss on refunding as of June 30, 2022 and 2021 was \$294,0274 and \$323,430. The aggregate difference between the debt service requirements of the refunding bonds and the remaining debt service of the refunded bonds was \$9,573,508.	\$ 12,480,000	\$ 12,880,000
TOTAL	\$ 35,170,000	\$ 37,610,000

4. LONG TERM DEBT, Continued

The annual requirements to amortize the outstanding business-type activities debt as of June 30, 2022 are as follows:

Year Ending June 30,	2014 Refunding, Series A Bonds		Direct Placement 2016 Refunding, Series A Bonds		Total
	Principal	Interest	Principal	Interest	
2023	2,145,000	881,394	415,000	441,810	3,883,204
2024	2,245,000	785,394	430,000	426,600	3,886,994
2025	2,330,000	697,269	450,000	410,760	3,888,029
2026	2,170,000	617,613	765,000	388,890	3,941,503
2027	2,285,000	545,147	790,000	360,900	3,981,047
2028-2032	10,010,000	1,424,231	7,235,000	1,230,930	19,900,161
2032-2033	1,505,000	37,625	2,395,000	43,110	3,980,735
	<u>\$ 22,690,000</u>	<u>\$ 4,988,673</u>	<u>\$ 12,480,000</u>	<u>\$ 3,303,000</u>	<u>\$ 43,461,673</u>

Pledged Revenues: The District has pledged future water system revenues, net of specified operating expenses, to repay its 2014 Series A Water Revenue Refunding Bonds and 2016 Series A Water Revenue Refunding Bonds in the original amount of \$32,325,000 and \$14,875,000, respectively. Proceeds of the 2016 Bonds were used to retire the 2002, 2003 and 2005 Certificates.

The District's 2016 Series A Revenue Refunding Bonds were issued under a supplemental indenture to the 2014 Series A Water Revenue Refunding Bonds and are classified as notes from direct borrowings and direct placements. The 2016 Series A Water Revenue Refunding Bonds contain a provision that in an event of a default, outstanding amounts become immediately due if the District is unable to make payment.

The 2014 and 2016 bonds are parity debt, with the net revenues, less the rate stabilization fund, required to be at least 1.15 times the sum of the cash basis installment principal and interest payments on the outstanding bonds and any other obligation payable from water system revenues.

The calculation of the required coverage ratios as of June 30, 2022 and 2021 were as follows:

	2022	2021
Covenant:		
Net revenues before adjustments (operating income)	\$ 7,670,699	\$ 4,889,438
Add: Depreciation and amortization	1,832,189	1,749,225
Net revenues, not including rate stabilization fund, accrual basis	9,502,888	6,638,663
Interest and principal payments, cash basis (as defined)	\$ 3,882,498	\$ 3,855,469
Coverage ratio computed	<u>2.45</u>	<u>1.72</u>

Florin Resource Conservation District

For the years ended June 30, 2022 and 2021

4. LONG TERM DEBT, Continued

Arbitrage: The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with investments of all tax-exempt bond proceeds at an interest yield greater than the interest paid to the bondholders. Generally, all interest paid to bond holders can be retroactive if applicable rebates are not reported and paid to the Internal Revenue Service at least every five years. The District performed calculations of excess investments earnings on various investments and financings and determined there was no arbitrage liability at June 30, 2022 and 2021.

5. NET POSITION RESERVES

The District's Board of Directors approved a reserve policy that authorized commitments of unrestricted net position reported in the audited financial statements up to a specified dollar amount as of June 30, 2022 and 2021 as follows:

	Description	2022	2021
Operating fund	120 days of annual operations and maintenance budget	\$ 4,849,427	\$ 4,831,058
Future capital improvement fund	75% of unrestricted funds not allocated to other reserve funds	9,476,647	6,940,068
Capital improvement fund	Annual capital improvement budget	100,000	3,025,000
Future capital replacement fund	25% of unrestricted funds not allocated to other reserve funds	3,158,882	2,313,356
Capital replacement fund	Annual capital replacement budget	1,583,000	2,030,000
Elections and special studies	Amount specified by Board of Directors	250,000	-
Total net position commitments		<u>\$ 19,417,956</u>	<u>\$ 19,139,482</u>

6. INSURANCE

The District is a member of the Association of California Water Agencies Joint Powers Insurance Authority (ACWA/JPIA or JPIA). The JPIA is a risk-pooling self-insurance authority, created under the provisions of the California Government Code for the purpose of providing insurance coverage for its member districts. The District pays an annual premium to JPIA for liability, property, and workers compensation coverage. The District's annual premium is based on its pro-rata share of charges for the pooled risk, claims adjusting and legal costs, and administrative and other costs to operate the JPIA. The District's coverage and corresponding deductibles are as follows:

Coverage	Amount	Deductible
Liability (including errors and omissions)	\$ 55,000,000	None
Cyber Liability	\$ 5,000,000/occurrence	\$ 25,000
Property	\$ 2,500,000 - 500,000,000	\$ 500-25,000
Excess Crime	\$ 1,000,000	\$ 100,000
Worker's compensation	\$ 4,000,000	None

7. RETIREMENT BENEFITS

A. Plan Description

All qualified permanent and probationary employees are eligible to participate in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (Plan) administered by the California Public Employees' Retirement System (CalPERS.) The Plan consists of individual rate plans (benefit tiers) within a safety risk pool (police and fire) and a miscellaneous risk pool (all other). Plan assets may be used to pay benefits for any employer rate plan of the safety and miscellaneous pools. Accordingly, rate plans within the safety or miscellaneous pools are not separate plans under GASB Statement No. 68. Individual employers may sponsor more than one rate plan in the miscellaneous or safety risk pools. The District sponsors two miscellaneous rate plans. Benefit provisions under the Plan are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plan regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

B. Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members who must be public employees, and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 55 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each plan are applied as specified by the Public Employee's Retirement Law.

The rate plans' provisions and benefits in effect at June 30, 2022 and 2021 are summarized as follows:

	Miscellaneous - Classic	Miscellaneous - PEPR
Hire Date	Prior to January 1, 2013	On or after January 1, 2013
Benefit vesting schedule	5 years service	5 years service
Benefit payment	Monthly for life	Monthly for life
Retirement age	55	62
Monthly benefits, as a % of annual salary	2.00%	2.00%
Required employee contribution rates	6.000%	6.750%
Required employer contribution rates (2022)	11.250%	7.590%
Required unfunded liability payment (2022)	\$0	\$0
Required employer contribution rates (2021)	11.392%	7.732%
Required unfunded liability payment (2021)	\$88,118	\$2,781

7. RETIREMENT BENEFITS, Continued

C. Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and are effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

The District's contributions to the Plan for the measurement periods ended June 30, 2021 and 2020 were \$1,965,002 and \$388,976, respectively.

As of June 30, 2022, the District reported a net pension asset for its proportionate share of the net pensions liability of the Plan of \$1,608,503 and as of June 30, 2021, the District reported a net pension liability for its proportionate share of the net pension liability of the Plan of \$1,668,811, respectively.

The District's net pension asset for the Plan is measured as the proportionate share of the total net pension liability of the Plan. The net pension liability of the Plan for the fiscal year 2022 is measured as of June 30, 2021, and the total pension liability for the Plan used to calculate the net pension liability was determined by actuarial valuations as of June 30, 2020, rolled forward to June 30, 2021. The net pension liability of the Plan for the fiscal year 2021 is measured as of June 30, 2020, and the total pension liability for the Plan used to calculate the net pension liability was determined by actuarial valuations as of June 30, 2019 rolled forward to June 30, 2020 using standard update procedures. The District's proportionate share of the net pension liability was based on the District's plan liability and asset-related information where available, and proportional allocations of plan amounts as of the valuation date where not available.

D. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

The District's proportionate share of the net pension liability for the plan as of the measurement date of June 30, 2021, 2020 and 2019 were as follows:

Proportion - June 30, 2020	0.015340%	Proportion - June 30, 2019	0.015100%
Proportion - June 30, 2021	<u>-0.029740%</u>	Proportion - June 30, 2020	<u>0.015340%</u>
Change - Increase (Decrease)	-0.045080%	Change - Increase (Decrease)	0.000240%

7. RETIREMENT BENEFITS, Continued

E. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions, Continued

For the year ended June 30, 2022, the District recognized pension income of \$2,579,165 and for the year ended June 30, 2021, the District recognized pension expense of \$559,490, respectively. At June 30, 2022 and 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2022		2021	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 245,378	\$ -	\$ 1,965,002	\$ -
Changes in employer's proportion	18,405	864,020	30,429	1,975
Differences between the employer's contribution and the employer's proportionate share of contributions	1,119,223	-	78,393	-
Changes of assumptions	-	-	-	11,904
Differences between expected and actual experiences	-	180,381	85,999	-
Net differences between projected and actual earnings on plan investments	1,404,143	-	49,575	-
Total	\$ 2,787,149	\$ 1,044,401	\$ 2,209,398	\$ 13,879

\$245,378 and \$1,965,002 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the years ending June 30, 2023 and 2022, respectively. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Year Ending June 30:	2022	2021
2022	-	74,807
2023	371,030	80,518
2024	370,613	51,417
2025	367,696	23,778
2026	388,031	-

D. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions, Continued

Actuarial Assumptions – The total pension liabilities in the June 30, 2020 and 2019 actuarial valuations were determined using the following actuarial assumptions:

	2022	2021
Valuation Date	June 30, 2020	June 30, 2019
Measurement Date	June 30, 2021	June 30, 2020
Actuarial Cost Method	Entry-Age Normal Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:		
Discount Rate	7.15%	7.15%
Inflation	2.50%	2.50%
Projected Salary Increase	Varies by entry age and service	Varies by entry age and service
Investment Rate of Return ⁽¹⁾	7.15%	7.15%
Mortality	Derived by CalPERS membership data for all funds	Derived by CalPERS membership data for all funds

(1) Net of pension plan investment expenses, including inflation

The underlying mortality assumptions and all other actuarial assumptions used in the June 30, 2020 and 2019 valuations were based on the results of the December 2017 experience study. Further details of the Experience Studies can be found on the CalPERS website.

Discount Rate – The discount rate used to measure the total pension liabilities was 7.15 percent for the Plan for the measurement date June 30, 2021 and 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at the statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability. A detailed report testing these projections can be obtained from the CalPERS website at www.calpers.ca.gov.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

7. RETIREMENT PLANS, Continued

D. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions, Continued

In determining the long-term expected rate of return, CalPERS considered both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

Asset Class (a)	2022			2021		
	New Strategic Allocation	Real Return Years 1 - 10(b)	Real Return Years 11+(c)	New Strategic Allocation	Real Return Years 1 - 10(b)	Real Return Years 11+(c)
Global Equity	50.00%	4.80%	5.98%	50.00%	4.80%	5.98%
Global Fixed Income	28.00%	1.00%	2.62%	28.00%	1.00%	2.62%
Inflation Sensitive	0.00%	0.77%	1.81%	0.00%	0.77%	1.81%
Private Equity	8.00%	6.30%	7.23%	8.00%	6.30%	7.23%
Real Estate	13.00%	3.75%	4.93%	13.00%	3.75%	4.93%
Liquidity	1.00%	0.00%	-0.92%	1.00%	0.00%	-0.92%
Total	100%			100%		

(a) Fixed income is included in Global Debt Securities, Liquidity is included in Short-term Investments, Inflation Assets are included in both Global Equity Securities and Global Debt Securities.

(b) An expected inflation of 2.0% used for this period.

(c) An expected inflation of 2.92% used for this period.

E. Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability for the Plan, calculated using the discount rate for the Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	2022	2021
1% Decrease	6.15%	6.15%
Net Pension Liability/(Asset)	\$ (222,524)	\$ 2,928,239

F. Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

G. Payable to the Pension Plan

At June 30, 2022 and 2021 the District reported a payable of \$0 and \$0 for outstanding amount of required contributions to the pension plan.

8. OTHER POSTEMPLOYMENT BENEFITS PLAN

A. Plan Description

The District has established an Other Postemployment Benefits plan (OPEB Plan) and participates in an agent multiple employer defined benefit retiree healthcare plan. CalPERS invests the plan's assets as part of the California Employer's Retiree Benefit Trust (CERBT). The OPEB Plan provides employees who retire directly from the District, at a minimum age of 55 and with a minimum of fifteen years of continuous service with the District, a lifetime cash subsidy for monthly medical, dental and vision insurance premiums for each eligible employee and spouse or registered domestic partner retiring within 120 days of separation from the District. Benefits from the District continue to the surviving spouses upon death of the retiree. Employees hired before October 28, 2009 had a one-time option to increase their years for eligibility from five to fifteen and have vision and dental coverage added to their post-retirement benefit.

B. Employees Covered

As of the June 30, 2021 actuarial valuation, the following current and former employees were covered by the benefit terms under the OPEB Plan:

Active employees	29
Inactive employees or beneficiaries currently receiving benefits	<u>6</u>
Total	35

C. Contributions

The OPEB Plan and its contribution requirements are established by and may be amended by the District. The annual contribution is based on the actuarially determined contribution. For the fiscal year ended June 30, 2022, the District's cash contributions were \$93,052 in pay-as-you-go premiums, payment to the trust of \$107,905 and the estimated implied subsidy was \$56,179 resulting in total payments of \$257,136. For the fiscal year ended June 30, 2021, the District's cash contributions were \$84,067 in pay-as-you-go premiums, payment to the trust of \$113,423 and the estimated implied subsidy was \$52,371 resulting in total payments of \$249,861.

D. Net OPEB Liability

The District's net OPEB liability as of June 30, 2022 was measured as of June 30, 2021 and the net OPEB liability as of June 30, 2021 was measured as of June 30, 2020. The total OPEB liability used to calculate the net OPEB liability for measurement date June 30, 2021 was determined by an actuarial valuation dated June 30, 2021 and the total OPEB liability used to calculate the net OPEB liability for measurement date June 30, 2020 was determined by an actuarial valuation dated June 30, 2019 based on the following actuarial methods and assumptions:

Actuarial Assumptions

<i>Valuation Date</i>	June 30, 2021	June 30, 2019
<i>Discount Rate</i>	6.00%	7.10%
<i>Inflation rate</i>	2.50%	2.50%
<i>Salary Increases</i>	3.00% per year	3.00% per year
<i>Investment Rate of Return</i>	6.00%	7.10%
<i>Mortality Rate⁽¹⁾</i>	MacLeod Watts Scale 2022 applied generationally from 2015	Derived using CalPERS Membership Data for all funds
<i>Pre-Retirement Turnover</i>	Derived using CalPERS Membership Data for all funds	Derived using CalPERS Membership Data for all funds

Notes: ⁽¹⁾ Mortality rates used in the June 30, 2019 valuation are those from the 2017 CalPERS experience study which may be accessed on the CalPERS website www.calpers.ca.gov under Forms and Publications.

Florin Resource Conservation District

8. OTHER POSTEMPLOYMENT BENEFITS PLAN, Continued

D. Net OPEB Liability, Continued

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class as of the June 30, 2021 and June 30, 2020 measurement dates are summarized in the following table:

<i>Investment Class</i>	<i>June 30, 2021</i>		<i>June 30, 2020</i>	
	Target Allocation	Long-Term Expected Real Rate of Return	Target Allocation	Long-Term Expected Real Rate of Return
<i>Global Equity</i>	59.00%	8.90%	57.00%	8.71%
<i>Fixed Income</i>	25.00%	5.54%	27.00%	5.40%
<i>Treasury Inflation-Protected Securities</i>	5.00%	4.38%	5.00%	5.25%
<i>Commodities</i>	3.00%	5.79%	3.00%	7.95%
<i>Real Estate Investment Trusts</i>	8.00%	7.92%	8.00%	10.88%
TOTAL	100.00%		100.00%	

E. Discount Rate

The discount rate used to measure the total OPEB liability as of June 30, 2021 was 6.00 percent and the discount rate used to measure the total OPEB liability as of June 30, 2020 was 7.10 percent. Both are based on the CERBT Strategy 1 investment policy. The discount rate was lowered from 7.10 percent to 6.00 percent to anticipate the expected decrease in trust rate return as part of CalPERS Affiliate Funds Strategic Asset Allocation program. The projection of cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

G. Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2021 and 2020:

	2021	2020
1% Decrease	5.00%	6.10%
Net OPEB Liability	\$ 1,300,301	\$ 1,329,798
Current Discount Rate	6.00%	7.10%
Net OPEB Liability	\$ 549,216	\$ 741,126
1% Increase	7.00%	8.10%
Net OPEB Liability	\$ (54,706)	\$ 262,441

H. Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the net OPEB liability of the District if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2021 and 2020:

	2021	2020
1% Decrease	4.70%	5.50%
Net OPEB Liability	\$ (151,642)	\$ 181,049
Current Healthcare Cost Trend Rate	5.70%	6.50%
Net OPEB Liability	\$ 549,216	\$ 741,126
1% Increase	6.70%	7.50%
Net OPEB Liability	\$ 1,454,077	\$ 1,455,953

I. Recognition of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The recognition period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on OPEB plan investments	5 years
All other amounts	Expected average remaining service lifetime (EARSL)

Florin Resource Conservation District

Notes to Basic Financial Statements, Continued

8. OTHER POSTEMPLOYMENT BENEFITS PLAN, Continued

J. OPEB Expense and Deferred Outflows/(Inflows) of Resources Related to OPEB

For the fiscal years ended June 30, 2022 and 2021, the District recognized OPEB expense of \$205,578 and \$276,278. For the fiscal years ended June 30, 2022 and 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	2022		2021	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experiences in the measurement of Total OPEB Liability	\$ 1,971	\$ 333,352	\$ 2,214	\$ 155,877
Changed in assumptions	1,029,673	102,459	509,296	113,435
Net differences between projected and actual earnings on OPEB plan investments	-	414,964	86,298	-
Contributions to OPEB plan after measurement date	257,136	-	249,861	-
Total	\$ 1,288,780	\$ 850,775	\$ 847,669	\$ 269,312

The \$257,136 and \$249,861 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2021 and 2020 measurement dates will be recognized as a reduction of the net OPEB liability during the fiscal year ending June 30, 2023 and 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as expense as follows:

Year		
Ending June 30:	2022	2021
2022	\$ -	\$ 43,281
2023	(27,387)	55,337
2024	(25,919)	56,805
2025	(31,941)	50,783
2026	(52,749)	29,977
2027	69,242	-
Thereafter	249,623	92,313

9. COMMITMENTS AND CONTINGENCIES

The District is a party to various claims, legal actions and complaints that arise in the normal operation of business. Management and the District's legal counsel believe that there are no loss contingencies that would have a material adverse impact on the financial position of the District.

Florin Resource Conservation District

Notes to Basic Financial Statements, Continued

For the years ended June 30, 2022 and 2021

10. PENSION CREDIT

For the fiscal year ended June 30, 2022, the District recognized a pension credit of \$2,579,165 related to its participation in the CalPERS Public Agency Cost-Sharing Multiple-Employer Defined Benefit Plan (Plan).

The pension expense credit is a result of the difference in the allocation factors used for allocating activity within the Plan's fiduciary net position, mostly investment earnings that results in recognition of deferred outflows or inflows of resources (the difference between actual and projected investment earnings). A fiduciary net position allocation factor is used to allocate changes within the Plan fiduciary net position; however the related recognized deferral is allocated using a factor based on the District's proportionate net pension asset divided by the Plan's net pension liability. The difference between these proportioned amounts resulted in a significant credit that was recognized through pension expense.

The Plan's total pension liability, fiduciary net position and net pension liability are allocated to participating employers based on an allocation methodology developed by CalPERS based on each participating employer's proportionate share of the actuarial accrued liability, market value of assets and net pension liability. For more information on the allocation methodology, please refer to the CalPERS Schedule of Employer Allocations for Components of Net Pension Liability and Schedule of Collective Pension Amounts located at <https://www.calpers.ca.gov/page/employers/actuarial-resources/gasb>.

The recognition of the pension credit was netted against the District's salaries and benefits, resulting in a reported salaries and benefits for fiscal year end June 30, 2022 of \$782,729. The table below shows the effect of the recognition of the pension (credit)/expense on total salaries and benefits for the fiscal years ended June 30, 2022 and 2021:

	2022	2021
Total Salaries and Benefits	\$ 3,361,894	\$ 3,595,616
Pension (credit)/expense	(2,579,165)	559,490
Net Salaries and Benefits	\$ 782,729	\$ 4,155,106

11. PRIOR PERIOD ADJUSTMENT

The District recorded a prior period adjustment to recognize donated watermain and capital infrastructure, the associated accumulated depreciation on those assets and the write-off of certain watermain that have been replaced as part of the District's ongoing capital infrastructure replacement program as of June 30, 2021 as follows:

	Net Position as Previously Reported	Prior Period Adjustment	Net Position as Restated
Elk Grove Water District	\$ 50,359,869	\$ 10,456,786	\$ 60,816,655

Florin Resource Conservation District

Notes to Basic Financial Statements, Continued

For the years ended June 30, 2022 and 2021

12. SUBSEQUENT EVENT

CalPERS announced on July 20, 2022 a preliminary net return on investments for the 12-month period ended June 30, 2022 of -6.1%. This preliminary investment return as of June 30, 2022, along with CalPERS anticipated reduction of its discount rate from 7% to 6.8% may decrease the Plan's fiduciary net position and increase the Plan's total pension liability, respectively, resulting in a larger net pension liability for the Plan. As a result, the District's net pension asset may decrease significantly. More information can be obtained upon the issuance of the CalPERS ACFR for the fiscal year ending June 30, 2022.

STATISTICAL SECTION

Table of Contents

This part of the Florin Resource Conservation District (District) annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

CONTENTS

Financial Trends Data

These schedules contain financial trend information to help the reader assess the District's most significant own-source revenue, water sales.

❖ Fund Balances of Governmental Funds.....	59
❖ Changes in Fund Balances of Governmental Funds	59
❖ Net Position by Component	59
❖ Changes in Net Position.....	60
❖ Revenues by Source	61
❖ Operating Expenses	61

Revenue Capacity Data

These schedules present revenue capacity information to assess the District's ability to generate revenues. Water sales are the District's most significant revenue source.

❖ Elk Grove Water District Rate Analysis.....	62
❖ Water Sales by Type	64
❖ Sales - Metered vs. Flat Rate	64
❖ Metered Water Sold	65
❖ Metered Water Consumption – CCFs	65
❖ Historical Service Connections	65
❖ Ten Largest Commercial Customers – Current Year and Ten Years Ago	66

Debt Capacity Data

The District has outstanding Certificates of Participation relating to the purchase of the Water District and Capital Improvements.

❖ Ratio of Debt Service to Operating Expenses.....	66
❖ Ratios of Outstanding Debt by Type.....	67
❖ Bond Covenant Ratio Analysis	67
❖ Pledged-Revenue Coverage	68

Demographic and Economic Information

These schedules provide information on the demographic and economic environment in which the District conducts business, Elk Grove, California.

❖ City of Elk Grove Population	68
❖ City of Elk Grove Unemployment Rate	69
❖ City of Elk Grove Per Capita Income	69
❖ Area Demographic and Economic Statistical Information.....	69
❖ Operating Indicators for the Elk Grove Water District	70
❖ Capital Asset Statistics by Function.....	70

ELK GROVE WATER DISTRICT WATER SALES BY TYPE

■ Residential ■ Non-Residential ■ Irrigation ■ Fire Service

Sales by Type – This graph shows the percentages of the four components of water sales by the Elk Grove Water District.

Sales - Metered vs. Flat Rate

Metered vs. Flat Rate Sales – This chart shows the growth in meter sales primarily due to the conversion of accounts from flat rate to meters which was completed in December 2014.

Source: Finance Department

Metered Water Consumption - CCFs - This graph shows the consumption of metered water over the last 10 fiscal years. One CCF is equivalent to 748 gallons.

Historical Service Connections - The following table shows the service connections broken down by Metered and Flat Rate, Residential and Commercial.

Year End	Flat Rate	Metered	Total	Residential	Commercial
6/30/13	1,193	10,955	12,148	11,523	625
