YOUR PRE-ATTENDANCE PACKAGE

BROUGHT TO YOU BY:

90°degrees
GLOBAL

Hello and Congratulations,

You've made an excellent decision by registering for our upcoming Money & You Program, in Brisbane on May 25, 26, 27, 28, & 29, 2022.

We're committed to be all you are hoping for and something that greatly enhances your business, life, career, relationships or any outcome you are committed to achieving.

To make sure you get the absolute most out of the Program, like anything worthwhile in life, there is some basic preparation for you to do just as soon as possible.

That's why this Welcome Pack has been created. It contains important and time sensitive information for you that does need to be addressed prior to attending.

So, please take some time to review it in detail and please do get your forms back to us, that way we're all set on the day with all the paperwork done and dusted so you can focus on what matters – creating your ideal outcomes!

In the meantime, here is a message from the inspiring Dame Doria (DC) Cordova, Doria is the woman who has grown this work all over the world over the last 43 years, she is the owner and CEO of Excellerated Business Schools® & Money & You® Program globally, alongside Craig Doyle & Ryll Burgin-Doyle, the people behind 90Degrees Global who make this work available to you in Australia and New Zealand.

Money & You®

Dear Participant,

We would like to welcome and congratulate you for making the life-changing decision to join us at the flagship program of the Excellerated Business Schools® — the Money & You® Program.

You are joining an illustrious group of more than 165,000 people from approximately 85 countries who have participated in programs and engaged with us in a variety of ways over the last many years.

What you'll discover at Money & You is so powerful, you'll see why those 165,000 people have influenced literally millions and millions of people worldwide based on what they got out of Money & You® and, how you can do the same while reaping greater rewards for all of your efforts.

We believe that your attendance is not a coincidence; your desire to master your life and to create enormous possibilities for yourself has led you to Money & You®.

And we take that very seriously in our service to you.

You will find that the learning process you are embarking on is more about personal discovery than anything else ...

... Your program began the moment you made the decision to attend.

So between now and when you walk through our doors, please take some time to reflect on what you would like to change, improve or lift to that 'next level' in your life, business or wealth. Be sure to write down your desired outcomes for the weekend and come ready to go for it.

Further, you can take the next step and write down specifically what you intend to accomplish in a realistic time frame following the program – these could be hopes, dreams or goals you are already clear on.

In the meantime, focus on your highest priorities and getting organised before participating, that way you will realise some results before you even walk in the door.

Lastly, what we can promise after participating in Money & You is that, like our many, many Graduates in countries ranging from China to India, Malaysia, Singapore, the USA, Canada, Europe, and of course, Australia and New Zealand and many more - you will have more clarity, focus, access to success, results, passion and love in your life.

With great thanks and congratulations ...

We look forward to meeting you personally at your very special Program.

Warmly and with thanks,

Dame Doria (DC) Cordova,
CEO Excellerated Business
School & Money & You®

*All closing times are approximate only, to ensure Participants get the best possible Money & You experience and enormous value the schedule may vary at the Lead Instructor's discretion.

Please note: Don't be concerned about the hours! While it of course takes something, this is not a talk-fest or lecture series. Once you begin the Program you'll understand just how much we cover, how we deliver that content in a highly engaging and interactive way and the intense value possible for you. So yes, we acknowledge the days are big – sure – and fun! And as the expression goes 'time flies when you're having fun' and at Money & You that is absolutely true. During the 18+ interactive games, debriefs and activities you are playing full out, learning, discovering and gaining new insights and strategies that are very enlivening and inspiring for you, your business, career or life. You'll be fired up by what you find and you'll even, as many have expressed before you, be energized by the experience each day (vs worn out!).

My husband of almost 40 year and I had such a wonderful time at Money and You... Thank you so much for facilitating the experience for us - a brilliant job. THANK YOU.

I loved the leisurely pace as I'd expected it to be overwhelming, full on and very hype, hype. I didn't notice the long hours and late nights (and this is from someone who goes to bed at 8.30-9pm).

Over the weekend I had many 'aha' moments and gained a lot of insight into how I play the game of life. I came for two reasons:

- 1. To smash whatever belief it is that creates our repeating cycle with money.*
- 2. To deal with an ongoing issue with rejection.*

We have had unbelievable breakthroughs in both. We're also now working on designing our life. So much stuff, we can't wait to come back and drink in more.

Finally, we've also just created a brand new business, within days of doing the Program with great partners that will resolve all our financial matters and create wealth while making a real difference to people's lives. It was a direct outcome of participating – we frankly can't believe it and, it feels so incredibly right we couldn't be more thrilled. Thanks so much.

Toni P., Business Owner & New Business Owner!

What You Need to Bring to the Program

- Please dress for comfort and warmth. You must bring a warm jumper or jacket, as the temperature in the room will be kept very cool.
- Your business cards to network with other participants.
- Promotional materials of your business/organisation. A Network Table will be available for you to display your promotional materials (not actual products) for others to see.
- All other classroom materials will be provided for you including a Workbook, paper and pens.

Meals/Breaks

There are numerous short breaks held throughout the day, often pre and post Games or learning activities and in general. We break frequently specifically to keep your brain active and comfortable and able to take in as much as possible. These breaks are also a chance for you to check in BRIEFLY as needed at work or at home.

Water, tea and coffee is available throughout the program and fresh fruit is always on hand for you too. Morning tea and afternoon tea is also provided each day.

You can also purchase coffee, tea, drinks, snacks and meals at the hotel or in surrounding food outlets, cafes and restaurants.

During the event, you are responsible for your own meals for ALL lunches and dinner on Friday night.

We will encourage you to go to dinner with a group of people you don't know well or may have just met in the Program so you can make new connections and network. For Friday night's meal, there are many local restaurants very close by, or of course, there's always Uber Eats, Deliveroo, Menulog and so many more to assist on premises if you prefer to stay put at the venue!

We provide dinner and catering on Friday and Saturday. There is also an after-program celebration on the last day after 5pm if you like to stay and continue the connection and conversations. That's another reason why it's important to ensure you complete your Pre-Attendance Forms, and state if you have any food allergies or special requirements. Please note: if you have a vegetarian or gluten free diet these are catered for as a matter of course but we do need to know numbers so please do complete your form asap.

Also, we ask that if you are NOT vegetarian or gluten free you do not consume those options provided throughout the Program. There will be plenty for our meat eaters! The food on offer will be clearly signed for the various categories of diets we are catering for and we ask that you respect those options.

Lastly, while we will do our utmost in advising the caterers of any and all food requirements, however, to absolutely ensure you are comfortable during the Program, if you do have a limited diet, we absolutely suggest you bring additional items. For example, one group at a previous Money & You® brought their own Esky with supplies a plenty just in case! Further, if your diet is particularly limited, make sure you call us to clarify further as needed or be responsible for bringing your own additional food. Our support team is your best contact point for these matters, you can reach the team at support@90degreesglobal.com

Calls / Appointments During The Program

Over the many years we have learnt a lot about what works to ensure you get the best possible outcomes and what doesn't.

As a result, please DO NOT schedule *any appointments, meetings or telephone calls/conferences during this program.* Money & You® is a program that requires your presence in the room during class hours so that you can realise what you came for.

Also, at times, you will be participating in groups and various incredible experiential 'games' and as such it is critical you are in the room at all times during sessions. We will be requesting that you do not leave the room outside of scheduled breaks – that way you will maximize your participation and value.

All that said, you can rest assured, there will be frequent breaks. During these breaks you can easily be in communication with your work, family, team or anyone required who is not in the program with you.

To reduce distractions, it is also a friendly suggestion that you set your email auto-responder to something like:

Hi there,

I am participating in a leadership and development program from today - Thursday evening throughout the weekend- and will not readily be checking emails until Monday and Tuesday on my return. With Thanks.

Further, this is a course that encourages networking and participation with others in the program and this will accelerate your ability to get more results during and after the Program, as well as expand your network and connections with like-minded people!

Covid-19 Update

Like many people, we have been tracking information and recommendations regarding Covid-19 since the start of the pandemic.

You will also see our Voluntary Release Form in the Agreements that we require you to sign and return. Further, to ensure everybody's safety and well-being this will be revisited on the day you arrive as well.

In our view, there's no giving up, it's onward and upward in life, in our businesses, our communities and to you personally benefiting from the huge opportunity that is your upcoming Money & You.

Global Excellerated Business School for Entrepreneurs

www.globalexcelleratedbusinessschool.com

And finally, the best of the best the – ‘Global Excellerated Business School for Entrepreneurs’ – is the pinnacle experience available to Money & You Graduates (and not yet Graduates). An 8-day live in immersion program held each year in exotic locations like Cancun, Mexico, Phuket Thailand, the Business School is incredible.

Once again, experiential learning takes place where there are two major games played for the entire 8 days. You will leave with the largest vision for yourself and your life possible AND a documented plan on how to execute that successfully on your return home.

During the program we review the ‘Excellerated Business Success Model’, which you will begin to know at Money & You, in incredible depth – so much so no stone is left unturned in how you operate your enterprise, or in how you intend to do so if you are in start-up mode.

Further, at each Business School we explore the next wave of entrepreneurship and business, specifically we look at what is coming in the next 5, 10, 20 or 30 years and what it will mean to all of our businesses, lives and endeavours. We review in detail, critical new entrepreneurial markets and arenas such as renewables, technology (e.g., robotics and AI) as well as contribution or impact opportunities where we believe the nexus of human ingenuity, entrepreneurship and technology can solve for humanities greatest challenges.

Business School gives you the opportunity to connect, work and network with Billionaires, MultiMillionaires, Master Instructors, Speakers and Subject Matter Experts as well as your fellow committed entrepreneurs and leaders who are also Participants.

This year seats are strictly limited due the venue. Just 75 leaders and entrepreneurs from all over the planet are invited to attend as Participants. It is an incredible event, a truly unique environment and exploration and once in a lifetime opportunity.

To give you a couple of examples of what's possible from attending Business School, here's a couple of comments from Business School Graduates for you sharing their experiences and results:

"When I went to Business School in Hawaii in 1994 I was a freelance advertising copywriter. While I was there I mapped out the plan to build and sell my own advertising agency. I came back to Wellington, New Zealand and founded Red Rocks Advertising. It was started with nothing - no clients and no staff - and when I sold to the Ogilvy Group 9 years later we were billing in excess of \$15 million, were named Advertising Agency of the Year, won numerous awards for our work and had an enviable list of blue chip clients. Right from the start - thanks to Business School - I was clear I wanted to create something very different to the ego driven industry that existed at the time. The business was sold for millions and I became financially independent.

My next business Pet Angels took a cottage industry dog walking and cat feeding concept and used technology to scale it with a sophisticated online booking system. My business partner and I grew this to a nationwide business with 150 employees across the country and sold to a competitor.

I now spend my time helping other business owners build scalable and successful businesses - with a focus on businesses with a vision and passion for making a real difference in the world. I credit that Business School in Hawaii completely for my success and approach to business - which has always been about focusing on making a difference first and making money second. I've also written an award winning book called Liber8 Your Business (with endorsement from Robert Kiyosaki and Michael Gerber).

Of course, Life has had its ups and downs ... but I carry that Business School with me in many ways - both in business and personally."

Laura Humphreys, Entrepreneur

"Two years from the day I finished Business School I built a \$30M business from scratch. Business School is incredible and what I discovered serves me day in and day out."

Andrew Barron, Entrepreneur

"When I attended Business School in 1992 I was a third generation single Mother in poverty. I borrowed the money to attend and set the biggest vision I could for my life while I was there. I came back with a plan and started my business from my bedroom. Within 7 years I had built a \$190M enterprise and sold that successfully ..."
