

COMMUNITY ENGAGEMENT AT FOODJA

Foodja is a purpose-driven company with a commitment to give back to the communities in which we operate.

At Foodja we believe that everyone should have access to nutritious food and reliable shelter, which is why we support organizations that share those same values.

Through our support for the following two organizations, we're able to maximize our reach and impact our communities in ways that our employees and customers can be proud of.

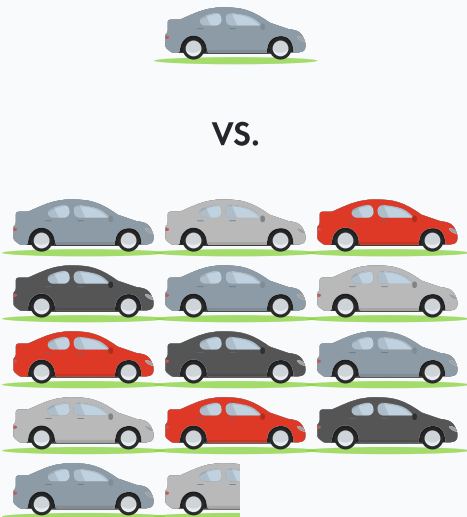

Foodja Volunteer Day
at Second Harvest Food Bank

Second Harvest Food Bank is committed to ending hunger in Orange County. Each year, Second Harvest distributes more than 50 million pounds of food to a network of partners who help feed those in need. By supporting Second Harvest, we're able to get food directly to children, seniors, veterans, and the working poor who experience food insecurity in Orange County.

Foodja also proudly supports Habitat for Humanity. Through their vision of creating stability for families in need of affordable housing, we're investing directly in our community. Furthermore, the stable households they build are foundational to child development and growth and can impact our community for generations to come.

SUSTAINABILITY AT FOODJA

The proliferation of on-demand delivery platforms has resulted in an increase in the number of single item deliveries. More individual deliveries mean more cars driving more miles, which exhausts natural resources and pollutes the environment.

Foodja aims to fix this problem with a platform that is built to aggregate orders, thereby eliminating unnecessary miles. Our proprietary algorithm selects the most popular local restaurants then aggregates individual, personalized meals for a single delivery.

As a result we are able to aggregate an average of 13.6 individual meals per delivery, thereby reducing the number of miles driven to deliver a meal by over 92%!
