Santa Clara Valley Water District
Joint Water Resources Committee
with Cities of Gilroy and Morgan Hill

South County Regional Wastewater Authority
1500 Southside Drive
Gilroy, CA 95020

This meeting is in-person only.

REGULAR MEETING
AGENDA

Wednesday, June 5, 2024
8:30 AM

District Mission: Provide Silicon Valley safe, clean water for a healthy life, environment and economy.

COMMITTEE MEMBERS:
Hon. John Varela, Director District 1, Chair
Hon. Marie Blankley, Mayor, Gilroy, Vice Chair
Hon. Richard Santos, Director District 3
Hon. Dion Bracco, Council Member, Gilroy
Hon. Yvonne Martinez Beltran, Council Member, Morgan Hill
Hon. Rene Spring, Council Member, Morgan Hill

All public records relating to an item on this agenda, which are not exempt from disclosure pursuant to the California Public Records Act, that are distributed to a majority of the legislative body will be available for public inspection at the Office of the Clerk of the Board at the Santa Clara Valley Water District Headquarters Building, 5700 Almaden Expressway, San Jose, CA 95118, at the same time that the public records are distributed or made available to the legislative body. Santa Clara Valley Water District will make reasonable efforts to accommodate persons with disabilities wishing to attend Board of Directors’ meeting. Please advise the Clerk of the Board Office of any special needs by calling (408) 265-2600

COMMITTEE LIAISON:
Kirsten Struve

COMMITTEE CLERK:
Nicole Merritt
Assistant Deputy Clerk II
408-630-3262
nmerritt@valleywater.org
www.valleywater.org

Note: The finalized Board Agenda, exception items and supplemental items will be posted prior to the meeting in accordance with the Brown Act.
1. CALL TO ORDER:

1.1. Roll Call.

2. TIME OPEN FOR PUBLIC COMMENT ON ANY ITEM NOT ON THE AGENDA.

Notice to the public: Members of the public who wish to address the Board/Committee on any item not listed on the agenda may do so by filling out a Speaker Card and submitting it to the Clerk or using the “Raise Hand” tool located in the Zoom meeting application to identify yourself to speak. Speakers will be acknowledged by the Board/Committee Chair in the order requests are received and granted speaking access to address the Board/Committee. Speakers’ comments should be limited to three minutes or as set by the Chair. The law does not permit Board/Committee action on, or extended discussion of, any item not on the agenda except under special circumstances. If Board/Committee action is requested, the matter may be placed on a future agenda. All comments that require a response will be referred to staff for a reply in writing. The Board/Committee may take action on any item of business appearing on the posted agenda.

3. APPROVAL OF MINUTES:

3.1. Approval of April 3, 2024 Joint Water Resources Committee Meeting Minutes.

    Recommendation: Approve the minutes.
    Manager: Candice Kwok-Smith, 408-630-3193
    Attachments: Attachment 1: 040324 JWRC Minutes
    Est. Staff Time: 5 Minutes

4. REGULAR AGENDA:
4.1. Receive South County Water Reuse Collaboration and Implementation Update and Provide Feedback.  
Recommendation: Receive an update and provide feedback on South County water reuse collaboration and implementation.  
Manager: Kirsten Struve, 408-630-3138  
Est. Staff Time: 5 Minutes  

4.2. Receive Anderson Dam Seismic Retrofit Project Update.  
Recommendation: Receive an update and information on the Anderson Dam Seismic Retrofit Project.  
Manager: Ryan McCarter, 408-630-2983  
Attachments: Attachment 1: PowerPoint  
Est. Staff Time: 30 Minutes  

4.3. Review and Discuss the Joint Water Resources Committee 2024 Work Plan, and Confirm the Next Meeting Date.  
Recommendation:  
A. Review and discuss the Joint Water Resources Committee 2024 Work Plan; and  
B. Confirm the next meeting date.  
Manager: Candice Kwok-Smith, 408-630-3193  
Attachments: Attachment 1: 2024 JWRC Work Plan  
Est. Staff Time: 5 Minutes  

5. CLERK REVIEW AND CLARIFICATION OF COMMITTEE REQUESTS.  
This is an opportunity for the Clerk to review and obtain clarification on any formally moved, seconded, and approved requests and recommendations made by the Committee during the meeting.  

6. ADJOURN:  
6.1. Adjourn to Regular Meeting at 8:30 a.m. on October 2, 2024.
THIS PAGE INTENTIONALLY LEFT BLANK
COMMITTEE AGENDA MEMORANDUM
Joint WRC with Cities of Gilroy/Morgan Hill/SCRWA

Government Code § 84308 Applies: Yes ☐  No ☒
(If “YES” Complete Attachment A - Gov. Code § 84308)

SUBJECT:
Approval of April 3, 2024 Joint Water Resources Committee Meeting Minutes.

RECOMMENDATION:
Approve the minutes.

SUMMARY:
In accordance with the Ralph M. Brown Act, a summary of Committee discussions, and details of all actions taken by the Committee, during all open and public Committee meetings, is transcribed and submitted to the Committee for review and approval.

Upon Committee approval, minutes transcripts are finalized and entered into the District’s historical record archives and serve as historical record of the Committee’s meeting.

ENVIRONMENTAL JUSTICE AND EQUITY IMPACT:
The approval of minutes is not subject to environmental justice analysis.

ATTACHMENTS:
Attachment 1: 040324 JWRC Minutes

UNCLASSIFIED MANAGER:
Candice Kwok-Smith, 408-630-3193
1. CALL TO ORDER

A regular meeting of the Joint Water Resources Committee (City of Gilroy, City of Morgan Hill, and Valley Water) (Committee) was called to order at 8:30 a.m. at the South County Regional Wastewater Authority (SCRWA), 1500 Southside Drive, Gilroy, CA 95020.

1.1 ROLL CALL

Committee Members in attendance were: City of Gilroy Mayor and Vice Chairperson Marie Blankley and City of Gilroy Councilmember Dion Bracco; City of Morgan Hill Councilmembers Yvonne Martinez Beltran and Rene Spring; Valley Water District 3 Director Richard Santos and Valley Water District 1 Director John L. Varela, Chairperson presiding, constituting a quorum of the Committee.

Valley Water staff in attendance: Hossein Ashktorab, Walter Gonzalez, Susana Inda, Nicole Merritt, Carmen Narayanan, Kirsten Struve, and Dave Tucker.

SCRWA, City of Gilroy, and City of Morgan Hill staff in attendance: SCRWA Environmental Programs Manager Saeid Vaziry, City of Gilroy Utilities Director Heath McMahon, and City of Morgan Hill Public Services Director Chris Ghione.

Public in Attendance was: Doug Muirhead.

2. TIME OPEN FOR PUBLIC COMMENT ON ANY ITEM NOT ON THE AGENDA.

Chairperson Varela declared time open for public comment on any item not on the agenda. There was no one present who wished to speak.

2.1. Election of 2024 Committee Chairperson and Vice-Chairperson.

Recommendation: Election of 2024 Committee Chairperson and Vice-Chairperson.

Public Comment:
None.
It was moved by Director Santos and seconded by Councilmember Spring and unanimously carried that Chairperson Varela remain Chairperson and Vice Chairperson Blankley remain Vice Chairperson.

3. APPROVAL OF MINUTES:

3.1. Approval of January 3, 2024 Joint Water Resources Committee Meeting Minutes.

Recommendation: Approve the minutes.

The Committee considered the attached minutes of the January 3, 2024 Committee meeting.

Public Comments:
None.

It was moved by Director Santos and seconded by Councilmember Spring and unanimously carried that the minutes be approved.

4. REGULAR AGENDA:

4.1. Receive South County Water Reuse Collaboration and Implementation Update and Provide Feedback.

Recommendation: Receive an update and provide feedback on the South County water reuse collaboration and implementation.

Heath McMahon was introduced to the Committee.

Chris Ghione and Dave Tucker reviewed the information on this item per the attached Committee agenda memo, and the corresponding presentation materials contained in Attachment 1 were reviewed as follows: Chris Ghione reviewed Slides 1 through 6 and Dave Tucker reviewed Slides 7 through 9.

Chris Ghione, Dave Tucker, and Kirsten Struve were available to answer questions.

Public Comments:
Doug Muirhead expressed support for staff's presentation, but noted concern over the City of Gilroy and South County Regional Wastewater Authority (SCRWA) being the South County Master Plan's focus and not including enough opportunities for the City of Morgan Hill, and disappointment in the lack of sense of urgency to ensure future water for South County against potential droughts.

The Committee received the information, took no formal action, and noted the following:

- The Committee confirmed that operating costs for each of the Morgan Hill water reuse options are being reviewed conceptionally and options are currently at the planning level.
- The Committee reconfirmed that SCRWA is using all the recycled water during summer peak times.
• The Committee noted costs will be the main issue with moving forward on the reuse options in addition to the limited available wastewater, and the importance of the joint partnerships to collaborate on federal and state funding.
• The Committee noted staff’s interest in working towards narrowing down to a joint preferred reuse option to expedite progress.
• The Committee noted interest in obtaining further information regarding local potential water resources and smaller scale reuse options that focus on individual homes and businesses.
• The Committee noted staff are reviewing various potential scenarios and resources under the Water Supply Master Plan to ensure water for South County, confirmed concern over time delays, and requested staff to provide further details on the status of the near-term projects at a future meeting.
• The Committee noted interest in a representative from agriculture attending a future meeting to discuss their water needs.
• The Committee confirmed the South County Master Plan identified as Attachment 2 would be reviewed by staff to ensure all dates and figures match accordingly and will return for Committee review on a future agenda.
• The Committee confirmed the major capital projects in the City of Morgan Hill, the increase of imported water costs, and confirmed that the South County Master Plan identified as Attachment 2 will not just pertain to the recycled water supply that comes from SCRWA.

4.2. Receive Information on Valley Water’s Proposed Fiscal Year (FY) 2024-2025 Groundwater Production Charges and Provide Feedback.

Recommendation: Receive information on Valley Water’s proposed FY 2024-2025 groundwater production charges and provide feedback.

Carmen Narayanan reviewed the information on this item per the attached Committee agenda memo and per the information contained in Attachment 1.

Carmen Narayanan and Kirsten Struve were available to answer questions.

Public Comments:
None.

The Committee received the information, took no formal action, and noted the following:

• The Committee noted the groundwater production charges for South County were on the lower end of the scale versus other local retail agencies identified on page 19 of Attachment 1.
• The Committee confirmed the Water Supply Master Plan 2050 looks at future population growth, climate change, droughts, and how much water will be needed and is related to the South County Master Plan through the recycled water strategies.
• The Committee confirmed that estimated costs for capital projects were included in the projected rates identified on page 18 of Attachment 1.
• The Committee confirmed that Anderson Dam, Coyote Dam, and Pacheco Reservoir are not being paid for only by the South County zones and charges are based upon benefit received for water used.
Chairperson Varela invited the Committee to attend an upcoming future Agricultural Water Advisory Committee meeting.

4.3. Review and Accept the Joint Water Resources Committee 2024 Proposed Work Plan, and Confirm the Next Meeting Date.

Recommendation: A. Review and accept the Joint Water Resources Committee 2024 Proposed Work Plan; and
B. Confirm the next meeting date.

The Committee considered this Item without a staff presentation.

Public Comments:
None.

The Committee received the information, accepted the 2024 JWRC Work Plan by consensus without official action and confirmed the next meeting date of June 5, 2024.

5. CLERK REVIEW AND CLARIFICATION OF COMMITTEE REQUESTS.
This is an opportunity for the Clerk to review and obtain clarification on any formally moved, seconded, and approved requests and recommendations made by the Committee during the meeting.

Nicole Merritt confirmed the Committee re-elected Director Varela as the 2024 Chairperson and Gilroy Mayor Blankley as the 2024 Vice Chairperson under Item 2.1; noted and provided feedback requesting re-review of figures/dates on the South County Master Plan and details on near-term projects, and a representative for agriculture present at a future meeting under Item 4.1; noted and provided feedback under Item 4.2; and accepted the JWRC Work Plan and confirmed upcoming meeting date under Item 4.3.

6. ADJOURN:

6.1. Adjourn to Regular Meeting at 8:30 a.m. on June 5, 2024.

Chairperson Varela adjourned the meeting at 9:59 a.m. to the regular meeting scheduled at 8:30 a.m. on June 5, 2024.

Nicole Merritt
Approved: Assistant Deputy Clerk II
COMMITTEE AGENDA MEMORANDUM
Joint WRC with Cities of Gilroy/Morgan Hill/SCRWA

Government Code § 84308 Applies:  Yes ☒  No ☐
(If “YES” Complete Attachment A - Gov. Code § 84308)

SUBJECT:
Receive South County Water Reuse Collaboration and Implementation Update and Provide Feedback.

RECOMMENDATION:
Receive an update and provide feedback on South County water reuse collaboration and implementation.

SUMMARY:
Since 1999, the Santa Clara Valley Water District (Valley Water), the City of Gilroy, and the City of Morgan Hill have collaborated to enhance and expand the use of non-potable water recycling in South Santa Clara County (South County). In 2017, the Joint Water Resources Committee (JWRC) was established by the Valley Water Board of Directors to advance water resource interests in South County, which includes identifying the future demand for purified and recycled water in South County and the funding sources to implement South County recycled water master plans. In 2021, the JWRC formed a staff level Technical Working Group (TWG) to discuss and evaluate options to advance water reuse and purified water production and distribution in South County. The JWRC has most recently received informational updates on the TWG’s activities in January and April of 2024.

Master Planning Update
In January 2024, the TWG presented the master planning history of water reuse in South County: (1) the South County Recycled Water Master Plan (2004 Master Plan) presented capital projects to improve the recycled water system’s reliability and to expand the use in South County, (2) the 2015 South County Recycled Water Master Plan Update discussed the continued expansion of water recycling in South County and evaluated the feasibility of emerging issues including indirect potable reuse (IPR) and direct potable reuse (DPR), and (3) the 2024 South County Recycled Water Master Plan Update introduced the priorities for future system expansion and upgrades and the opportunities and challenges for water reuse in Morgan Hill. In April 2024, the TWG further discussed comments and recommendations to finalize the 2024 master planning report. Comments from the JWRC have been incorporated and today’s update will include a discussion of final modifications to the 2024
report and presenting the JWRC with a copy of the final report.

**Feasibility Study Update**

The TWG will discuss the status of our United States Bureau of Reclamation (USBR) planning grant to develop a South County Recycled Water System Feasibility Study (FS). This planning process will expand the analysis of future opportunities for purified and recycled water reuse in South County and present a revised water reuse strategy for the coming decade. Staff have worked with USBR staff in Sacramento to develop the funding agreement and have initiated the procurement process for consultant services to support the feasibility planning process administratively and technically. The FS will subsequently support grant funding assistance for future capital projects under the Title XVI grant program.

**ENVIRONMENTAL JUSTICE AND EQUITY IMPACT:**

There are no environmental justice and equity impacts associated with this agenda item. This action is unlikely to or will not result in adverse impacts and is not associated with an equity opportunity.

**ATTACHMENTS:**

None.

**UNCLASSIFIED MANAGER:**

Kirsten Struve, 408-630-3138
SUBJECT: Receive Anderson Dam Seismic Retrofit Project Update.

RECOMMENDATION: Receive an update and information on the Anderson Dam Seismic Retrofit Project.

SUMMARY:

Background
The Anderson Dam Seismic Retrofit Project (ADSRP), Project No. 91864005, will correct dam seismic deficiencies and otherwise meet all current Federal Energy Regulatory Commission (FERC) and California Department of Water Resources, Division of Safety of Dams (DSOD) dam safety design standards. The full reservoir capacity will be restored upon completion of the Project.

Throughout 2019 to early 2020, project staff and consultants had been progressing with preparation of 90% design plans and specifications and supporting environmental and permitting documents. On February 20, 2020, the Santa Clara Valley Water District (Valley Water) received a letter order from FERC to immediately implement ADSRP-related interim risk reduction measures.

Valley Water is undertaking the Anderson Dam Federal Energy Regulatory Commission Order Compliance Project (FOCP) as a result of the February 20, 2020, directive from FERC to implement interim risk reduction measures at Anderson Dam. The construction improvements necessary to complete the FOCP broad categories of proposed risk reduction measures have been grouped into five construction sub-projects. In addition, there are several other non-construction measures which are being undertaken as part of the FOCP.

Anderson Dam Tunnel Project
The Anderson Dam Tunnel Project (ADTP), Project No. 91864006, is one of five Capital Construction Projects comprising the FOCP. The ADTP is currently being constructed and includes building a diversion system to augment the existing outlet, consisting of a new diversion tunnel, an outlet
structure, a micro-tunnel lake tap, and modifications to Coyote Creek just downstream of the base of the dam.

On April 27, 2021, Valley Water’s Board of Directors awarded the construction contract for the ADTP to the top ranked best value proposer, Flatiron West, Inc., in the sum of $161,140,321 and approved a contingency amount of $40,000,000 (25% of the contract price).

As of May 2024, substantial work has been completed at the ADTP. Over 1,400 feet of the 1,740 foot long tunnel has been excavated and supported. The remaining length will utilize micro-tunneling technology creating an 8-foot diameter bore that will tap into the reservoir. The Diversion Outlet Structure that dissipates the energy of heavy flows through the tunnel before water enters Coyote Creek has also made substantial progress. The reinforced concrete foundation and walls have been completed and crew are currently constructing formwork for the roof of the 35-foot tall structure.

ENVIRONMENTAL JUSTICE AND EQUITY IMPACT:
There are no environmental justice and equity impacts associated with this informational update on the Anderson Dam Seismic Retrofit Project.

COMMITTEE AGENDA MEMORANDUM
Joint WRC with Cities of Gilroy/Morgan Hill/SCRWA

Government Code § 84308 Applies: Yes ☐ No ☒
(If “YES” Complete Attachment A - Gov. Code § 84308)

SUBJECT: Review and Discuss the Joint Water Resources Committee 2024 Work Plan, and Confirm the Next Meeting Date.

RECOMMENDATION:
   A. Review and discuss the Joint Water Resources Committee 2024 Work Plan; and
   B. Confirm the next meeting date.

SUMMARY:
Work Plans are created and implemented by all Board Committees to increase Committee efficiency, provide increased public notice of intended Committee discussions, and enable improved follow-up by staff. Work Plans are dynamic documents managed by Committee Chairs and are subject to change. Committee Work Plans also serve to assist to prepare an Annual Committee Accomplishments Reports. Discussion of topics as stated in the Plan have been described based on information from the following sources: ● Items referred to the Committee by the Board; ● Items requested by the Committee to be brought back by staff; ● Items scheduled for presentation to the full Board of Directors; and ● Items identified by staff.

ENVIRONMENTAL JUSTICE AND EQUITY IMPACT:
The review of the JWRC Work Plan is not subject to environmental justice analysis.
