December 16, 2019

TO THE BOARD OF DIRECTORS OF THE SANTA CLARA VALLEY WATER DISTRICT:

It is our pleasure to submit the Comprehensive Annual Financial Report (CAFR) for the Santa Clara Valley Water District (District) for the fiscal year ended June 30, 2019. The Comprehensive Annual Financial Report is prepared in accordance with Generally Accepted Accounting Principles (GAAP) in the United States of America as promulgated by the Governmental Accounting Standards Board (GASB). Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various activities of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient, reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Maze and Associates, a firm of licensed certified public accountants. This is the first year of their audit, replacing the previous audit firm, Vavrinek, Trine, and Day, LLP. The purpose of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The audit included obtaining an understanding of the entity and its environment, including internal control, sufficient to assess the risks of material misstatement of the financial statements and to design the nature, timing, and extent of further audit procedures.

The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion on the District's financial statements for the fiscal year ended June 30, 2019. The opinion rendered concluded that the financial statements are fairly presented, in all material respects, in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District is part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements but also on the District's internal controls and

Letter of Transmittal (continued)

compliance over the administration of federal awards. The single audit review is applicable when Federal funded expenditures exceed \$750 thousand and is typically completed after the audit of the financial statements and will be issued separately for the Board's acceptance.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditor.

District Profile

The mission of the District is to provide Silicon Valley safe, clean water for a healthy life, environment, and economy.

The District traces its origins to the Santa Clara Valley Water Conservation District, approved by north county voters in 1929. Voters elsewhere in the County eventually formed similar agencies that later consolidated with the original District. Today's District represents a consolidation of four agencies. In 1954, the Central Santa Clara Valley Water Conservation District was annexed to the Santa Clara Valley Water Conservation District. With the 1968 merger of the Santa Clara Valley Water Conservation District and the Santa Clara County Flood Control and Water District, the agency adopted dual missions of providing water supply and flood protection. The South Santa Clara Valley Water Conservation District was renamed the Gavilan Water District in 1980, and upon south county voter approval, was annexed to the Santa Clara Valley Water District in 1987. The merger's catalyst was the belief that a coordinated operation of the County's water supply and flood control systems would result in optimum water resource management.

Throughout its history of consolidations, the District has maintained a relationship with Santa Clara County (County). In 1952, County Supervisors initiated the valley's first flood protection program; they later expanded their efforts to include water importation. In 1968, the District and County decided to merge their water functions, and the governing boards of both agencies agreed the County supervisors would have a role in reviewing and approving the water district's annual budget. On September 14, 2006 Assembly Bill 2435 was passed (effective January 1, 2007) which ended the County's oversight of the District's budget and other procedural holdovers from the 1968 merger.

The Santa Clara Valley Water District (District) operates as a State of California special district under the authority of the District Act (Stats. 1951, c.1405, p.3336, urgency, eff. July 10, 1951, as amended Stats. 1963, c.1941, p.3993, 1). The District is the primary water resources agency for Santa Clara County, California. It is the largest multi-purpose water supply, watershed stewardship, and flood management special district in California. It acts not only as the County's primary water wholesaler but also as its flood protection agency and is the steward for its streams and creeks, underground aquifers and district-built reservoirs.

The District Act governs the structure, function and operations of the District's Board of Directors (Board), which governs the District and directs the Chief Executive Officer. On October 11, 2009, Governor Arnold Schwarzenegger signed into law Assembly Bill 466 (AB466) to amend the District Act. AB466 replaced the former Board structure (five elected/two appointed at-large members) with one in which all seven members would be elected from new districts created through a formal redistricting process. A Redistricting Advisory Committee was formed to draw the District

Letter of Transmittal (continued)

boundaries. On May 14, 2010, the Board officially adopted a new map following testimony from the public, consideration of past testimony during Redistricting Advisory Committee meetings, and consideration of all communications and letters received from the public. A formal election was held for four of the seven board members on November 2, 2010. As required by state law, the District must redraw its boundaries to reflect 2010 Census results. On October 11, 2011, the Board adopted Resolution No. 11-63 selecting the Redistricting Plan, known as the Current Adjusted Map.

The District is the primary water resources agency for nearly two million residents of the County. It encompasses all of the county's approximately 1,300 square miles and serves the area's 15 cities and towns: Campbell, Cupertino, Gilroy, Los Altos, Los Altos Hills, Los Gatos, Milpitas, Monte Sereno, Morgan Hill, Mountain View, Palo Alto, San Jose, Santa Clara, Saratoga, and Sunnyvale. The District also serves the unincorporated areas of the County.

The District sells treated water to 8 water retail companies, cities and towns that service communities within the County via their own distribution systems. There are also private well owners in the County. This demand requires the District to operate and maintain a complex delivery and treatment system that includes 3 water treatment plants, an advanced water purification center, 10 local reservoirs and dams, a state-of-the-art water quality laboratory, dozens of groundwater recharge basins, 5 pump stations and 144 miles of pipelines. Water supplies include local surface water and groundwater, imported water, and recycled water. Water conservation is also an important part of the water supply mix because it offsets water demands.

To ensure an adequate and reliable supply of high-quality water, the District has partnered with cities and water retailers in the county to develop recycled water supplies. About 5% of the County's total water use currently consists of recycled water, limited primarily to landscaping and industrial uses. Recycled water use is expected to expand in coming years.

In 2010, the Board approved agreements with the City of San Jose to partner and build a facility to produce about eight million gallons per day of highly purified water. The District and the City of San Jose entered into a ground lease and property use agreement (the "Ground Lease") with respect to the City of San Jose owned site on which the Silicon Valley Advanced Water Purification Center (SVAWPC) is located. In addition, the District and the City of San Jose entered into an integration agreement (the "Integration Agreement") with respect to the operation of the SVAWPC. The District and the City of San Jose each have the annual option to terminate the Integration Agreement on or after June 30, 2020, in accordance with its terms. The Ground Lease provides that if the Integration Agreement is terminated, the Ground Lease will simultaneously terminate and upon such termination, the District would be required to surrender the facilities of the SVAWPC to the City of San Jose. The District and the City of San Jose have not had any formal negotiations with respect to such termination provisions.

The SVAWPC in North San Jose commenced full operation in March 2014. Currently, purified water produced by the Silicon Valley Advanced Water Purification Center is not used for potable (drinking) purposes, and is instead blended with existing recycled water to enhance its quality for non-potable purposes such as irrigation, cooling towers and industrial applications.

As the primary wholesale water supplier in the County, the District is dedicated to assuring a reliable supply of healthy and clean drinking water. The District provides stream stewardship that encompasses managing flood and storm waters within the County and protecting watersheds and riparian corridors, thereby providing for public safety, and the protection of property and the natural environment along creeks and rivers, and at the edge of the San Francisco Bay. The District strives to provide clean safe water in our creeks and bays; to provide, enhance, and restore creek and bay

Letter of Transmittal (continued)

ecosystems, and to promote additional open space, trails and parks along creeks and in the watersheds.

Factors Affecting Financial Condition

Local Economy

The County is located at the southern end of San Francisco Bay that measures approximately 1,312 square miles. The northwestern portion of the County is part of Silicon Valley.

Silicon Valley's economy continues to grow, but at a slower rate. For the second consecutive year, the rate of growth was slower than the previous year, but unemployment levels are so low that the region is effectively at full employment. Employment gains were largely in community infrastructure and services, and the technology industry. Much of the growth is driven by large, established companies where the same companies are acquiring smaller ones at a rapid pace, changing the face of innovation as fewer startup companies obtain early-stage funding. Despite the lower growth rate, Silicon Valley inventors continue to register patents at a remarkable rate, generating nearly half of all patents registered in the state and 13% of those across the country.

Eighty-one percent of new Silicon Valley jobs were created in Santa Clara County.⁽¹⁾ The largest share of job growth has been in Tier 1 (high-skill/high-wage, mostly tech industry) and Tier 3 (low-skill/low-wage, mostly community infrastructure and services) jobs, with a lower growth rate in the middle. Older Silicon Valley residents are also participating in the workforce at higher rates than a decade ago, with age 55+ residents remaining in the workforce longer.

Even with the slower job growth over the past year, the region's unemployment rate is at an 18-year low. The unemployment rate in Silicon Valley was 2.3% in November 2018, compared to 2.2% in San Francisco, 3.9% in California, and 3.5% in the United States overall.

Relative to the rest of the state and the nation as a whole, Silicon Valley continues to be a high-income, low-poverty region where income gains have outpaced inflation over the past several years. The share of Silicon Valley households with incomes above \$200,000 annually has grown and the number of households reaching total investable assets exceeding \$1 million is at the highest. However, income disparities persist and the income gap continues to widen and is reflected in the changing share of high-income households. While high-income households are able to provide for their basic needs and more, a large share of households cannot earn the wages needed to do the same.

Median home sale prices in Silicon Valley skyrocketed in 2018, reaching nearly \$1.2 million, and the share of potential first-time homebuyers that could afford a median-priced home declined. The Santa Clara County Assessor reported that in 2019, the net assessment roll for the County increased by 7.4%, from \$450 billion to \$483 billion.⁽²⁾ Although a large number of units have been built over the past two years, they have not made up for the lack of building over the prior decade. New residential building is predominantly for high-income residents, with only 8% of newly approved residential units affordable to those earning less than 80% of the area median income.

¹ 2019 Silicon Valley Index – Joint Venture Silicon Valley Network

² 2018-2019 Assessor's Annual Report, Office of County Assessor, County of Santa Clara

Letter of Transmittal (continued)

Housing affordability is a contributor to the rise in multigenerational households, multifamily households, and young adults living with their parent(s). Affordability, evictions, and other factors are also leading causes of homelessness within the region.

While the region's economy continues to grow at a slower rate, the pace of new development in Silicon Valley has remained brisk, measured by the total amount of new space completed and the staggering amount currently under construction. More new Silicon Valley commercial space has been constructed over the past four years than during the previous 13 years combined. There has also been a resurgence in hotel development since 2014, a positive indicator of the region's overall economic health and outlook on the future.

As of June 30, 2019, the statewide average snowpack storage remained healthy due to the wet winter and continued water use reduction by the community. In northern Santa Clara County, groundwater levels in many monitoring wells reached historic highs this past spring and the basin is essentially full. Local reservoirs were at 60% of total capacity, or 90% of restricted capacity (the State has placed operating restrictions on five of the District's ten dams due to seismic safety concerns), at 100,322 acre-feet. The District is currently researching a change in accounting methodology in which water inventory would be valued as an asset on the balance sheet for purposes of future comprehensive annual financial reports.

The Santa Clara Valley Water District Board of Directors continued its call for a 20% water reduction and a limit of three days per week for irrigation of ornamental landscape with potable water. From the beginning of the drought response initiated in 2014, the District has worked with water retailers, cities, and the County to maintain water conservation efforts and public outreach, and to implement other actions to reduce water use. Through these efforts, the District has achieved a 25% reduction in water use through June 2019 compared to 2013.⁽³⁾

Long-term Financial Planning

The District plans, manages and carries out work to meet policies established by its Board of Directors. Under the District's form of Policy Governance, these "Ends" policies describe the mission, outcomes or results to be achieved by District staff. Balancing the Ends policies are Executive Limitations, which set limits on staff activities in fulfilling the Ends. Alignment of plans and resources with the Ends policies helps the Board fulfill the critical responsibility of defining, balancing and prioritizing "what benefits, for what people, at what cost," and enhances District staff's accountability in using budgeted resources to accomplish those ends.

For fiscal year 2019 budget, the District funds activities that carry out its mission through the following three highest-level policies.⁴

- E2 - Reliable, clean water supply for current and future generations
- E3 - Healthy and safe environment for residents, businesses, and visitors, as well as for future generations
- E4 - Water resources stewardship to protect and enhance watersheds and natural resources and to improve the quality of life in Santa Clara County

³ Santa Clara Valley Water District – Water Tracker, August 2018

⁴ Santa Clara Valley Water District – FY2018-19 Operating and Capital Budget

Letter of Transmittal (continued)

The District's largest revenue source is water charges, acting as a wholesaler for numerous water supply retailers in Santa Clara County. Water revenues for fiscal year 2019 were \$227.7 million. For fiscal year 2019-20, the District Board adopted a 6.6% increase (average of \$2.93 per month per household) in the municipal and industrial groundwater production charge for the North County Zone W-2 (which is generally defined as the portion of the county north of Metcalf Road) and a 6.9% increase (average of \$1.07 per month) for the South County Zone W-5 (which is generally defined as the portion of the county south of Metcalf Road, including Coyote Valley), relative to fiscal year 2019. The revenue projection assumes water demand volume of 239,000 acre-feet.⁴

The Five-Year Capital Improvement Plan (CIP) includes a total of 67 capital projects with an estimated cost of over \$5.63 billion. The District has been and continues to be successful in leveraging funding for its capital projects through partnerships with federal, state, and local agencies. Of the \$5.63 billion total funding, \$1.22 billion is expected from the District's various partners, such as the U.S. Army Corps of Engineers (USACE), and \$4.41 billion from the District. Of the \$1.22 billion that is expected from the District's partners, \$743 million is advanced by the District and reimbursed later. This \$743 million is included in the CIP, and increases the District's total funding requirement from \$4.41 billion to \$5.16 billion to ensure that the District has adequate funding to advance the reimbursement.⁵ Obtaining timely permits from regulatory agencies continues to be a challenge in the effort to carry out the CIP.

In November 2012, the voters approved the Safe, Clean Water and Natural Flood Protection (Safe, Clean Water) special parcel tax to fund projects addressing the following community priorities:

- Ensuring safe reliable water for the future;
- Reducing toxins, hazards and contaminants in our waterways;
- Protecting water supply and local dams from the impacts of earthquakes and natural disasters;
- Restoring fish, bird, and wildlife habitat; and
- Providing flood protection to homes, businesses, schools, streets, and highways.

Safe, Clean Water builds on the success of the Clean, Safe Creeks and Natural Flood Protection (Clean, Safe Creeks) plan approved by the voters in 2000. Safe, Clean Water replaced the Clean, Safe Creeks measure in its entirety beginning July 1, 2013. The program is funded by a combination of revenues from the continuation of an annual special tax, reserves from unspent funds of the Clean, Safe Creeks plan, and state and federal funding. For fiscal year 2019-20, the budget includes \$45.5 million of tax revenue for this program.

Relevant Financial Policies

End of Year Balances

The District policies for end-of-year balance re-appropriations are as follows:

- Any remaining appropriation balances at the end of the fiscal year for capital projects are annually re-appropriated for continued use in those same projects in the following fiscal year. These amounts shall be consistent with the planned expenditure schedule identified in the 5-year CIP;

⁴ Santa Clara Valley Water District – FY2018-19 Operating and Capital Budget

⁵ Santa Clara Valley Water District – FY2020-24 Capital Improvement Program

Letter of Transmittal (continued)

- Any variances at the end of the current fiscal year in Operating and Capital Reserves and Contingent Liability Reserves from those estimated in the budget not otherwise re-appropriated above shall result in corresponding adjustments to the estimated reserve appropriations in accordance with District Reserve policy.

The District, through the Public Facilities Financing Corporation, also maintains a commercial paper program for funding capital projects. Commercial paper is used to provide interim financing during construction. Long-term debt, matching the useful life of the asset, is issued to refund the commercial paper from time to time as needed.

Budgetary Controls

The District maintains budgetary controls, the objectives of which are to ensure compliance with legal provisions, embodied in the annually appropriated budget approved by the Board. Activities of the governmental funds and proprietary funds are included in the annual appropriated budget. Additionally, as a management tool, project-length financial plans are included in the annual Capital Improvement Plan. The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level, further limited by two categories - the operating budget (consisting of total operations, operating projects, and debt service) and the capital budget (consisting of capital project expenditures). The District also maintains an encumbrance accounting system as one process to accomplishing budgetary control. Budget adjustments that increase or decrease revenue projections, appropriations or reserves of any fund require Board approval. Budget and actual comparisons are provided in this report for each fund for which an appropriated annual budget has been adopted. For governmental funds, this comparison is presented starting on pages 108 as part of required supplementary information and selected watershed activities starting on pages 116 as part of supplemental information. For proprietary funds, this comparison is presented starting on pages 120 and 126 as part of the combining and individual fund statements and schedules.

The guidelines used by the District in developing this formal budget process are those recommended by the National Advisory Council on State and Local Budgeting, and the Government Finance Officers Association (GFOA).

Reserve Requirements

The District's financial policies establish the levels at which reserves shall be maintained. District reserve policies address the need for both operating and capital reserves, and funding of contingency and future liabilities.

Letter of Transmittal (continued)

Major Initiatives

Highlights of activities and accomplishments for the fiscal year ended June 30, 2019 include the following:⁶

- ◆ On July 5, 2018, the U.S. Army Corps of Engineers (USACE) Headquarters released its Disaster Supplemental Funding announcement for USACE projects, and the District's South San Francisco Bay Shoreline Project (Shoreline) was awarded full federal funding in the amount of \$177,200,000. The Shoreline Project will safeguard hundreds of homes, schools, critical infrastructure and businesses along Santa Clara County's shoreline from the risk of tidal flooding. It will also create an opportunity to restore vital ecosystems for a variety of threatened and endangered species and enhance recreational opportunities. With the award of these funds, Shoreline is now cleared to move forward with construction.
- ◆ On July 24, 2018, the California Water Commission awarded the District \$484.55 million under Proposition 1, the full amount requested, for the Pacheco Reservoir Expansion Project. The commission also approved the District's request for early funding of \$24.2 million. This award will fund half of the total construction cost estimate of \$969 million (2015 cost estimates have since been adjusted to account for inflation and other factors) in the District's application. The District and project partners, San Benito County Water District and Pacheco Pass Water District, will also pursue federal funds. The remainder would be paid through local water rates over several decades, or by potential additional partners. The project would expand Pacheco Reservoir's storage capacity to provide for increased emergency water supplies, improved water quality, and ecosystems benefits throughout our region and the Sacramento-San Joaquin Delta.
- ◆ On September 6, 2018, the District was recognized as the "Healthiest Employer in the San Francisco Bay Area" by Healthiest Employers, LLC and Sequoia Consulting Group for the District's commitment to employee health and wellbeing. The competitive award placed the District first among companies with 500 to 1,999 employees. In addition, the District was also identified as one of the 100 Healthiest Workplaces in America, placing 55th.
- ◆ On September 15, 2018, the District, in partnership with the Creek Connections Action Group (CCAG), coordinated another successful cleanup event in Santa Clara County. From Palo Alto to Gilroy, 47 sites participated in the 34th annual Coastal Cleanup Day. A total of 1,931 volunteers cleaned 75 miles of creek and shoreline, removing approximately 56,808 pounds of trash and 8,542 pounds of recyclables.
- ◆ On September 22, 2018, Senate Bill 881, authored by Senator Bob Wieckowski (D-Fremont), was signed by Governor Jerry Brown, providing the District access to state flood protection funding. SB 881 adds the South San Francisco Bay Shoreline Project (Shoreline Project) to the list of flood control projects that are authorized to receive state flood control subvention reimbursements. The bill allows the District to receive repayment from the state for a portion of the project estimated to be \$4 million to \$7 million, to be determined as the project progresses. The project will be constructed with the U.S. Army Corps of Engineers.

⁶ Santa Clara Valley Water District Newsletters and Santa Clara Valley Water District CEO Bulletins

Letter of Transmittal (continued)

- ◆ On October 5, 2018, the District opened a grant application process to award up to \$100,000 for testing new and innovative water conservation program and technologies. The funding is part of the Safe, Clean Water and Natural Flood Protection Program parcel tax approved in 2012. The primary goal is to identify promising water savings devices and strategies that can assist the District in meeting its long-term goal of saving more than 32 billion gallons of water per year by 2030.
- ◆ On October 9, 2018, the District received the Engineering News-Record (ENR) California Water/Environment Best Project, Northern California Award for the Penitencia Delivery Main and Penitencia Force Main Seismic Retrofit Project. This project is the first of its kind in the United States to have ERDIP (Earthquake Resistant Ductile Iron Pipe), providing innovative approach to reliability at both the District's Penitencia Treatment Plant and Conveyance System. Judges reviewed more than 100 projects located throughout California and Hawaii. Projects were evaluated on the ability of the project team to overcome challenges, contribution to the industry and community, safety and construction and design quality.
- ◆ On October 10, 2018, the District joined hundreds of elected officials, water agencies, community leaders, educators, and businesses participating in the fourth commemoration of "Imagine a Day Without Water" event, which is a national day of education and advocacy about the value of water. This day of awareness, led by the Value of Water Campaign, includes hundreds of events and projects to relay the crucial need for investing in our nation's water infrastructure.
- ◆ On October 16, 2018, the District opened a grant application process to award up to \$200,000 in mini-grants. The funding is part of the Safe, Clean Water and Natural Flood Protection Program parcel tax. This mini-grants program is designed to provide seed funding to encourage broader and/or long-term community engagement in wildlife habitat restoration and watershed stewardship activities in Santa Clara County. Mini-grants will be awarded to restore wildlife habitats.
- ◆ On November 9, 2018, the District launched a new Water Ambassador pilot program (Pilot Program) that will be known as the "Water 101 Academy" to external residents. The intent of the Pilot Program is to recruit, train and deploy "ambassadors" who would serve as neighborhood liaisons/leaders in engaging with their communities about water issues and sharing information on available resources, opportunities, or any other pertinent issues. The ultimate goal of the program is the improvement of information dissemination and collection at a neighborhood level as well as greater knowledge and participation in District volunteer projects.
- ◆ On November 13, 2018, the District opened a grant application process to award up to \$571,000 in grant funding for projects related to developing access to trails and open space. An additional \$120,000 in grant funding is available for projects that support volunteer cleanup efforts, education and watershed stewardship activities. Both grant programs are part of the Safe, Clean Water and Natural Flood Protection Program parcel tax. The District expects to distribute nearly \$35 million in grants, partnerships and rebate programs during the 15-year life of the Safe, Clean Water Program.
- ◆ On December 13, 2018, the District Board approved maintenance and joint-use agreements to collaborate with the City of Palo Alto, Google, and Caltrans to support the construction of a pedestrian/bike bridge that will span over Highway 101 from south Palo Alto to the

Letter of Transmittal (continued)

Baylands. The bridge will provide a link for bike riders and pedestrians to access businesses and recreation trails on both sides of the highway.

- ◆ On February 13, 2019, the District hosted a celebration marking the reopening of Stevens Creek Trail in Mountain View. Following heavy storms in February 2017, a 140-foot portion of the Stevens Creek Bank eroded, threatening Stevens Creek Trail and the adjacent maintenance road. The trail was closed for emergency temporary repairs to prevent further damage to the creek bank and trail. The District completed permanent repairs in fall 2018.
- ◆ On April 13, 2019, there was a ribbon cutting ceremony to celebrate the completion of the Bay to Highway 101 Reach of the San Francisquito Creek Flood Protection Project. Improvements of this stretch of about one and a half miles of the creek constitute the necessary first step in an overall plan to provide more than 5,700 homes and businesses with creek flood protection. The project also provides improved access to re-opened trails.
- ◆ On June 7, 2019, the San Francisco Bay Restoration Authority awarded the District with \$57 million over five years from Measure AA, the San Francisco Bay Clean Water, Pollution Prevention and Habitat Restoration Measure. The money will help complete construction of the first phase of the South San Francisco Bay Shoreline Project.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Santa Clara Valley Water District for its comprehensive annual financial report for the fiscal year ended June 30, 2018. This was the 22nd consecutive year that the District has received this prestigious award. To be awarded a Certificate of Achievement, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this CAFR represents the culmination of months of concerted team effort by diverse District staff, including team members from Financial Planning and Management Services Division, Water Supply Division, Information Management Services Division, General Services Division, Human Resources Division, and Office of the District Counsel. Many team members demonstrated a high degree of personal dedication and determination in producing this exemplary document. In addition, special thanks to District staff in all groups for responding so positively to the requests for detailed information that accompanies each annual audit. The role of Maze and Associates is also acknowledged for their significant technical contribution and assistance.

Special thanks go to Gloria del Rosario, General Accounting Unit Manager; the following Accounting staff: Jaime Salandanan, Guy Canha, Fanny Chan, Leticia Rocha, Trisha Cheung, Christine Hernandez, Ofelia Hsieh and Gloria Chou; and Chenlei Yao of the Budget and Financial Planning Unit, for their talent and dedication in preparing this financial report.

Letter of Transmittal (continued)

Finally, we wish to express our sincere appreciation to the District's Board of Directors and management for providing policy direction and a firm foundation of support for the pursuit of excellence in all realms of professional endeavors.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Santa Clara Valley Water District
San Jose, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Santa Clara Valley Water District (District), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Management adopted the provisions of Governmental Accounting Standards Board Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, which became effective during the year ended June 30, 2019 as discussed in Note 7B to the financial statements. This Statement had no material effect on the financial statements. The emphasis of this matter does not constitute a modification to our opinions

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and other Required Supplementary Information as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The Introductory Section, Supplemental Information, and Statistical Section as listed in the Table of Contents are presented for purposes of additional analysis and are not required parts of the basic financial statements.

The Supplemental Information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplemental Information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Our discussion and analysis of the Santa Clara Valley Water District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2019. This information is presented in conjunction with the audited financial statements that follow this section.

Financial Highlights

- The net position of the District was \$2,420 million as of June 30, 2019. Of this amount, \$141.3 million (unrestricted, but committed and assigned net position) may be used to meet the District's ongoing obligations to citizens and creditors.
- The District's net position increased by \$146.3 million during the current fiscal year. The net position of the governmental activities increased by \$99.0 million and the net position of the business-type activity by \$47.3 million.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$343.4 million, an increase of \$10.8 million in comparison with the prior fiscal year fund balances of \$332.6 million.
- The fund balance for the general fund was \$14.1 million, an increase of \$4.5 million from the prior fiscal year. Committed and assigned fund balances were \$14.1 million or 100% of the total fund balance.
- The fund balances of the Watershed & Stream Stewardship and Safe, Clean Water & Natural Flood Protection funds were \$321.8 million, an increase of \$10.8 million from the prior fiscal year.

Overview of the Financial Statements

The financial statements presented herein include all the activities of the District and its component units using the integrated approach as prescribed by Generally Accepted Accounting Principles (GAAP).

Government-wide financial statements. The government-wide financial statements present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting.

The statement of net position presents information on all the District's assets, deferred outflow, liabilities, and deferred inflow, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but uncollected taxes and earned but unused vacation leave).

Management's Discussion and Analysis (continued)

Both the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activity*). The governmental activities of the District include general government, watershed management, and construction and debt service funding. The business-type activity includes the water utility operation fund.

The government-wide financial statements include not only the District itself (known as the primary government), but also a legally separate Santa Clara Valley Water District Public Facilities Financing Corporation (the Corporation) for which the District is financially accountable. Financial information for this blended component unit is reported as if it were part of the primary government because its sole purpose is to provide financing to the District under the debt issuance documents of the District. Additional information on this legally separate entity can be found in Note 1(b) in the notes to basic financial statements.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other special districts, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The funds of the District are segregated into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. The District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's projects.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. A reconciliation of both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and change in fund balances to the government-wide statements are provided to facilitate this comparison between *governmental funds* and *governmental activities*.

Proprietary funds. The District maintains two-different types of proprietary funds: enterprise funds and internal service funds. Proprietary funds are reported using the accrual basis of accounting. Enterprise funds are used to report the same functions presented as business-type activity in the government-wide financial statements but provide more detail and additional information. The District uses enterprise funds to account for its water utility operations fund. Internal service funds are used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for its fleet of vehicles and computer equipment, and risk management and information technology activities. The internal service funds have been

Management's Discussion and Analysis (continued)

included within governmental activities and business-type in the government-wide financial statements.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

Notes to basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements can be found starting on page 47 of this report.

Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows by \$2,420 million at the end of the current fiscal year.

Total net position	<u>\$ 1,641,669</u>	<u>\$ 1,542,683</u>	<u>\$ 778,594</u>	<u>\$ 731,295</u>	<u>\$ 2,420,263</u>	<u>\$ 2,273,978</u>

The largest portion of the District's net position (84.6%) reflects its investment in capital assets (e.g., land, buildings, infrastructure, machinery and equipment) less any related debt used to acquire those assets still outstanding. Investment in capital assets are *not* available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Management's Discussion and Analysis (continued)

For governmental activities, net investment in capital assets increased by \$77.5 million or 5.8% compared to the prior fiscal year. Capital assets, net of depreciation, increased by \$70.8 million. Long term liabilities, which include related debt outstanding, went down by \$16.5 million.

Current fiscal year major additions to capital assets for governmental activities include the following in (in millions):

- \$23.2 - Permanente Creek
- \$16.1 - San Francisquito Creek
- \$10.9 - Berryessa Creek, Lower, Penitencia Phase 2
- \$7.9 - Main/Madrone Pipeline Restoration
- \$6.2 - Cunningham Flood Detention
- \$3.8 - SFBS EIA 11 Design and Part Construction
- \$2.5 - Upper Llagas Creek, Nonreimburse E6a
- \$2.3 - Sunnyvale East and West Channel
- \$1.5 - Lower Silver Creek - R4-6 North Babb to Cunningham
- \$1.5 - Lower Penitencia Creek Improvements
- \$1.4 - Guadalupe River Upper, SPRR-BH 7-12
- \$1.3 - Upper Llagas Creek, Reimburse E6b
- \$1.3 - SCW Fish Passage Improvement

For business type activities, net investment in capital assets decreased by \$1.3 million or 0.2% over the previous fiscal year. Capital asset, net of depreciation, increased by \$30.3 million. Long term liabilities, which include related debt outstanding, went up by \$79.9 million.

Current fiscal year major additions to capital assets for business type activities include the following (in millions):

- \$18.0 - Rinconada Water Treatment Plant Reliability Improvement
- \$8.8 - Anderson Dam Seismic Retrofit
- \$6.4 - 10-year Pipeline and Rehabilitation
- \$3.9 - Pacheco Reservoir Expansion Project
- \$2.5 - Calero Dam Seismic Retrofit Design and Construction
- \$1.5 - Rinconada Water Treatment Plant FRP Solids Handling System
- \$1.4 - Dam Safety Seismic Stability
- \$1.3 - Rinconada Water Treatment Plant Residuals Remediation
- \$1.2 - South County Recycled Water
- \$1.1 - Calero-Guadalupe Dams Seismic Retro
- \$0.9 - Coyote Plant Pumping Warehouse
- \$0.9 - Indirect Potable Reuse

Management's Discussion and Analysis (continued)

The balance of unrestricted net position may be used to meet the District's ongoing obligations to citizens, customers, and creditors. The District's unrestricted net position increased by \$54.9 million or 63.4%, during the current fiscal year.

Governmental activities. Net position in governmental activities increased by \$99.0 million during the fiscal year. Net revenues from operations of \$96.3 million, and transfers in of \$2.7 million, contributed to the increase in net position.

The fiscal year net revenue of \$96.3 million came from property tax of \$143.8 million, capital grants of \$40.3 million, investment earnings of \$13.6 million, and other revenues of \$4.3 million, less operating expenses of \$105.7 million.

Compared to the prior fiscal year, revenues increased \$1.8 million and expenses increased by \$8.4 million. Key elements of the changes in revenues and expenses from prior year are as follows:

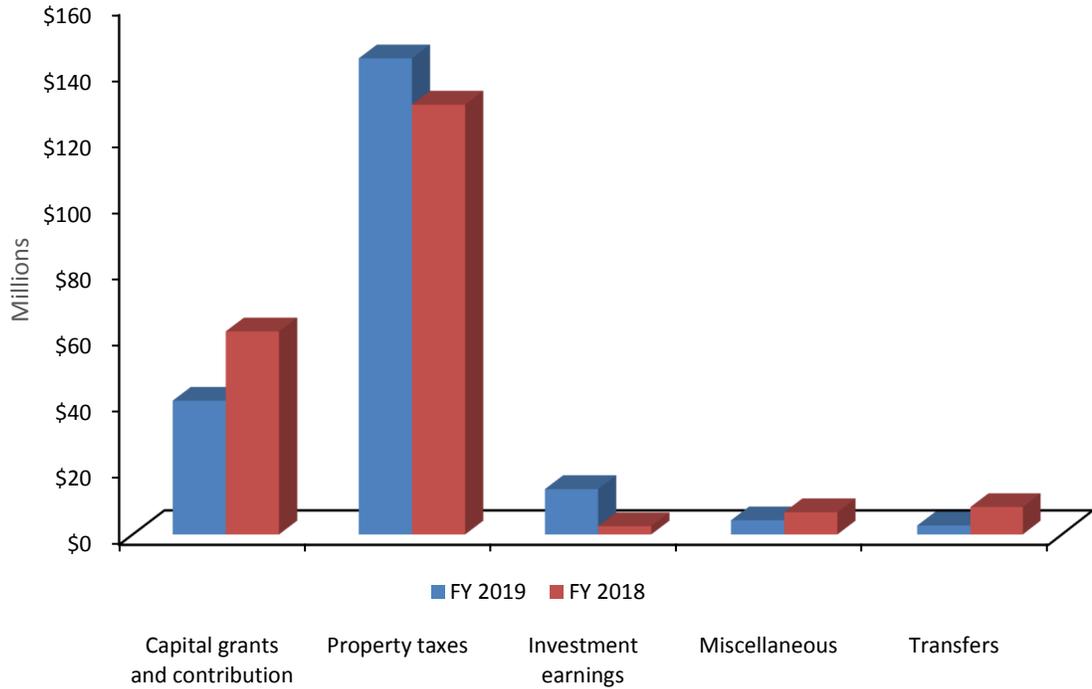

Management's Discussion and Analysis (continued)

- Capital grants and contributions were \$20.9 million or 34.2% lower in the current fiscal year as the previous year included large cost reimbursements from the State for flood management programs.
- Property taxes increased \$14 million or 10.7%. This was mainly the result of increased property values of \$7.1 million, and approximately \$5.4 million of property sales proceeds from the City of San Jose and Santa Clara County Redevelopment Successor Agencies.
- Investment earnings were \$11.2 million or 450% higher, resulting from both favorable investment earnings and unrealized portfolio gains. Interest income received was more than the previous year because of better yields and higher cash balances, and positive fair market value adjustments on the total investment portfolio compared to negative fair market value adjustments in the prior fiscal year.
- General government expenses were \$5.2 million or 61.6% lower, due in part to the reclassification of Information Technology staff salary and benefit expenses to the Internal Service Funds starting in fiscal year 2019, and lower building repair and maintenance expense as staff shortages caused delays in repair and maintenance work.
- Watersheds expenditures were \$13.6 million or 15.8% higher due to the increase in functional expenditures resulting from higher Information Technology spending on projects.

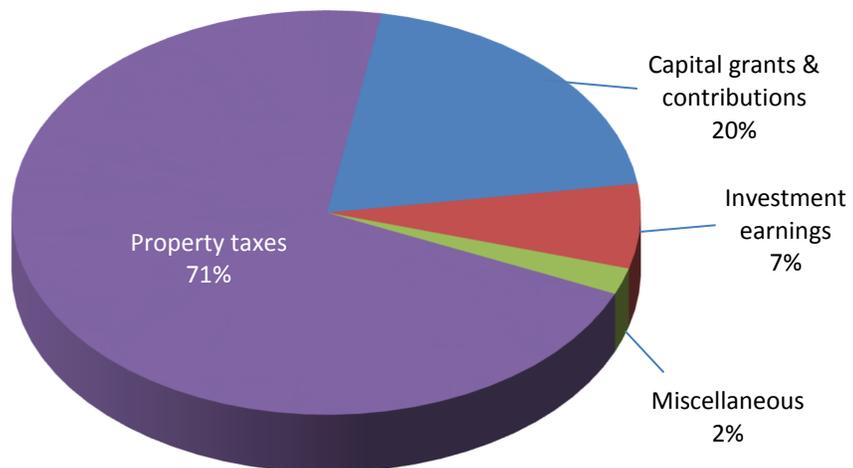

Net transfers in were \$2.7 million during fiscal year 2019, compared to \$8.2 million in the prior fiscal year. Last fiscal year included a large transfer in to the Safe, Clean Water and Natural Flood Protection Program Fund from the Water Enterprise Fund for funding of the Main and Madrone pipeline restoration capital project. The \$2.7 million current year transfer in was from the Water Enterprise Fund to the Information Technology Fund for smaller capital projects.

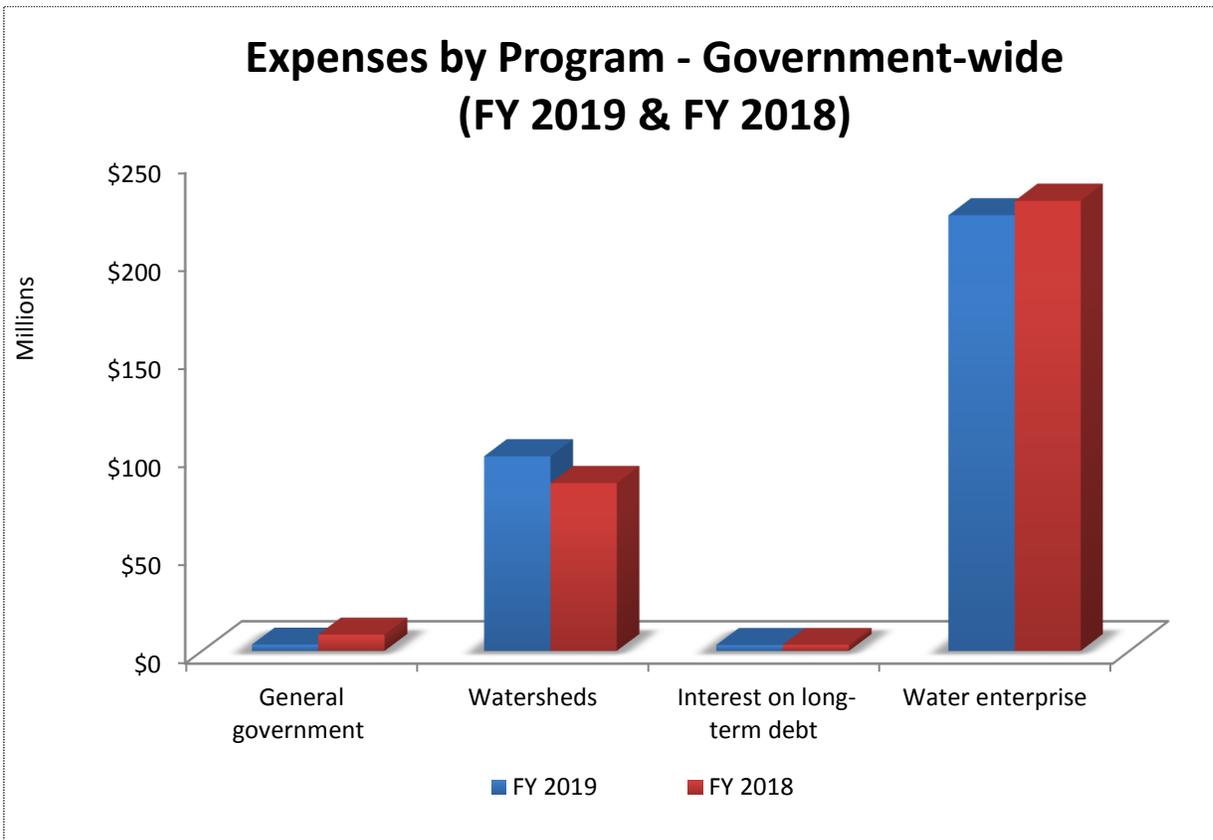

Management's Discussion and Analysis (continued)

Revenue by Sources – Governmental Activities (FY 2019 & FY 2018)

Revenues by Sources – Governmental Activities (FY 2019)

Management's Discussion and Analysis (continued)

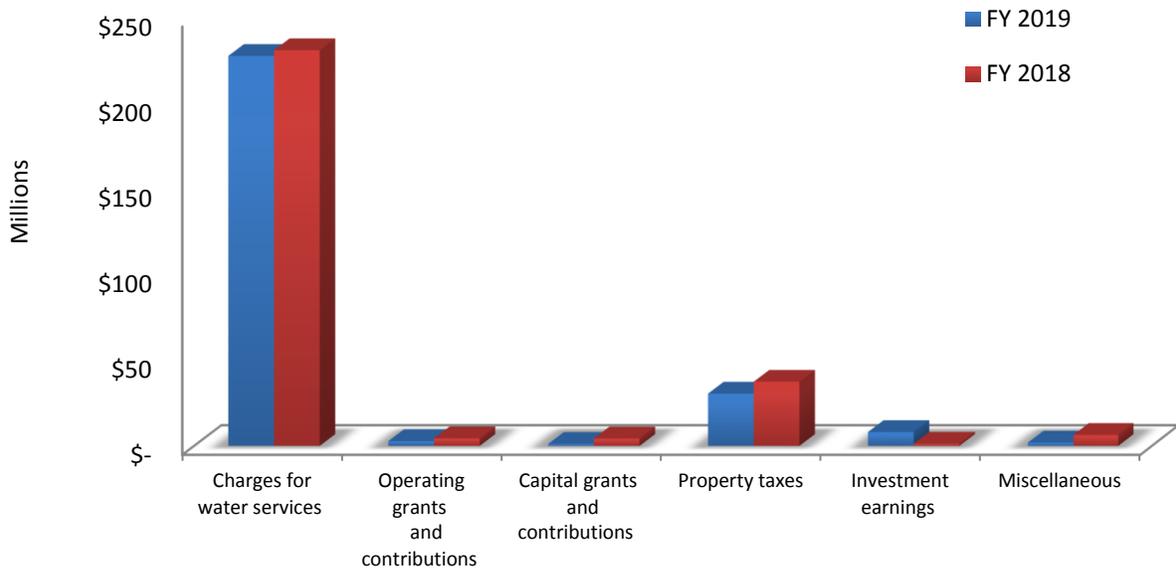

Business-type activities. Net position in business-type activities increased by \$47.3 million during the fiscal year. Fiscal year revenue included water charges of \$227.7 million, property taxes of \$30.5 million, investment earnings of \$8.1 million, grants and contributions of \$2.8 million, miscellaneous revenue of \$1.9 million, and capital and operating grants of \$1.1 million. Operating expenses, including water purchases, were \$222 million. Without the transfer out of \$2.7 million, net revenue was \$50 million.

Compared to the prior fiscal year, total revenues decreased \$12.8 million and expenses decreased \$7.3 million. Key elements of the changes in revenues and expenses from prior year are as follows:

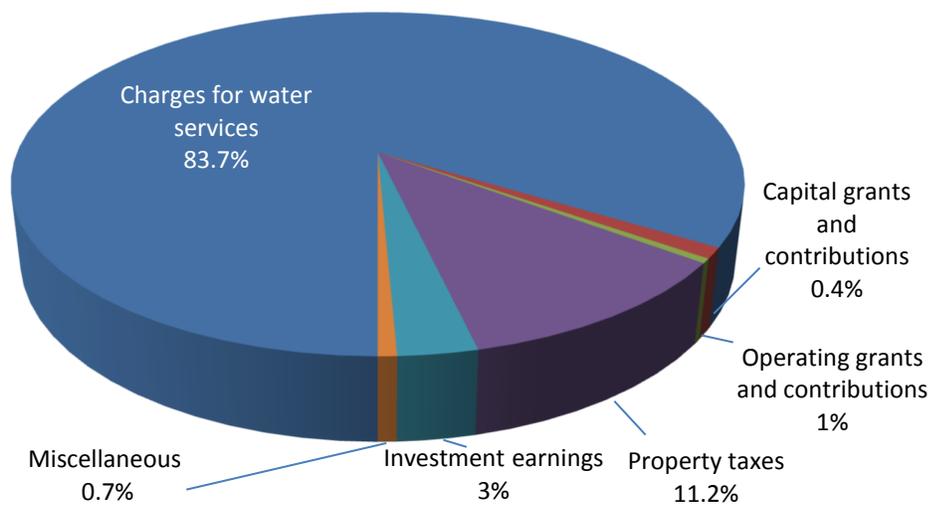

- Total water charge revenue was \$3.3 million or 1% lower, namely as a result of lower groundwater revenue from lower water usage. While treated water revenue and surface/recycled water revenue were higher \$11.5 million and \$717 thousand, respectively, generally reflecting the increases in rates and volume, groundwater was \$15.6 million or 16% less than the prior fiscal year.
- Capital grants and contributions decreased \$3.2 million due to lower capital cost reimbursements received for flood management programs.
- Property taxes were \$6.9 million or 18.6% lower than last fiscal year, reflecting the Board's decision to lower the amount of the State Water Project tax due to lower State Water Project contract obligations.
- Water enterprise expenses decreased by \$7.3 million or 3.2% year over year, which is largely attributable to lower costs for purchased water. Federal purchased water was lower as the cost per acre-foot paid for the Central Valley Project (CVP) water and irrigation deliveries decreased from the prior fiscal year (CVP municipal and industrial rates decreased by \$5.04 per acre-foot, and CVP irrigation rates decreased by \$8.54 per acre-foot). In addition, the District took delivery of less water and delivered less water to the Semitropic groundwater storage bank, which also resulted in decreased water banking expense. Outside of Federal water purchases, there was a reduced need for supplemental water supplies due to an above average water year. Last fiscal year's water purchases included larger purchases for supplemental water from Solano County Water Agency and Merced Irrigation District.

(FY 2019 & FY 2018)**

**Revenues by Source – Business Activity
(FY 2019)**

Management's Discussion and Analysis (continued)

Financial Analysis of the District's Funds

The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The focus of governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. As of June 30, 2019, the District's governmental funds reported combined ending fund balances of \$343.4 million, an increase of \$10.8 million for the fiscal year.

Compared to the prior year, revenues increased by \$921 thousand and total expenditures decreased by \$40.8 million. Property taxes went up \$14 million due to the upward trend of property values in the area and property sale proceeds received from redevelopment successor agencies. Investment income increased by \$10.1 million, reflecting positive fair market values of investments, and higher investment yields. Reimbursements of capital cost were \$20.9 million lower as the previous year included a sizable amount from the Department of Water Resources for flood management projects. Other income decreased by \$2.3 million as proceeds received last fiscal year from the sale of fixed assets were not material in the current fiscal year.

Total expenditures were \$40.8 million lower compared to the prior fiscal year as last year included large capital improvement project expenditures for the Safe, Clean Water and Natural Flood Protection Program.

Approximately \$167.4 million or 48.8% of the total fund balance amount (\$343.4 million) constitutes committed and assigned for specific purposes. The remainder of the fund balance is restricted to indicate that it is not available for new spending because of the external enforceable limitations on its use to: 1) fund Safe, Clean Water & Natural Flood Protection projects (\$168.5 million); 2) pay debt service (\$5.4 million); and 3) provide funds for projects funded by bond proceeds (\$2 million).

General fund

The general fund is the chief operating fund of the District supporting all administrative and strategic support services costs for the organization. It accounts for all financial resources except those required to be accounted for in another fund and is supported primarily by overhead reimbursements from other funds. At the end of the current fiscal year, the committed and assigned fund balance of the General Fund was \$14.1 million. The total fund balance increase of \$4.5 million is due to \$5.3 million net revenues, offset by \$0.9 million of net transfers out.

Special revenue funds

The special revenue funds are used to account for specific revenue sources for which expenditures are restricted by law or regulation to finance particular watershed functions or activities of the District. The available fund balances at the end of the current fiscal year for the special revenue funds were \$321.8 million, which increased during the current

Management's Discussion and Analysis (continued)

fiscal year by \$10.8 million or 3.5%. Fund balance for the Watershed and Stream Stewardship fund increased \$12.7 million or 9% compared to last fiscal year, mainly due to the increase in property tax and decrease in capital improvement project expenditures. Partially offsetting the net increase in revenue were transfers out to the COP Debt Service Fund.

The fund balance in the Safe, Clean Water and Natural Flood Protection fund balance decreased \$1.9 million during the fiscal year, as total expenditures of \$81.2 million (mainly from capital improvement projects) exceeded total revenues of \$75.3 million. Transfers in of \$2.0 million from the COP Construction Fund and \$1.9 million from the Watershed and Stream Stewardship Fund offset some of the decrease in fund balance between the fiscal years.

COP debt service fund

The COP debt service fund is used to account for resources used for debt service payments. It has a total fund balance of \$5.4 million, all of which is reserved for payment of debt service.

COP construction fund

The COP construction fund is used to account for resources used for the acquisition or construction of major capital projects within the governmental fund types. It has a total fund balance of \$2.0 million, all of which is reserved for major capital projects.

Proprietary funds

The District's proprietary funds provide a detailed breakdown of the same type of information found in the government-wide financial statements.

Water Enterprise fund

The Water Enterprise fund accounts for operations in a manner similar to a private business enterprise. Operations are accounted for to show net income or loss from operations. The fund is intended to be entirely or predominantly self supported by user charges.

Net position of the Water Enterprise fund at the end of the fiscal year was \$744 million, an increase of \$51.2 million from the prior fiscal year. Operating revenues of \$227.7 million more than offset \$176.1 million of operating expenses. Year over year, operating revenues decreased \$7.5 million or 3.2% due to the lower volume of ground water pumped. Partially offsetting this decrease was the \$6.8 million increase in investment income, reflecting positive fair market value gains and higher investment yields. Operating expenses decreased by \$11.1 million or 5.9% to account for decreased costs in water deliveries, which also resulted in lower water banking expenses. In addition, the above average water year experienced during fiscal year 2019 and higher State Water Project and Central Valley Project allocations reduced the need for supplemental water supplies.

Management's Discussion and Analysis (continued)

Net non-operating income was \$1.1 million compared to net non-operating expenses of \$2.3 million in fiscal year 2018. Combined property tax, investment income, operating grants, and rental and other income totaling \$19.7 million (which was higher than the \$13.8 million from the prior fiscal year) more than offset \$18.6 million of interest and fiscal agent fees. Interest paid on long term debt and fiscal agent fees were \$2.6 million higher compared to the prior fiscal year.

State Water Project fund

The State Water Project fund was established and approved by the Board of Directors on October 26, 2010. This fund accounts for the State Water Project Tax receipts pursuant to Section 1B of Article 13A of the California Constitution to pay for county-wide voter-approved State Water Project contract obligations. Fund resources are used for the Water System Revenue Bond and other related capital expenditures billed by the State of California Department of Water Resources and are accounted for in such a manner as to restrict the use of the resources exclusively for the State Water Project related costs.

Ending net position was \$31.4 million or \$1.6 million higher than the prior fiscal year. Operating expenses were \$21.8 million, of which \$20.9 million or 95.7% was cost associated with water purchases. Net non-operating revenues were \$23.5 million, with property taxes contributing \$22.3 million or 95.2% of the total.

Internal Service Funds

The District has three internal service funds - the Equipment Fund, Risk Management Fund and Information Technology Fund. Revenues to the funds are generated from fees charged for services provided to the District operating programs.

The Equipment fund charges replacement and maintenance costs to all operations, operating, and capital projects based on equipment assignment and hourly usage of equipment on projects. The fund's annual reimbursement charge for the replacement and maintenance cost of equipment is determined during the budget process and varies yearly depending upon need. Ending net position for the fund was \$9.6 million.

The Risk Management fund charges premiums based on exposure levels by project for liability, property, worker's compensation and self-insurance costs. Revenues required to properly reimburse the Risk Management Fund are determined during the budget process and varies yearly depending upon need. Ending net position for the fund was \$4.7 million.

The Information Technology fund was established on July 1, 2014 to account for the acquisition installation, replacement and maintenance costs of District-wide capital charges related to information technology projects. The annual reimbursement charge to the Information Technology Fund is determined during the budget process and varies yearly depending upon need. The fund's net position was \$23.8 million or \$2.5 million lower than the prior fiscal year. Operating revenues were \$13.6 million and operating expenses were \$23.3 million.

Management's Discussion and Analysis (continued)

General Fund Budgetary Highlights

The summary table below shows a final budget of \$57.7 million for operating and capital expenditures for fiscal year 2019. The adopted budget was \$68.9 million. \$0.5 million was carried forward from the prior year capital projects budget. Current fiscal year budget adjustments decreased the final budget by \$11.5 million.

Adopted Budget	+ Capital Projects Budget Remaining Carry-forward	- Current Year Budget Adjustments	= Final Budget
\$68,678K	\$ 500K	(\$11,511K)	\$57,667K

Total expenditures (budgetary basis) in the General Fund for fiscal year 2019 was \$54.9 million, which is \$6.9 million lower from the prior year.

Beginning fiscal year 2019, all project expenditures relating to the Information Technology Department were moved to the Information Technology Fund. These expenditures were previously accounted for in the General Fund.

Capital Assets

The District's capital asset balance, net of accumulated depreciation, for governmental and business-type activities amounts to \$2.7 billion at June 30, 2019. Capital asset components include intangible rights and software, land, buildings, structures and improvements (which include the flood control improvement), machinery and equipment. During fiscal year 2019, the total increase in the District's capital assets was \$101.1 million or 3.9%. Governmental and business-type activities increased by 4.9% and 2.7%, respectively.

Detailed information on the District's capital assets activity for the current fiscal year can be found in Note 6 of this report.

Long-Term Obligations

At the end of the current fiscal year, the District had total long-term obligations of \$918.9 million. This District's long-term obligations outstanding at the end of the fiscal year consisted of the following:

Management's Discussion and Analysis (continued)

Total	\$ 267,830	\$ 284,313	\$ 651,101	\$ 571,185	\$ 918,931	\$ 855,498

The bond ratings for District outstanding debt reflect a high-grade investment quality debt. They are based on the District's positive fiscal policy and financial strengths. In fiscal year 2019, the Standard and Poor rating agency upgraded the Watershed (Refunding and Improvement COP, Series 2012A) debt rating from AA+ to AAA. The bond ratings are either the highest for a water related governmental entity in the State of California or among the highest. Bonds issued at this credit rating result in lower interest rates and corresponding lower debt service payments.

Please see table below for current ratings.

	Water Utility		Watershed
	Senior Debt	Parity Debt	Debt
Moody's	Aa1	Aa1	Aa1
Standard & Poor's	AA-	N/A	AAA
Fitch	AA+	AA+	AA+

The District's total obligations increased by \$63.4 million during fiscal year 2019. Much of the increase is to account for the new business-type activity water revenue bonds issued during the fiscal year.

Additional information on the District's long-term debt can be found in Note 7 of this report.

Economic Factors and Next Year's Budgets

The District's \$528.9 million budget for fiscal year 2020 will focus on the following initiatives:

- Actively participating in decisions regarding the California Delta Conveyance Project

Management's Discussion and Analysis (continued)

- Pursuing opportunities to expedite regulatory permit processes and streamline permit reviews
- Attaining net positive impact on the environment when implementing flood protection and water supply projects
- Advancing the Anderson Dam Seismic Retrofit Project
- Leading recycled and purified water efforts with the City of San Jose and other agencies
- Finalizing the Fisheries and Aquatic Habitat Collaborative Effort (FAHCE)
- Actively pursuing efforts to increase water storage opportunities
- Ensuring Emergency Action Plans and flood preparedness measures are provided jointly with local cities for flood hot spots throughout the County
- Engaging and educating the community, local elected officials and staff on future water supply strategies in Santa Clara County
- Promoting the protection of creeks, bay, and other aquatic ecosystems from threats of pollutions and degradation
- Advancing diversity and inclusion, succession planning, and long-term resource planning strategy efforts
- Pursuing affordable and effective cost of service strategies

Requests for Information

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances, and to demonstrate the District's accountability for the money it receives. If you have any questions about this report or need any additional information, contact the General Accounting Unit as noted below.

SANTA CLARA VALLEY WATER DISTRICT

Reconciliation of the Statement of Revenues, Expenditures and Change in
Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2019
(Dollars in Thousands)

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	10,841
<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This amount represents capital outlays, net of depreciation.</p>		
Capital Outlay		88,386
Depreciation		(10,956)
<p>Accrued interest expense on long-term debt is reported in the government-wide statement of activities, but they do not require the use of current financial resources. This amount represents the net change in accrued interest expense not reported in governmental funds.</p>		
		179
<p>The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transactions, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas the amounts are deferred and amortized in the statement of activities.</p>		
Certificates of participation repayment		8,715
Deferred amount on refunding		(64)
Net original issue premium		1,548
<p>Internal service funds are used by management to charge the costs of equipment, information technology, and risk management to individual funds. The net revenue of internal service funds is reported with governmental activities.</p>		
		1,354
<p>Some revenues and expenses reported in the statement of activities do not provide or require the use of current financial resources and, therefore, are not reported as revenues or expenditures in governmental funds:</p>		
Compensated absences		(243)
Change in net OPEB liability, deferred inflows and outflows		1,033
Change in net pension liability, deferred inflows and outflows		(1,789)
Interest from monies held in restricted bank accounts		(17)
Change in net position of governmental activities	\$	<u><u>98,987</u></u>

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

(1) THE FINANCIAL REPORTING ENTITY

(a) Description of the Reporting Entity

Santa Clara Valley Water District (District) is a special district created by an act of the legislature of the State of California (State) in 1951 and as amended. The District encompasses all of Santa Clara County.

The District is governed by a seven-member Board of Directors (District Board). Each member is elected from equally divided districts drawn through a formal process. The term of office of a director is four years.

On October 12, 2009, Assembly Bill 466 was signed by the Governor of California revising the composition of the board of the District by requiring the board to transition to an all-elected board that, on or after noon on December 3, 2010, consists of seven directors who are elected pursuant to specified requirements. The board also would be required to adopt a resolution establishing boundaries of the seven electoral districts. On May 14, 2010, the Board of Directors adopted a resolution that officially set the boundaries of the seven electoral districts. In November 2010, two directors were elected to represent the new electoral districts constituting a new board of seven members. As required by state law, the District must redraw its boundaries to reflect 2010 Census results. On October 11, 2011, the Board of Directors adopted Resolution No. 11-63 selecting the Redistricting Plan, known as the Current Adjusted Map.

The District has broad powers relating to all aspects of flood control and storm waters within the District, whether or not such waters have their sources within the District. It is also authorized to store and distribute water for use within its jurisdictional boundaries and authorized to provide sufficient water for present or future beneficial use of the lands and inhabitants of the District. The District acquires, stores, and distributes water for irrigation, residential, fire protection, municipal, commercial, industrial, and all other uses. The District also directly supports the environment and the community through careful stewardship.

As required by generally accepted accounting principles (GAAP) in the United States of America, the accompanying basic financial statements present the District and its component unit. The component unit discussed below is included in the District's reporting entity because of the significance of its operational and financial relationship with the District.

(b) Blended Component Unit

The Santa Clara Valley Water District Public Facilities Financing Corporation (PFFC) was established on December 16, 1987 for the purpose of providing assistance to the District in financing the acquisition, construction and improvement of public buildings, works and equipment for the District. Although legally separate from the District, the PFFC is reported as if it were part of the primary government because its sole purpose is to provide financing to the District under the debt issuance documents of the District, and its governing board is the District's governing board. The operations of the PFFC are accounted for in the debt service and capital project funds.

Separate financial statements are not issued for the PFFC.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Presentation

Government-wide Financial Statements

The statement of net position and statement of activities display information about the primary government (District) and its component unit. These statements include the financial activities of the overall government, except for fiduciary activities. These statements distinguish between the *governmental* and *business-type activities* of the District. Governmental activities, which normally are supported by taxes and inter-governmental revenues, are reported separately from the business-type activity, which rely to a significant extent on fees charged to external parties.

Certain eliminations have been made in regards to interfund activities. All internal balances in the statement of net position have been eliminated except those representing balances between the government activities and business-type activities, which are presented as internal balances and eliminated in the total primary government column. In the statement of activities, internal service fund transactions have been eliminated. However, transactions between the governmental and business-type activities have not been eliminated.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and therefore, are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

When both restricted and unrestricted net position is available, restricted resources are used for qualified expenses before any unrestricted resources are spent.

Fund Financial Statements

The fund financial statements provide information about the District's funds, including agency funds and the blended component unit. Separate statements for each fund category – *governmental, proprietary and fiduciary* – are presented.

The District reports the following Governmental Funds:

The *General Fund* is used to account for all revenues and expenditures necessary to carry out basic governmental functions of the District that are not accounted for through other funds.

The *Special Revenue Type Funds* are used to account for specific revenue sources for which expenditures are restricted by law or regulation or committed by board resolutions to finance particular watershed or safe, clean and natural flood protection functions or activities of the District. The District has the following special revenue type funds:

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

- The *Watershed and Stream Stewardship Fund* is funded by the District's one percent property tax allocation and benefit assessments and used to protect, restore, or enhance the watersheds, streams and natural resources therein. Starting from fiscal year 2009, this fund was redefined to consolidate all watershed stewardship activities from a portion of the District's ad valorem property tax allocation.

The Watershed and Stream Stewardship Fund includes the following watershed activities that were based on their geographic boundaries (zone funds):

- ◆ The *Lower Peninsula Watershed* is defined by geographic boundaries encompassing the tributaries and watersheds of San Francisquito Creek, Matadero Creek, Barron Creek, Adobe Creek, Stevens Creek, and Permanente Creek. The geographic area includes the Cities of Palo Alto, Los Altos, Los Altos Hills, Mountain View, and portions of Cupertino.
 - ◆ The *West Valley Watershed* is defined by geographic boundaries encompassing the tributaries and watersheds of the Guadalupe Slough, Sunnyvale West Outfall, Sunnyvale East Outfall, Calabazas Creek, San Tomas Aquino Creek, and Saratoga Creek. The geographic area includes portions of the Cities of Sunnyvale, Cupertino, Monte Sereno, San Jose, Santa Clara, Campbell, Saratoga and the Town of Los Gatos.
 - ◆ The *Guadalupe Watershed* is defined by geographic boundaries encompassing the tributaries and watersheds of the Guadalupe River. The major tributaries are Los Gatos Creek, Canoas Creek, Ross Creek, Guadalupe Creek, and Alamos Creek. The geographic area includes portions of the Cities of Santa Clara, San Jose, Campbell, Monte Sereno, and the Town of Los Gatos.
 - ◆ The *Coyote Watershed* is defined by geographic boundaries encompassing the tributaries and watersheds of Coyote Creek. The major tributaries are Lower Penitencia Creek, Scott Creek, Berryessa Creek, Upper Penitencia Creek, Silver Creek, Thompson Creek, Fisher Creek, and Packwood Creek. The geographic area includes the City of Milpitas and portions of the Cities of San Jose and Morgan Hill.
- The *Safe, Clean Water & Natural Flood Protection Program* is used to account for the countywide special parcel tax approved by voters on November 6, 2012, with a sunset date of June 30, 2028. This program replaces the Clean, Safe Creeks and Natural Flood Protection Plan that was approved by voters in November 2000.
 - The *Capital Project Type Funds* are used to account for COP proceeds used for the construction of major capital projects with their respective watersheds. The COP Construction Fund is the District's sole capital project type fund.
 - The *Debt Service Type Funds* are used to account for monies being held for reserve requirements and arbitrage rebate for the District's debt payments. The COP Debt Service Fund is the District's sole debt service type fund.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

The District reports the following Proprietary Funds:

- The *Water Enterprise Fund* accounts for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.
- The *State Water Project Fund* accounts for all revenues and costs associated with the State Water Project.
- The *Internal Service Funds* account for the financing of goods or services provided by one department or agency of the District to other departments or agencies on a cost-reimbursement basis.
 - The *Equipment Fund* accounts for the maintenance and operation of the District's vehicle fleet, heavy construction, and information system equipment.
 - The *Risk Management Fund* accounts for the monies set aside to pay for all claims, judgments, and premium cost.
 - The *Information Technology Fund* accounts for the replacement, operations, and maintenance of district-wide information technology projects.

The District reports *Agency Funds* (Fiduciary Fund type) to account for assets held by the District as an agent for private organizations and/or other governments.

- The *Deposit Fund* is used to account for the collection and payment of funds held in trust for specific purposes.

(b) Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, benefit assessments and grants. On an accrual basis, revenues from property taxes and benefit assessments are recognized in the fiscal year for which the taxes and assessments are levied; revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied; and revenue from investments is recognized when earned.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property taxes, benefit assessments, interest, grants and charges for services are accrued when their receipt occurs within sixty days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and compensated absences are recorded when payment is due. Capital assets acquisitions are reported as expenditures in

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

governmental funds. Proceeds of long-term debt and capital leases are reported as other financing sources.

Proprietary funds are reported using the economic resource measurement focus and the accrual basis of accounting and distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water enterprise fund is the sale of water to outside customers, and of the District's internal service funds are charges for services provided to internal departments. Operating expenses for the enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Proprietary funds *operating* revenues, such as charges for services, result from the exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal value. *Non-operating* revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

Agency funds are used to account for assets held by the District in a fiduciary capacity as an agent for individuals, private organizations, other governments and/or other funds. Agency funds do not have a measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

(c) Cash and Investments

While maintaining safety and liquidity, the District maximizes its investment return by pooling its available cash for investment purposes. Interest earnings are apportioned among funds based upon the average monthly cash balance of each fund and are allocated to each fund on a monthly basis.

The District reported investments in nonparticipating interest earnings contracts (including guaranteed investment contracts) at cost, and all other investments at fair value. The fair value of investments is based on current market prices.

For purposes of the Statement of Cash Flows, the proprietary funds consider all highly liquid investments with a maturity of three months or less when purchased (including restricted investments), and their equity in the cash and investment pool to be cash equivalents.

(d) Inventory

Proprietary fund inventory consists of materials and supplies held for consumption. The cost of all inventory acquired is recorded as an expense at the time of purchase. At the end of the accounting period, the inventory values of materials and supplies on hand are determined using a current cost method which approximates market value. For financial statement purposes inventories are presented under deposits and other assets.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

(e) Capital Assets

Capital assets (including infrastructure) are recorded at historical cost or at estimated historical cost if actual historical cost is not available. Contributed capital assets are valued at their estimated acquisition cost on the date contributed. Capital assets of governmental activities include pipelines, channel linings, floodwalls, levees, bridge flood proofing, box culverts and re-vegetation. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Capital assets including assets under capital leases used in operations are depreciated or amortized using the straight-line method over the lesser of the capital lease period or their estimated useful lives in the government-wide statements and proprietary funds.

The estimated useful lives are as follows:

Water treatment facilities	50 Years
Buildings, structures, and trailers	25 - 50 Years
Flood control projects	30 - 100 Years
Dams, structures, and improvements	80 Years
Office furniture, fixtures, and equipment	5 - 20 Years
Automobiles and trucks	6 - 12 Years
Computer equipment	5 Years

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

(f) Amortization of Contract Water Rights

The District has contracted with the State of California for water deliveries from the State Water Project through calendar year 2035. A portion of the payments under this contract represent reimbursement of capital costs for transportation facilities (the capital cost component). The Water Enterprise Fund capitalizes the capital cost component and amortizes such component, using the straight-line method, over the remaining entitlement period.

(g) Amortization of Water Banking Rights

The District has contracted with the Semitropic Water Storage District and its Improvement Districts for the water banking and exchange program. The program is in effect through calendar year 2035. Participation in the program provides the District a 35% allocation for storage rights at the Semitropic Water Storage District facility, totaling 350,000 acre-feet. The Water Enterprise Fund has capitalized the cost of the program and amortizes its cost over the 40 year entitlement period using the straight-line method.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

(h) Amortization of Water Delivery Rights

The District has contracted with the United States Department of the Interior Bureau of Reclamation for water deliveries from Central Valley through calendar year 2027. A portion of this contract represents reimbursement of capital costs for general construction in the San Felipe Division facilities. The Water Enterprise Fund capitalizes the capital cost component and amortizes such component, using the straight-line method, over the remaining entitlement period.

(i) Receivables

Receivables include amounts due from water utility customers as well as amounts due for property taxes and interest on investments. All receivables are shown net of an allowance for doubtful accounts of \$5 million.

(j) Accrued Vacation and Sick Leave Pay

It is the policy of the District to permit employees to accumulate earned but unused vacation and sick leave benefits. Vested or accumulated vacation and sick leave are reported as noncurrent liabilities on the statement of net position.

Maximum vacation accruals may not exceed three times the employee's annual accrual rate, per employee. All regular full-time employees are eligible for twelve (12) days of sick leave per fiscal year. Unused sick leave may be carried forward to the following fiscal year without limitation. Upon retirement, up to 480 hours of accrued sick leave shall be paid to the eligible employee at the rate of 50% of the equivalent cash value. Upon resignation with ten or more years of service, or upon separation by layoff regardless of service, up to 480 hours of accrued sick leave shall be paid off at the rate of 25% of the cash value.

(k) Bond Premiums, Discounts and Issuance Costs

Water Enterprise and Watershed debt premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond discounts. Refunding differences associated with debt refinancing are reported as deferred outflows or inflows of resources and amortized over the life of the bonds. Issuance costs are recorded as an expense of the current period.

On the statement of net position and the statement of activities, the premiums and discounts related to outstanding debt are deferred and amortized over the life of the debt. Debt payable are reported net of the applicable bond premiums or discounts. Prepaid insurance associated with the issuance of debts are reported as prepaid expenses.

(l) Accounting for Encumbrances

The District employs encumbrance accounting as a significant aspect of budgetary control. Under encumbrance accounting, purchase orders, contracts and other commitments for expenditure of

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

funds are recorded as assignment of fund balance since they are not treated as current expenditures or outstanding liabilities at year end for GAAP financial reporting.

(m) Net position

The District's fund net position is classified based primarily to the extent to which the District is bound to observe constraints imposed upon the use of the resources. When both restricted and unrestricted resources are available for expenses, the District expends the restricted funds and then the unrestricted funds.

(n) Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(o) Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018

(p) Other Post Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB's Plan's fiduciary net position have been determined on the same basis as reported by CalPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

(q) Fair Value Measurement

The District has applied Governmental Accounting Standards Board (“GASB”) Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements. The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset’s fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are observable inputs (other than quoted marked prices) using matrix pricing based on the securities relationship to benchmark quoted prices; and Level 3 inputs are significant unobservable inputs.

(r) Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows. Deferred inflows of resources represent an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

(s) New Pronouncements

The Governmental Accounting Standards Board (GASB) releases new accounting and financial reporting standards which may have a significant impact on the District’s financial reporting process. Current and future new standards which may impact the District include the following:

Current Accounting Pronouncements:

GASB Statement No. 83 – In November 2016, GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital asset should recognize a liability based on the guidance in this Statement. This Statement also requires disclosure of information about the nature of a government’s ARO, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018, or fiscal year 2019. The District has determined that this Statement does not have a material impact on the financial statements.

GASB Statement No. 88 – In April 2018, GASB issued Statement No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements*. The objective of this Statement is to improve note disclosures related to debt. This Statement requires that all debt disclosures present direct borrowings and direct placements of debt separately from other types of debt. This Statement

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

is effective for reporting periods beginning after June 15, 2018, or fiscal year 2019. The District has implemented this pronouncement for fiscal year 2019.

Future Accounting Pronouncements:

GASB Statement No. 84 – In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018, or fiscal year 2020. The District has not determined the impact of this pronouncement on the financial statements.

GASB Statement No. 87 – In June 2017, GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The Statement is effective for the reporting periods beginning after December 15, 2019, or fiscal year 2021. The District has not determined the impact of this pronouncement on the financial statements.

GASB Statement No. 89 – In June 2018, GASB issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. The objective of this Statement is to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (b) to simplify accounting for certain interest costs. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in the financial statements. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019, or fiscal year 2021. The District has not determined the impact of this pronouncement on the financial statements.

GASB Statement No. 90 – In August 2018, GASB issued Statement No. 90, *Majority Equity Interest, an amendment of GASB statement No. 14 and No. 61*. The objective of this Statement is to improve how majority equity interest is reported. The Statement specifies that a majority equity interest in a legally separate organization should be reported as an investment using the equity method if a government's holding of the equity interest meets the definition of an investment and for all other holdings of a majority equity interest in a legally separate organization, a government should report the legally separate organization as a component unit. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018, or fiscal year 2020. The District has not determined the impact of this pronouncement on the financial statements.

GASB Statement No. 91 – In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. The objective of this Statement is to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. This Statement requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020, or fiscal year 2022. The District has not determined the impact of this pronouncement on the financial statements.

(3) CASH AND INVESTMENTS

Total District cash and investments reported on the financial statements at June 30, 2019 are as follows (in thousands):

Statement of Net Position:	
Cash and investments	\$ 670,435
Restricted cash and investments	7,758
Statement of Fiduciary Net Position:	
Cash and investments	199
	<u>\$ 678,392</u>

Investments

At June 30, 2019, cash and investments based on fair value consist of the following (in thousands):

U.S. Government Agencies	\$ 447,287
U.S. Treasury Obligations	29,317
Medium Term Notes	19,718
Local Agency Investment Fund	55,450
Mutual Funds	121

Total Investments	<u>669,072</u>
Carrying amount of cash	9,320
Total Cash and Investments	<u>\$ 678,392</u>

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

As of June 30, 2019, the fair value of the District's investment in the State investment pool (LAIF) is \$55 million in non-restricted cash. The Local Investment Advisory Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State Statute. The District is a voluntary participant in the pool. The value of the pool shares in LAIF, which may be withdrawn, is determined on an amortized cost basis, which is different than the fair value of the District's position in LAIF. The pool is not registered with the Securities Exchange Commission.

Authorized Investments by the District

The District's Investment Policy and the California Government Code allow the District to invest in the following types of investments, provided the credit ratings of the issuers are acceptable to the District. The following items also identify certain provisions of the District and California Government Code that address interest rate risk, credit risk, and concentration of credit risk. This list does not address the District's investments of debt proceeds held by fiscal agents that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy, when more restrictive.

<u>Authorized Investment Type</u>	<u>Maximum Maturity</u>	<u>Minimum Credit Quality</u>	<u>Maximum Percentage of Portfolio</u>	<u>Maximum Investment in One Issuer</u>
U.S. Treasury Obligations	5 years	(Exempt from disclosure)	None	None
U.S. Government Agency Issues (A)	5 years	(Exempt from disclosure)	None	None

(A) Securities issued by agencies of the federal government such as the Federal Farm Credit Bank (FFCB), the Federal Home Loan Bank (FHLB), the Federal National Mortgage Association (FNMA), the Federal Home Loan Mortgage Corporation (FHLMC), the Federal Agricultural Mortgage Corporation of America and the Tennessee Valley Authority.

(B) LAIF will accept no more than \$65 million of an agency's unrestricted funds while placing no constraints on funds relating to unspent bond proceeds.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

Restricted Cash and Investments for Bond Interest and Redemption

Under the provisions of the District's revenue bond resolutions and Installment Purchase Agreement for the 2007B, 2012A, 2016C, 2016D, and 2017A Certificates of Participations (COPs) and Water Utility Revenue and Refunding Bonds 2006B, 2016A, 2016B, 2017A, 2019A, and 2019B, a portion of the proceeds from these debt issuances is required to be held in custody accounts by a fiscal agent as trustee.

As of June 30, 2019, the amount invested in assets held by fiscal agent amounted to \$5.5 million for certificates of participation and \$80 thousand for revenue bonds and was equal to or in excess of the amount required at that date.

Restricted Cash and Investments for Capital Projects

The District has construction and acquisition funds from the 2017A Certificates of Participation (COP) which is used to pay for the capital projects on flood control and watershed improvements authorized by the COP indenture. At June 30, 2019, the balance of this fund is \$2 million.

The District, through the PFFC, has also issued commercial paper to provide for any District purposes, including but not limited to, capital expenditure, investment and reinvestment, and the discharge of any obligation or indebtedness of the District. At June 30, 2019, the total balance of the taxable and the tax-exempt commercial paper certificate accounts is \$195 thousand. Both account balances were cash transfers from the District to fiscal agent to fund maturing interest payments on commercial papers outstanding.

Restricted Cash and Investments for Watershed Management Projects

The District has entered into certain cost sharing agreements with the U.S. Army Corps of Engineers (the Corps). Under these agreements, the District is required to deposit monies into escrow accounts to be used by the Corps for watershed management projects. At June 30, 2019, the District's restricted deposits held in escrow for construction of the Guadalupe Watershed project amounted to \$77 thousand.

Authorized Investments by Debt Agreements

The District must maintain required amounts of cash and investments with trustees or fiscal agents under the terms of certain debt issues. These funds are unexpended bond proceeds or are pledged reserves to be used if the District fails to meet its obligations under these debt issues. The California Government Code requires these funds to be invested in instruments which, at the time of such investment, are legal investments under the laws of the State of California, District ordinances, policies, and bond indentures. The following identifies the investment types that are authorized for investments held by fiscal agents. The table also identifies certain provisions of these debt agreements:

(A) Direct obligations of the United States of America and securities fully and unconditionally guaranteed as to the timely payment of principal and interest by the United States of America, provided that the full faith and credit of the United States of America must be pledged to any such direct obligation or guarantee.

(B) Direct obligations and fully guaranteed certificates of beneficial interest of the Export-Import Bank of the United States; consolidated debt obligations and letter of credit-backed issues of the Federal Home Loan Banks; participation certificates and senior debt obligations of the Federal Home Loan Mortgage Corporation ("FHLMCs"); debentures of the Federal Housing Administration; mortgage-backed securities (except stripped mortgage securities which are valued greater than par on the portion of unpaid principal) and senior debt obligations of the Federal National Mortgage Association ("FNMA's"); participation certificates of the General Services Administration; guaranteed mortgage-backed securities and guaranteed participation certificates of the Government National Mortgage Association ("GNMA's"); guaranteed participation certificates and guaranteed pool certificates of the Small Business Administration; local authority Certificates of the U.S. Department of Housing & Urban Development; guaranteed Title XI financings of the U.S. Maritime Administration; guaranteed transit Certificates of the Washington Metropolitan Area Transit Authority; Resolution Funding Corporation securities.

(C) Direct obligations of any state of the United States of America or any subdivision or agency thereof whose unsecured, uninsured and unguaranteed general obligation debt is rated, at the time of purchase, "A" or better by Moody's and "A" or better by S&P.

(D) Deposits of any bank or savings and loan association which has combined capital, surplus and undivided profits of not less than \$3 million, provided such deposits are continuously and fully insured by the Bank Insurance Fund or the Savings Association Insurance Fund of the Federal Deposit Insurance Corporation.

(E) Repurchase agreements collateralized by Direct Obligations, GNMA's, FNMA's or FHLMC's with any registered broker/dealer subject to the Securities Investors' Protection Corporation jurisdiction or any commercial bank insured by the FDIC, if such broker/dealer or bank has an uninsured, unsecured and unguaranteed obligation rated "P-1" or "A3" or better by Moody's and "A-1" or "A-" or better by

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

S&P, provided: (1) a master repurchase agreement or specific written repurchase agreement governs the transaction; and (2) the securities are held free and clear of any lien by the Trustee or an independent third party acting solely as agent ("Agent") for the Trustee, and such third party is (i) a Federal Reserve Bank, or (ii) a bank which is a member of the Federal Deposit Insurance Corporation and which has combined capital, surplus and undivided profits of not less than \$50 million or (iii) a bank approved in writing for such purpose by the Certificate Insurer, and the Trustee shall have received written confirmation from such third party that it holds such securities, free and clear of any lien, as agent for the Trustee; and (3) a perfected first security interest under the Uniform Commercial Code, or book entry procedures prescribed at 31 C.F.R. 306.1 et seq. or 31 C.F.R. 350.0 et seq. if such securities is created for the benefit of the Trustee; and (4) the repurchase agreement has a term of 180 days or less, and the Trustee or the agent will value the collateral securities no less frequently than weekly and will liquidate the collateral securities if any deficiency in the required collateral percentage is not restored within two business days of such valuation; and (5) the fair value of the securities in relation to the amount of the repurchase obligation, including principal and interest, is equal to at least 103%.

(F) Investment agreements, guaranteed investment contracts, funding agreement, or any other form of corporate note representing the unconditional obligations of entities or agencies with the unsecured long-term debt obligations or claims-paying ability rated in one of the top two rating categories by Moody's and S&P.

(G) Any investment approved in writing by the Certificate Insurer.

Interest Rate Risk

Interest Rate Risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District generally manages its own interest rate risk by holding investments to maturity.

Information about the sensitivity of the fair value of the District's investments to market interest rate fluctuations is provided by the table on the following page that shows the distribution to the District's investments by maturity or earliest call date (in thousands).

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

Concentration of Credit Risk

The District's investment policy regarding the amount that can be invested in any one issuer is stipulated by the California Government Code and District investment policy, whichever is more restrictive. However, the District is required to disclose investments that represent a concentration of five percent or more of investments in any one issuer, held by individual District Funds in the securities of issuers other than U.S. Treasury securities, mutual funds and external investments pools. At June 30, 2019, those investments consisted of the following (in thousands):

<u>Issuer</u>	<u>Investment Type</u>	<u>Reported Amount</u>
Government-Wide		
Federal Home Loan Bank	U.S. Government Agency	\$ 143,324
Federal Farm Credit Bank	U.S. Government Agency	136,440
Federal Home Loan Mortgage Corp.	U.S. Government Agency	82,699
Federal National Mortgage Association	U.S. Government Agency	80,348

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

Under California Government Code Section 53651, depending on specific types of eligible securities, a bank must deposit eligible securities posted as collateral with its Agent having a fair value of 105% to 150% of public agencies' cash on deposit. All of the District's deposits are either insured by the Federal Depository Insurance Corporation (FDIC) or collateralized with pledged securities held in the trust department of the financial institutions but not in the District's name.

Fair Value Measurement and Application

The District measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy as shown below:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs (other than quoted marked prices) using matrix pricing based on the securities relationship to benchmark quoted prices; and
- Level 3: Unobservable inputs (not applicable to the District).

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

Shown below is a summary of the fair value hierarchy of the District's investment at fair value on June 30, 2019 (in thousands):

	<u>6/30/2019</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Uncategorized</u>
Investments by Fair Value Level				
U.S. Government Agencies	\$ 447,287	\$ 447,287	\$ -	\$ -
U.S. Treasury Obligations	29,317	29,317	-	-
Medium Term Notes	19,718	-	19,718	-
Mutual Funds	121	-	121	-
Supranational Obligations	15,156	-	15,156	-
Municipal Bonds	45,881	-	45,881	-
Negotiable Certificates of Deposit	1,920	-	1,920	-
Time Certificates of Deposit	16,037	-	16,037	-
Subtotal - Leveled Investments	<u>575,437</u>	<u>476,604</u>	<u>98,833</u>	<u>-</u>
Local Agency Investment Fund	55,450	-	-	55,450
Money Market Funds	38,185	-	-	38,185
Subtotal - Uncategorized	<u>93,635</u>	<u>-</u>	<u>-</u>	<u>93,635</u>
 Total Investments	 <u>\$ 669,072</u>	 <u>\$ 476,604</u>	 <u>\$ 98,833</u>	 <u>\$ 93,635</u>

Deposits and withdrawals in the State Investment Pool are made on the basis of \$1 and are not using fair value. Accordingly, the District's investments of \$55 million in LAIF at June 30, 2019 are classified as uncategorized input (not classified as Level 1, Level 2, or Level 3).

(4) REIMBURSEMENT OF CAPITAL COSTS

The District derives certain revenues from reimbursements of capital costs by local, state, federal agencies and other outside sources. The following page shows a summary of such reimbursements during fiscal year 2019 (in thousands).

(5) INVESTMENT INCOME

The District earns interest income from the investment of cash. Generally accepted accounting principles, as discussed in GASB 31, require reporting investment at fair value in the financial statements. Because of this requirement, interest income earned from investing activity during the current fiscal year is adjusted upwards or downwards to reflect the change in fair value of investment.

The following table represents the investment income as reported in the financial statements, the current year GASB 31 fair value adjustment, and the unadjusted interest income at June 30, 2019 (in thousands):

	Interest as Reported	GASB 31 Fair Value Adjustment	Unadjusted Interest Income
Fund:

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

During fiscal year 2019, new construction in progress increased by \$84.3 million in the governmental activities. The breakdown of additions to the construction in progress was as follows: \$22 million to the watersheds, and \$62.3 million to the Safe, Clean Water & Natural Flood Protection Fund. There were 62 in progress and completed projects during the fiscal year with the major projects listed below (in millions):

- \$23.2 - Permanente Creek
- \$16.1 - San Francisquito Creek
- \$10.9 - Berryessa Creek, Lower, Penitencia Phase 2
- \$7.9 - Main/Madrone Pipeline Restoration
- \$6.2 - Cunningham Flood Detention
- \$3.8 - SFBS EIA 11 Design and Part Construction
- \$2.5 - Upper Llagas Creek, Nonreimburse E6a
- \$2.3 - Sunnyvale East and West Channel
- \$1.5 - Lower Silver Creek - R4-6 North Babb to Cunningham
- \$1.5 - Lower Penitencia Creek Improvements
- \$1.4 - Guadalupe River Upper, SPRR-BH 7-12
- \$1.3 - Upper Llagas Creek, Reimburse E6b
- \$1.3 - SCW Fish Passage Improvement

New construction in progress amounted to \$50 million in the business-type activities. There were 55 in progress and completed projects during the fiscal year, with major projects listed below (in millions):

- \$18.0 - Rinconada Water Treatment Plant Reliability Improvement
- \$8.8 - Anderson Dam Seismic Retrofit
- \$6.4 - 10-year Pipeline and Rehabilitation
- \$3.9 - Pacheco Reservoir Expansion Project
- \$2.5 - Calero Dam Seismic Retrofit Design and Construction
- \$1.5 - Rinconada Water Treatment Plant FRP Solids Handling System
- \$1.4 - Dam Safety Seismic Stability
- \$1.3 - Rinconada Water Treatment Plant Residuals Remediation
- \$1.2 - South County Recycled Water
- \$1.1 - Calero-Guadalupe Dams Seismic Retro
- \$0.9 - Coyote Plant Pumping Warehouse
- \$0.9 - Indirect Potable Reuse

Capital asset depreciation and amortization incurred by the primary government for the current fiscal year are as follows (in thousands):

General government	\$ 1,909
Watershed and Stream Stewardship	8,556
Safe, clean water and natural flood protection	500
Capital assets held by the District's internal service funds are charged to the various functions based on their usage of assets.	<u>2,560</u>
Total depreciation expense – governmental activities	<u>\$13,525</u>
 Total depreciation and amortization expense – business-type activity	
Water cost of production	<u>\$30,097</u>

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

(7) SHORT-TERM AND LONG-TERM LIABILITIES

(a) Short-term debt

On December 17, 2002, the District Board authorized a commercial paper program, through the PFFC. The commercial paper program allows the District to finance capital acquisitions while taking advantage of short term rates, and the District issues tax and revenue anticipation notes on an annual basis to secure the commercial paper program. This program is used in conjunction with issuing long-term liabilities to obtain the least expensive financing for the District.

On May 15, 2012, the District Board authorized the execution and delivery of certain agreements in connection with the commercial paper program in an aggregate principal amount not to exceed \$100 million.

On January 13, 2015, the District Board took certain actions to support an increase in the commercial paper program to \$150 million. The proceeds of the commercial paper may be used for any District purposes, including but not limited to, capital expenditure, investment and reinvestment, and the discharge of any obligation or indebtedness of the District.

On April 25, 2019, the District issued Water System Refunding Revenue Bonds, Series 2019A and Taxable Series, 2019B, in the amount of \$95.3 million to provide funds to the PFFC, including \$2.5 million original issue premium, to repay \$97.3 million in commercial paper (\$79.7 million of outstanding taxable certificates and \$17.6 million of tax-exempt certificate), which had been issued for the benefit of the Water Utility.

As of June 30, 2019, outstanding commercial paper was \$50 million, consisting of \$30 million issued through the PFFC for the benefit of the Safe, Clean Water Program and \$20 million issued through the PFFC for the benefit of the Water Utility Enterprise.

Governmental Activities

The following provides a brief description of the District's debt, and other long-term liabilities, for governmental activities outstanding as of June 30, 2019:

2012A Certificates of Participation

In November 2012, the District issued \$52,955,000 of Refunding and Improvement Certificates of Participation, Series 2012A, to be executed and delivered through the PFFC. The proceeds of 2012A COPs were used to: (1) refinance \$52,360,000 of the 2003A Certificates of Participation; (2) finance the cost of certain flood control improvements; (3) fund a reserve fund; and (4) pay the costs of issuing the 2012A Certificates. The 2012A COPs are payable from the 1994 Installment Payments, which are payable by the District, and are secured by a pledge of and lien on, the District Flood Control System Revenues pursuant to Master Resolution No. 94-60 Flood Control System Revenues adopted by the District Board on June 23, 1994.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

2017A Certificates of Participation

In March 2017, the District issued \$59,390,000 of Refunding and Improvement Certificates of Participation, Series 2017A, to be executed and delivered through the PFFC. The proceeds of the 2017A COPs were used to: (1) refinance the \$5,270,000 outstanding balance of the 2004A Certificates of Participation; (2) refinance the \$54,215,000 outstanding balance of the 2007A Certificates of Participation; (3) finance the cost of certain flood control improvements; and (4) pay the costs of issuing the 2017A Certificates. The 2017A COPs are payable from the 1994 and 1995 Installment Payments, which are payable by the District, and are secured by a pledge of and lien on, the district Flood Control System Revenues pursuant to Master Resolution No. 94-60 Flood Control System Revenues adopted by the District Board on June 23, 1994.

Claims Payable

The District is self-insured and reports all its risk management activities in its Risk Management Internal Service Fund. Detailed information and calculation of the claims payable account balance are explained in Note 13, Risk Management.

Business-type Activity

The following provides a brief description of the District's debt, and other long-term liabilities, for business-type activity outstanding as of June 30, 2019:

2006B Water Utility System Refunding Revenue Bonds

In December 2006, the District issued \$99,835,000 of Water Utility System Refunding Revenue Bonds, Series 2006A and Taxable Series 2006B, pursuant to the Water Utility Senior System Master Resolution (94-58, as amended by 06-80). The proceeds of \$57,415,000 of the 2006A and 2006B Bonds were used to refinance \$55,265,000 of the remaining 2000A and 2000B and the proceeds of \$42,420,000 of 2006A and 2006B were used to repay approximately \$40,900,000 of commercial paper notes. In March 2016, the District issued Series 2016A Water System Refunding Revenue Bonds to refund all 2006A outstanding principal.

2016A/B Water Systems Refunding Revenue Bonds

In March 2016, the District issued \$181,530,000 of Water Systems Refunding Revenue Bonds comprising of Series 2016A for \$106,315,000 and Taxable Series B for \$75,215,000, pursuant to the Water Utility Parity System Master Resolution (16-10) approved by the Board in February 2016. Proceeds of the 2016A Revenue Bonds, along with the original issue premium, were used to refinance all the currently outstanding Water Utility System Refunding Revenue Bonds Series 2006A and repay \$73,040,000 of outstanding tax-exempt commercial paper notes and costs of issuance. Proceeds of the 2016B Revenue Bonds were used to repay \$75,000,000 of the balance of the outstanding taxable commercial paper notes and costs of issuance. The obligation of the District to pay principal and interest of the 2016A/B Water Systems Refunding Revenue Bonds is secured by a pledge of and lien on the District's Water Utility System Revenues.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

2017A Water System Utility Refunding Revenue Bonds

In May 2017, the District issued \$54,710,000 of Water Systems Refunding Revenue Bonds to refund the \$64,750,000 outstanding balance of the Water Utility System Revenue Certificates of Participation Series 2007A and pay costs of issuance of the 2017A Bonds. The obligation of the District to pay principal and interest on the 2017A Bonds is secured by a pledge of and lien on the District's Water Utility System Revenues and are payable from the Net Water Utility System Revenues pursuant to the Water Utility System Parity Master Resolution (16-10).

2019A/B Water Systems Refunding Revenue Bonds

In April 2019, the District issued \$95,255,000 of Water System Refunding Revenue Bonds to repay the outstanding Commercial Paper Certificates in order to free up capacity in the District's commercial paper program to finance on-going capital costs and costs of issuance. The obligation of the District to pay principal and interest on the 2019A/B Bonds is secured by a pledge of and lien on Water Utility System Revenues and are payable from the Net Water Utility System Revenues pursuant to the Parity Master Resolution (16-10).

2007B Water Utility Revenue Certificates of Participation

In October 2007, the District issued \$131,000,000 of Water Utility Revenue Certificates of Participation, Series 2007A and Taxable Series 2007B, to be executed and delivered through the PFFC. The proceeds of the 2007A and 2007B COPs were used to finance capital construction projects in the Water Utility Enterprise. A 2007A Debt Service Reserve Fund was funded for the 2007A and 2007B COPs by purchasing a surety. The 2007A issuance was \$77,270,000 fixed rate COPs with a 30 year maturity. The 2007B issuance of \$53,730,000 are floating rate COPs based on the three month LIBOR rate plus 32 basis points with a 30 year maturity. The 2007A and 2007B COPs are payable from 2007 Installment Payments which are payable by the District from and secured by a pledge and lien on water utility revenues pursuant to the Water Utility Senior System Master Resolution (94-58, as amended by 06-80). The 2007A COPs were refunded by the 2017A Water System Utility Refunding Revenue Bonds in May 2017.

2016C/D Water Utility Revenue Certificates of Participation

In March 2016, the District issued \$98,045,000 of Water Utility Systems Improvement Projects Revenue Certification of Participation, Series 2016C for \$43,075,000 and Taxable Series 2016D for \$54,970,000, to be executed and delivered through the PFFC. Proceeds of the 2016C and 21016D COPs, along with the original issue premium will be used to finance capital construction projects in the Water Utility Enterprise and costs of issuance. The 2016C and 2016D COPs are payable from 2016 Installment Payments which are payable by the District from and secured by a pledge and lien on water utility revenues pursuant to the Water Utility Parity System Master Resolution (16-10).

Semitropic Water Banking Agreement

In December 1995, the Santa Clara Valley Water District entered into a water banking and exchange program with Semitropic Water Storage District and its Improvement Districts that entitles the District to storage, withdrawal, and exchange rights for the District's State Water Project supplies. The Santa Clara Valley Water District's share of the total program capital costs is \$46.9 million based on a 35 percent vesting in the program. The District pays the program capital costs when storing and recovering water. At June 30, 2019, the District has \$10 million outstanding liability related to water storage and banking rights.

For the Year Ended June 30, 2019

Compensated Absences

Compensated absences are paid out of the general fund as an employee benefit expense in the year the expense is realized and are charged to the different funds as part of the direct benefit rate. The compensated absences liability for the year is recognized in the District's various enterprise funds and on the governmental activities column in the statement of net position.

(c) Other Debt Related Information

The District has adopted master resolutions with respect to its water utility and watershed utility which contain certain events of default and remedies as described therein. The District has also issued various bonds, notes or other obligations secured by such master resolutions or other revenues of the District and which contain certain events of default and remedies as described therein. The District has also entered into various reimbursement agreements or other financial contracts which contain certain events of default and remedies as described therein. Certain of these master resolutions, bonds, notes and other obligations and reimbursement agreement and other financial contracts contain provisions concerning the application of applicable District revenues if certain of the following conditions occur: default on debt service payments; the failure of the District to observe or perform the conditions, covenants, or other agreement with respect thereto; bankruptcy filing by the District; or if any court or competent jurisdiction shall assume custody or control of the District, among other defaults. Certain of such District master resolutions, bonds, notes and other obligations and reimbursement agreement and other financial contract contain acceleration provisions that allows a trustee, owners of bonds, notes or other obligations or the parties to such reimbursement agreements or other financial contracts to accelerate payments thereunder to the extent and as provided therein.

Resolutions and other financing agreements associated with the District's and PFFC's bonds and certificates of participation contain a number of covenants, limitations, and restrictions. The District believes it is in compliance with all significant covenants, limitations, and restrictions.

Financial obligations incurred under the commercial paper program, issued through the PFFC, currently include the obligations to reimburse the bank issuing direct pay letter of credit supporting the commercial paper program and to pay letter of credit fees to the bank. A District failure to comply with certain such obligations could result in an event of default. If an event of default occurs, the bank may exercise one or more rights and remedies. In addition to rights and remedies provided for under the law, the bank can declare all financial obligations with respect to such letter of credit to be immediately due and payable, cause the issuance of commercial paper to be temporarily ceased, or terminate the letter of credit which would cause the issuance of commercial paper to be permanently ceased. Commercial paper certificates are not subject to acceleration.

The District has pledged future flood control system revenues to repay \$73.6 million in long-term debt outstanding as of June 30, 2019, that was issued to finance the cost of flood control improvements. The certificates of participation (COPs) are payable from installment payments that are secured by flood control system revenues and are payable through fiscal years 2024 (2012A) and 2030 (2017A). The total principal and interest remaining to be paid on the combined debt is \$92.3 million. A ten-year comparison of flood control system revenues to related debt service titled "Flood Control System Historical Operating Results – Combined Statements of Revenues and Debt Service Coverage – Last Ten Fiscal Years" can be found in the Statistical Section.

The District has also pledged water utility system revenues, net of specified maintenance and operating expenses, to repay \$470.8 million in long-term debt outstanding as of June 30, 2019, that

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

was issued to finance the cost of capital construction projects for the water utility enterprise. The secured debt includes revenue bonds and COPs. The revenue bonds are payable from net water utility system revenues and the revenue COPs are payable from installments that are secured by net water utility system revenues. The long-term debt is payable through fiscal year 2046. Total principal outstanding and interest costs remaining to be paid on the combined debt is \$783.5 million.

(8) PROPERTY TAXES AND BENEFIT ASSESSMENTS

The District derives certain revenues from the assessment of property tax parcel levies and the levy of benefit assessments and a special parcel tax. The property tax levy is composed of two categories: (1) an allocation of the County of Santa Clara’s 1 percent tax; and (2) voter approved levy to repay capital and operating costs related to imported water from the State Water Project. Benefit Assessments are collected as part of duly authorized debt repayment phase of the voter-approved assessments. In November 2000, voters approved a 15-year special parcel tax to fund the countywide Clean, Safe Creeks & Natural Flood Protection Program. The levy became effective July 1, 2001 and is based on the proportionate storm water runoff for each property.

In November 2012, the voters approved the Safe, Clean Water and Natural Flood Protection (Safe, Clean Water) special parcel tax. The Safe, Clean Water program builds on the success of the Clean, Safe Creeks and Natural Flood Protection (Clean, Safe Creeks) plan approved by the voters in 2000. The Safe, Clean Water program replaced the Clean, Safe Creeks measure in its entirety beginning July 1, 2013. The Safe, Clean Water special parcel tax will provide an estimated total of \$723 million of revenue for operations and capital projects. The program will be funded by a combination of revenues from the continuation of an annual special tax, reserves from unspent funds of the Clean, Safe Creeks plan, and state and federal funding. For fiscal year 2019, the budget includes \$44 million of special parcel tax for this program.

Property tax and benefit assessment revenues recorded for the year ended June 30, 2019 are as follows (in thousands):

	General Fund	Special Revenue Funds	Water Enterprise Fund
Property taxes:			
1% tax allocation	\$ 8,994	\$ 90,727	\$ 8,124
Special parcel tax	-	44,127	-
Voter approved indebtedness:			
State water	-	-	22,344
Total taxes	<u>8,994</u>	<u>134,854</u>	<u>30,468</u>
Benefit assessments	-	14,746	-
Total property taxes and benefit assessments	<u>\$ 8,994</u>	<u>\$ 149,600</u>	<u>\$ 30,468</u>

The County of Santa Clara (County) is responsible for the assessment, collection, and apportionment of property taxes for the District. The amount of property tax levies is restricted by Article 13A of the California State Constitution (commonly referred to as Proposition 13). The District is responsible for determining the amount of benefit assessment, special parcel tax, and State Water Project Debt Service. Secured property taxes and benefit assessments are each payable in equal installments, November 1 and February 1, and become delinquent on December 10 and April 10, respectively.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

The lien date is January 1 of each year. Property taxes on the unsecured roll are due on the March 1 lien date and become delinquent if still unpaid on August 31.

The District has elected to participate in the “Teeter Plan” offered by the County whereby the District receives 100 percent of secured property and supplemental property taxes levied in exchange for foregoing any interest and penalties collected on the related delinquent taxes.

(9) FUND BALANCES

In the fund financial statements, governmental funds report fund balance as non-spendable, restricted, committed, assigned or unassigned based primarily to the extent to which the District is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

- Non-spendable fund balance includes net resources that cannot be spent because they are either a) not spendable because of their form, or b) must be maintained intact pursuant to legal or contractual requirements.
- Restricted fund balance includes amounts that are subject to limitations imposed by either: a) creditors, grantors, contributors or laws and regulations of other governments, or b) imposed by law through constitutional provisions or enabling legislation.
- Committed fund balance includes spendable resources that can only be used for specific purposes pursuant to constraints imposed by formal action of the District’s highest level of decision-making authority, the District Board, through adopted resolutions. Those constraints remain binding unless the District Board removes or changes in the same manner to previously commit those resources. These District Board’s actions must occur prior to June 30th of the applicable fiscal year.
- Assigned fund balance includes amounts that are constrained by the District’s intent to be used for specific purposes, but are neither restricted nor committed. The intent can be established or changed at the discretion of the District Board, or an official designated for that purpose, the Chief Executive Officer, in accordance with the provisions of the Governance Policies of the Board, Policy No. EL-5, *Purchasing and Contracts*.
- Unassigned fund balance represents residual net resources that have not been restricted, committed, or assigned. This includes the residual General Fund balance and residual fund deficits, if any, of other governmental funds.

Spending Prioritization in Using Available Resources

When an expense is incurred for purposes for which both restricted resources and unrestricted resources fund balance are available, the District considers restricted resources to be spent first.

When committed, assigned, and unassigned resources can be used for the same purpose, the District’s flow assumption is to spend in the sequence of committed resources first, assigned second, and unassigned last.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

The various fund balances are established by actions of the Board of Directors and can be increased, reduced or eliminated by similar actions with the exception of encumbrances on the assigned fund balance, which can be reduced or eliminated without the action of the Board of Directors. The District's reserves amounts are reviewed annually to ensure compliance with the District's reserve policy. Changes to the restricted, committed and assigned reserves are presented to the Board of the Directors for review and approval.

Detailed schedule of fund balances as of June 30, 2019 is as follows (in thousands):

	General	Watershed & Stream Steward	Safe, Clean Water & Natural Flood Protection Program	COP Construction	COP Debt Service	Total Govern- mental Funds

(10) NET POSITION

The proprietary funds financial statements utilize a net position presentation. Net position is categorized as follows: (1) invested capital assets (net of related debt), (2) restricted and (3) unrestricted.

Net Investment in Capital Assets - This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.

Restricted Net position – This category presents external restrictions imposed by creditors, grantors, contributors, laws, or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net position – This category represents net position of the District, not restricted for any project or other purpose.

The next page shows the detailed schedule of the proprietary funds' net position as of June 30, 2019 (in thousands).

(11) EMPLOYEES' RETIREMENT PLAN

Plan Description

All qualified permanent and probationary employees are eligible to participate in the agent multiple-employer defined benefit pension plan (the Plan) administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for its participating member employers. Benefit provisions under the Plans are established by State statute and District's resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the California Public Employees'

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements
For the Year Ended June 30, 2019

Retirement Law. Benefit provisions and all other requirements are established by State statutes and may be amended by the District’s governing board.

The Plan’s provisions and benefits in effect at June 30, 2019, are summarized as follows:

	Prior to	3/19/2012 to	On or after
Hire date	3/19/2012	12/31/2012	1/1/2013
Benefit formula	2.5% @ 55	2% @ 60	2% @ 62
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life
Minimum Retirement age	50	50	52
Monthly benefits, as a % of eligible compensation	2.0% to 2.5%	1.1% to 2.4%	1.0% to 2.5%
Required employee contribution rates	8.0% + 1.5%*	7.0% + 2.5%*	6.75% + 0.5%
Required employer contribution rates	10.059% plus \$13,163,082 prepayment for prior unfunded service cost		

* Member additional contribution towards District’s CalPERS cost per negotiated agreement with the bargaining units

Employees Covered – As of the most recent CalPERS annual valuation report, dated July 2019, the following employees were covered by the benefit terms of the Plan:

Inactive employees or beneficiaries currently receiving	781
Active employees	748

Contributions

Section 20814(c) of the California Public Employees’ Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

For the year ended June 30, 2019, contributions to the plan were \$25.4 million. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. All funds with payroll charges contribute to the actuarially determined contribution.

Net Pension Liability

The District’s net pension liability for the Plan is measured as the total pension liability, less the pension plan’s fiduciary net position. The net pension liability of the Plans is measured as of June 30, 2018, using an annual actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018 using

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is shown below.

Actuarial Assumptions – The total pension liabilities in the June 30, 2017 actuarial valuations were determined using the following actuarial assumptions:

Valuation date	June 30, 2017
Measurement date	June 30, 2018
Actuarial cost method	Entry-age normal cost method
Discount rate	7.15%
Inflation	2.50%
Salary increases	Varies by entry age and service
Investment rate of return ⁽¹⁾	7.15%
Mortality rate table ⁽²⁾	Derived using CalPERS' membership data for all funds
Post retirement benefit increase	Contract COLA up to 2.00% unit purchasing power protection allowance floor on purchasing power applies, 2.50% thereafter.

⁽¹⁾Net of pension plan investment and administrative expenses; includes inflation

⁽²⁾The mortality rate table was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuarial Scale BB.

The actuarial methods and assumptions used for the June 30, 2017 valuation were derived from the December 2017 experience study for the period 1997 to 2015, including updates to salary increase, mortality and retirement rates. The Experience Study can be obtained at CalPERS' website under "Forms and Publications".

Change in Assumptions

Inflation Rate

For the measurement date of June 30, 2018, the inflation rate was reduced from 2.75% to 2.50%.

Discount Rate

The discount rate used to measure the total pension liability for each Plan was 7.15%. The projection of cash flows used to determine the discount rate for each Plan assumed that contributions from all plan members in the Public Employees Retirement Fund (PERF) will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, each Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members for all plans in the PERF. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability for each Plan.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contribution on time and as scheduled on all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above, adjusted to account for assumed administrative expenses.

The following table reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class ⁽¹⁾	Current Strategic Allocation	Real Rates of Return Years 1-10 ⁽²⁾	Real Rates of Return Years 11+ ⁽³⁾
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Assets	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	-0.92%
Total	100.0%		

⁽¹⁾ In the CalPERS CAFR, Fixed Income is included in Global Debt Securities, Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities

⁽²⁾ An expected inflation of 2.00% used for this period.

⁽³⁾ An expected inflation of 2.92 used for this period.

Contribution from Employees	-	20,101,080	(20,101,080)
Net Investment Income	-	7,030,182	(7,030,182)
Benefit Payments, including Refunds of Employee Contribution	-	47,227,283	(47,227,283)
Administrative expense	(35,347,202)	(35,347,202)	-
Other Miscellaneous Income/ (Expense) ¹	(868,462)	-	868,462
Net Changes	26,134,998	(1,649,224)	1,649,224
Ending Balance	\$ 813,664,108	\$ 593,814,741	\$ 219,849,367

¹During fiscal year 2018, as a result of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefit Plans Other than Pensions (GASB75), CalPERS reported its proportionate share of activity related to postemployment benefits for participation in the State of California's agent OPEB plan. Accordingly, CalPERS recorded a one-time expense as a result of the adoption of GASB 75.

Additionally, CalPERS employees participate in various State of California agent pension plans and during fiscal year 2018, CalPERS recorded a correction to previously reported financial statements to properly reflect its proportionate share of activity related to pensions in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions (GASB68).

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the District, calculated using the current discount rate, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Discount Rate - 1% 6.15%	Current Discount 7.15%	Discount Rate +1% 8.15%
Plan Net Pension Liability/(Asset)	<u>\$ 327,919,615</u>	<u>\$ 219,849,367</u>	<u>\$ 130,168,389</u>

Pension Plan Fiduciary Net Position

Detailed information about the District's pension plan fiduciary net position is available in separately issued CalPERS financial reports.

Pension Expenses and Deferred Outflow/Inflow of Resources

For the year ended June 30, 2019, the District recognized pension expense of \$30 million. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
Pension contribution subsequent to measurement date	\$ 25,409,359	\$ -
Changes in assumptions	20,979,011	(6,143,808)
Differences between actual and expected experience	-	(3,926,477)
Net difference between projected and actual earnings on plan investments	1,237,798	-
Total	<u>\$ 47,626,168</u>	<u>\$ (10,070,285)</u>

\$25.4 million is reported as deferred outflows of resources related to contributions subsequent to the measurement date and will be recognized as a reduction from the net pension liability in the following fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Measurement Periods Ended June 30	Deferred Outflows/(Inflows) of Resources
2019	\$ 14,375,280
2020	7,560,010
2021	(7,988,548)
2022	(1,800,218)
Total	<u>\$ 12,146,524</u>

Medical premium cost sharing is required with the same contribution percentage as active employees and based on medical premium applicable to active employees or retirees, whichever is less.

As of August 1, 2007, all current retirees not yet 65 years of age and Medicare eligible and all future retirees who are Medicare eligible must enroll themselves in Medicare when they reach the eligibility date for Medicare. Their Medicare eligible dependents who are enrolled in the District's health plan must also enroll in Medicare upon their eligibility date. The District reimburses the ongoing Medicare Part B cost incurred by the retiree and/or dependent payable quarterly.

After an evaluation of the cost savings realized in implementing the Medicare enrollment plan since August 2007, the District decided to expand the Medicare enrollment requirement to all retirees and their eligible dependents that are enrolled in the District's medical plan. As of July 1, 2009, all Medicare eligible retirees and their eligible dependents were required to enroll in Medicare. The District reimburses the Medicare Part B penalty charged by the Social Security Administration to the retirees/dependents due to late enrollment.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

The District provides the unclassified group of retirees \$50,000 life insurance upon retirement with a five-year phase out in declining increments of \$10,000 per year after retirement.

Employees Covered – As of the most recent OPEB annual valuation report, dated June 30, 2017, the following employees were covered by the benefit terms of the Plan:

Inactive employees or beneficiaries currently receiving	711
Active employees	741

Contributions

On June 24, 2008, the District's Board of Directors adopted a resolution approving the agreement and election of the District to prefund OPEB through CalPERS under its California Employer's Retiree Benefit Trust (CERBT) Program, an agent multiple-employer plan consisting of an aggregation of single-employer plans. On September 9, 2008, the District joined CERBT. The Board of Directors approved the reallocation of \$17.7 million from its existing reserve for the initial prefunding of the unfunded liability for the first year of reporting. Subsequent years' funding, pursuant to the annual budget approved by the Board of Directors, was made at the beginning of each fiscal year through fiscal year 2017. The CERBT issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained from the California Employees' Retirement System, P. O. Box 942703, Sacramento, CA 94229-2703.

OPEB and its contribution requirements are established by memorandum of understanding with the applicable employee bargaining units and may be amended by agreements between the District and the bargaining groups. For the fiscal year ended June 30, 2019, the District's total contribution to the plan amounted to \$10.2 million. All funds with payroll charges contribute to the actuarially determined contribution.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

Net OPEB Liability

The District's net OPEB liability was measured on June 30, 2018 for reporting date June 30, 2019. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2017, based on the following actuarial methods and assumptions:

Discount Rate	7.28%
Inflation	3%
Salary Increases	3.25%
Investment Rate of Return	7.28%
Mortality Rate	Derived from the CalPERS study of Miscellaneous Public Agency experience
Pre-retirement Turnover ⁽¹⁾	Derived from the CalPERS study of Miscellaneous Public Agency experience
Healthcare Trend Rate ⁽²⁾	5.75% grading to ultimate 4% for medical and flat 3% for dental and vision
⁽¹⁾ Net of OPEB plan investment expenses, including inflation	
⁽²⁾ The mortality rate table was developed based on CalPERS' nonindustrial miscellaneous public agency experience study for 14 years ending June 2011.	

The long-term, expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target allocation percentage and by adding expected inflation. The target allocation and expected real rates of returns for each major asset class are summarized in the following table:

Asset Class	Strategy 1 Allocation	Real Rates of Return: 1-10 Years ⁽¹⁾	Real Rates of Return: 11-60 Years ⁽²⁾
Global Equity	59.0%	4.80%	5.98%
Fixed Income	25.0%	1.10%	2.62%
Global Real Estate (REITs)	8.0%	3.20%	5.00%
Treasury Inflation Protected Securities (TIPS)	5.0%	0.25%	1.46%
Commodities	3.0%	1.50%	2.87%

⁽¹⁾An expected inflation of 2.00% used for this period.

⁽²⁾An expected inflation of 2.92 used for this period.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

Discount Rate

The discount rate of 7.28% is the expected long-term rate of return on District assets using investment strategy #1 within the CERBT. The projected cash flows used to determine the discount rate assumed that District contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in OPEB Liability

The following table shows the changes in net OPEB liability recognized over the measurement period:

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (c) = (a) - (b)
Beginning balance	\$ 174,265,200	\$ 96,639,700	\$ 77,626,500
Changes Recognized for the Measurement Period:			
Service Cost	2,913,500	-	2,913,500
Interest Cost	12,473,300	-	12,473,300
Other Liability Experience Loss/(Gain)	53,800	-	53,800
Contributions	-	11,876,700	(11,876,700)
Benefit Payments	(8,876,700)	(8,876,700)	-
Non-Benefit Related Admin Expenses from Plan Trusts	-	(51,829)	51,829
Expected Investment Return	-	7,142,684	(7,142,684)
Investment Experience (Loss)/Gain	-	787,345	(787,345)
Net Changes within FY2018/19	6,563,900	10,878,200	(4,314,300)
Ending balance	\$ 180,829,100	\$ 107,517,900	\$ 73,311,200

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the District, calculated using the current discount rate, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Discount Rate - 1%	Current Discount	Discount Rate +1%
Net OPEB Liability	\$ 94,980,800	\$ 73,311,200	\$ 55,187,400

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

Sensitivity of the Net OPEB Liability to Changes in the Health Care Cost Trend Rates

The following presents the net OPEB liability of the District, if it were calculated using health care cost trend rates that are 1-percentage point lower or 1-percentage point higher than the current rate, for measurement period ended June 30, 2018:

	1% Decrease	Current Rates	1% Increase
Net OPEB Liability	<u>\$ 52,444,800</u>	<u>\$ 73,311,200</u>	<u>\$ 98,517,100</u>

OPEB Plan Fiduciary Net Position

Detailed information about the District's OPEB plan fiduciary net position is available in separately issued CalPERS financial reports.

OPEB Expense and Deferred Outflow/Inflow of Resources

For the year ended June 30, 2019, the District recognized OPEB credit expense of \$2.0 million. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflow of Resources	Deferred Inflow of Resources
OPEB contribution subsequent to measurement date	\$ 10,227,034	\$ -
Differences between actual and expected experience	43,513	-
Net difference between projected and actual earnings on plan investments	-	(2,384,814)
Total	<u>\$ 10,270,547</u>	<u>\$ (2,384,814)</u>

\$10.2 million is reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction from the net OPEB liability in the following fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Year ending June 30	Deferred Outflows/(Inflows) of Resources
2020	\$ (732,162)
2021	(732,162)
2022	(732,160)
2023	(147,182)
2024	2,365
Total	<u>\$ (2,341,301)</u>

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

(13) RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District reports all of its risk management activities in its Risk Management Internal Service Fund.

The District's deductibles and maximum coverage are as follows (in thousands):

<u>Coverage Descriptions</u>	<u>Deductibles</u>	<u>Commercial Insurance Coverage</u>
General liability	\$2,000	\$50,000
Workers' compensation	1,000	Statutory
Property damage (subject to policy sub-limits)	50	500,000
Fidelity (Crime) - Directors	5	1,000
Fidelity (Crime) – Non-Directors	10	2,000
Non-owned aircraft liability	-	5,000
Boiler and machinery	50	100,000

Claims expenses and liabilities are reported for self-insured deductibles when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported, allocated and unallocated claims adjustment expenses and incremental claim expense. Claim liabilities are reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. At June 30, 2019, the liability for self-insurance claims was \$7,086,000. This liability is the District's best estimate based on available information. Settled claims have not exceeded commercial insurance coverage in any of the past three fiscal years.

Changes in the reported liability since June 30, 2019 are as follows (in thousands):

	<u>General Liability</u>	<u>Workers' Compensation</u>	<u>Total</u>
Claims payable at June 30, 2017	\$ 2,987	\$ 2,679	\$ 5,666
Current year premiums, incurred claims and changes in estim	584	677	1,261
Claim payments	(84)	(378)	(462)
Claims payable at June 30, 2018	<u>3,487</u>	<u>2,978</u>	<u>6,465</u>
Current year premiums, incurred claims and changes in estim	1,636	174	1,810
Claim payments	(872)	(317)	(1,189)
Claims payable at June 30, 2019	<u>\$ 4,251</u>	<u>\$ 2,835</u>	<u>\$ 7,086</u>
Current Portion	<u>\$ 1,378</u>	<u>\$ 602</u>	<u>\$ 1,980</u>

(14) TRANSFERS IN AND OUT

Transfers are used to: 1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, 2) move receipts to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and 3) move debt proceeds held in the construction fund to the funds incurring the construction expense.

In the year ended June 30, 2019, the following transfers occurred between funds:

- \$225 thousand was transferred from the Watershed and Stream Stewardship Fund to the General Fund to support drought induced tree removal projects
- \$1.6 million was transferred from the COP Construction Fund to the Watershed and Stream Stewardship Fund to fund certain projects
- \$2 million was transferred from the COP Construction Fund to the Safe, Clean Water and Natural Flood Protection Program Fund to fund certain projects
- \$1.9 million was transferred from the Watershed and Stream Stewardship Fund to the Safe, Clean Water and Natural Flood Protection Program Fund to fund the Encampment Clean-up Program and Upper Penitencia to Permanent Creek Flood Protection project
- \$474 thousand was transferred from the General Fund to the COP Debt Service Fund to pay debt service payments
- \$11 million was transferred from the individual zone Funds to the COP Debt Service Fund to pay debt service payments
- \$614 thousand was transferred each from the General Fund and Watershed Fund to the Water and Enterprise Fund for the Open Space credit
- \$2.6 million and \$3.9 million were transferred from the Watershed and Stream Stewardship Fund, and Water Enterprise Fund, respectively, to the Information Technology Fund to fund capital projects

15) COMMITMENTS

(a) Contract and Purchase Commitments

As of June 30, 2019, governmental funds had encumbrances of approximately \$65.7 million, while proprietary funds had open purchase commitments of approximately \$126 million related to new or existing contracts and agreements. These encumbrances are only commitments for the expenditure of funds and do not represent actual expenditures or liabilities.

At June 30, 2019, detailed breakdown of encumbrances of the governmental and proprietary funds are shown on the succeeding page.

SANTA CLARA VALLEY WATER DISTRICT

(b) San Felipe Project Water Deliveries

The District has contracted with the U.S. Department of the Interior (USDI) for water deliveries from the Central Valley Project. The contract requires the District to operate and maintain Reach 1, Reach 2, and Reach 3 of the San Felipe Division facilities of the USDI.

During fiscal year 2017, the District amended this contract. The amended contract provided for compliance with the Central Valley Project Improvement Act and converted the repayment of the San Felipe Division facilities from a water service contract to a repayment contract with fixed semi-annual payments. The semi-annual payments for January 2007 through July 2016 are \$7,466,867. The semi-annual payments starting January 2017 is \$7,742,285. The amended contract preserved the attributes of a water service contract for other Central Valley Project costs.

The total commitment, including applicable interest, of the repayment contract was \$440,492,081. The remaining commitment as of June 30, 2019 was \$252,443,321.

(c) Participation Rights in Storage Facilities

In December 1995, the District entered into a water banking and exchange program with Semitropic Water Storage District and its Improvement Districts that entitles the District to storage, withdrawal, and exchange rights for the District's State Water Project supplies. The District's share of the total program capital costs is \$46.9 million based on a 35 percent vesting in the program. The District pays the program capital costs when storing and recovering Tier 1 water. The agreement terminates in December 2035.

The District pays the program capital costs when storing and recovering Tier 1 water. As of June 30, 2019, the District has paid \$41.5 million towards the base fee obligation of this agreement. During the first 10 years, the District has a reservation for the full 35 percent allocation; by January 1, 2006, if the District's contributions towards the program capital costs did not equal \$46.9 million the District's permanent storage allocation would have been reduced. The District decided to utilize its total allowable storage rights at 35 percent on January 1, 2006.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

The District currently has a storage allocation of 350,000 acre-feet. As of June 30, 2019, the District has 315,824 acre-feet of water in storage. The participation rights are amortized using the straight-line method over the life of the agreement. Amortization of \$27.6 million has been recorded through fiscal year 2019.

(16) CONTINGENCIES

(a) Litigation

It is normal for a public entity like the District, with its size and activities, to be a defendant, co-defendant, or cross-defendant in court cases in which money damages are sought. Discussed below are all pending litigations that the District is aware of which are significant and may have a potentially impact on the financial statements.

Great Oaks Water Company v. Santa Clara Valley Water District

In 2005, Great Oaks Water Company (hereinafter "Great Oaks") filed an administrative claim alleging that the groundwater charges for 2005-06 violated the Law and sought a partial refund. After the claim was deemed denied, Great Oaks filed its lawsuit that subsequently included an allegation that the groundwater production charges violated Proposition 218, or Article XIII D of the state constitution because proceeds are used to fund projects and services that benefit the general public, not just ratepayers. Great Oaks demanded a partial refund as well as declaratory, injunctive and mandamus relief.

On February 3, 2010, the Honorable Kevin Murphy issued Judgment After Trial and decided that the District owed Great Oaks a refund of groundwater charges in the amount of \$4,623,096 plus interest at 7% per annum. The award of pre-judgment interest as of December 1, 2009, amounted to \$1,285,524. Judge Murphy also awarded post-judgment interest at the rate of \$886.62 per day until the date of the entry of judgment. Judge Murphy also decided that the District owed Great Oaks damages in the amount of \$1,306,830. Recovery of this damages amount is in the alternative to the award of refund described above. The District appealed this decision to the Sixth District Court of Appeals.

During the pendency of the appeal, in accordance with the requirements of GASB Statement No. 62, the District recorded a liability in the amount of \$5,930,000, which includes the Judgment After Trial decision amount plus interest in fiscal year 2008-09. The District recorded \$160,000 in Fiscal Year 2009-10, \$324,000 in Fiscal Year 2010-11, \$325,000 in Fiscal Year 2011-12, and \$324,000 in Fiscal Years 2012-13 and 2013-14 as liability for the post-judgment interest from January 1, 2010 through June 30, 2014 at the rate of \$886.62 per day. No further interest was booked after the favorable judgement on March 26, 2015 by the Sixth District Court of Appeals, which is discussed further below.

On March 26, 2015, the California Court of Appeal for the Sixth Appellate District ("Court of Appeal") reversed in full the judgment of the trial court in the Great Oaks case. The Court of Appeal found that under Proposition 218 the District's groundwater charge is a "property-related fee," but also a fee for water service excepted from the voter ratification requirement. The Court of Appeal also found that the trial court erred when it found that the 2005-06 groundwater charges failed to satisfy the applicable procedural requirements. The Court of Appeal also reversed the trial court's finding that the District had failed to comply with the Law in setting the groundwater fee. The effect of the Court of Appeals decision is to reverse the refund the trial court had ordered the District to pay to Great Oaks, as well

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

as reverse the awards of damages, pre-judgment interest, and certain other amounts. The Court of Appeal remanded the case to the trial court for proceedings consistent with its decision.

On April 10, 2015, the District and Great Oaks each filed their separate petitions for rehearing with the Court of Appeal, which were granted on April 24, 2015. On August 12, 2015, the Court of Appeal again reversed in full the judgment of the trial court in the Great Oaks case, leaving intact the substantive findings from its prior opinion. On August 27, 2015, Great Oaks again filed its petition for rehearing. On September 10, 2015, the Court of Appeal, without requiring any reply by the District granted Great Oaks petition for rehearing. On December 8, 2015, the Court of Appeal again reversed in full the judgment of the trial court in the Great Oaks case. Based on the recent court decisions, the total liability of \$7.4 million previously recognized was reversed in fiscal year 2017.

Great Oaks has filed refund actions for subsequent years of annual groundwater charges, all of which are currently stayed (Santa Clara Superior Court Case Nos. 107-CV-087884; 108-CV-119465; 108-CV-123064; 109-CV-146018; 110-CV-178947; 111-CV-205462; 112-CV-228340; 113-CV-249349; 115-CV-281385; 16-CV-292097; 17-CV-308140; and 18-CV-327641).

Similar to the Great Oaks Case, Shatto Corporation, Mike Rawitser Golf Shop and Santa Teresa Golf Club have filed a refund action, Santa Clara Superior Court under Case No. 111-CV-195879. The action is currently stayed.

Other water retailers including San Jose Water Company, the cities of Morgan Hill, Gilroy and Santa Clara and the Los Altos Golf and Country Club, and Stanford University dispute the District's groundwater charges and have subsequently entered into tolling agreements with the District pending the final decision in the Great Oaks Case.

The District filed its petition for review in the California Supreme Court on January 19, 2016, and on March 23, 2016, review was granted. The case was placed on hold pending resolution of the California Supreme Court's City of Buenaventura v. United Water Conservation District (UWCD) case. The UWCD case presents similar issues to the Great Oaks Case – namely whether Proposition 218 applies to groundwater charges.

On December 5, 2017, the California Supreme Court ruled on the UWCD case, and found that Proposition 218 does not apply to UWCD's groundwater charges, but that Proposition 26 does. After issuance of the UWCD decision, the California Supreme Court transferred the Great Oaks Case back down to the Court of Appeal on June 21, 2018 with instruction to vacate the Court of Appeal's prior decision and to reconsider the appeal in light of the principles of the California Supreme Court laid out in its decision in the UWCD case. On November 8, 2018, the Court of Appeal reaffirmed its March 26, 2015 decision described above. On December 17, 2018, Great Oaks filed a petition for review of this decision with the California Supreme Court. On February 20, 2019, the California Supreme Court denied the petition for review and this order became final the same day. On February 21, 2019, the Court of Appeal issued a remittitur to the trial court, effectively notifying the trial court that the appellate court judgement is final and no further appeals are available.

The District can make no assurances as to whether Great Oaks will file a lawsuit in the future with respect to the District's groundwater charges based on different legal principles.

In order to streamline resolution of the remaining issues in the Great Oaks Case, along with similar issues in the later-filled pending cases brought by Great Oaks, including the filling of amended pleadings and the development of plans for resolving various legal issues that run across the cases, and the Shatto Corporation, Mike Rawitser Golf Shop and Santa Teresa cases, the District submitted

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

a motion to consolidate these cases pending in the Superior Court and to have those cases designated complex for future handling. Great Oaks joined that motion, which was granted on June 30, 2017 (with each new case filed since then being added to the list by stipulation of the parties). Great Oaks also agreed to file a single, omnibus complaint to supersede its prior pleadings, each of which approached Great Oaks' claims in a slightly different way and captured all its pending claims in a single pleading.

On May 21, 2019, the District filed a collection action against the Shatto Corporation for failure to pay groundwater charges from 2009 to 2014. The District estimates that the claim against Shatto Corporation is approximately \$1 million. On or about August 22, 2019, the Shatto Corporation filed a cross complaint (19-CV-348413) against the District alleging among other things, that the groundwater charges sought by the District violate Proposition 26.

(b) Grants and Subventions

The District has received federal and state grants for specific purposes that are subject to review and audit. Although such audits could result in expenditure disallowances under grant terms, any required reimbursements are not expected to be material.

(c) Central Valley Project

On June 7, 1977, the District entered into a contract with the U.S. Bureau of Reclamation for water service from the San Felipe Division of the Federal Central Valley Project (CVP). The CVP water service provides for both agricultural operation and maintenance (O&M) and municipal and industrial (M&I) water deliveries to the District up to a total maximum annual entitlement of 152,500 acre-feet per year. The contract specified initial water rates for O&M and M&I water service and provided for periodic adjustments for the respective water rates in accordance with prevailing CVP water rate policies commencing in the year 1993 for the in-basin M&I rate component; 1996 for the agricultural O&M rate component; 2001 for the full agricultural water rate; and 2008 for the out-of-basin M&I rate component. The methodology of CVP water rate setting has historically recovered current year operating costs and the applicable construction costs over 50 years.

The District's initial CVP water rates were determined based on a November 1974 CVP water rate policy and estimated construction costs of the San Felipe Division. The actual construction costs of the San Felipe Division were significantly higher than the estimates used in the initial rate calculation, and changes in the Federal Reclamation Law during the 1980's have led to the development of new CVP water rate policies. These policies, coupled with the terms of the original contract, resulted in the District facing significant increases for repayment of the San Felipe Division.

In compliance with the Central Valley Improvement Act (CVPIA), the District entered into negotiations, along with all other CVP contractors, with the U.S. Bureau of Reclamation for contract renewal. Because of concerns related to litigation challenging the renewal process, the District entered into an amended contract. The amendment maintained the basic provisions of the original contract, implemented provisions of CVPIA, and allowed the establishment of a fixed repayment for the San Felipe Division facilities.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

(d) Perchlorate

In 2003, perchlorate released from the Olin Corporation facility at Tennant Avenue in Morgan Hill was discovered in groundwater in much of the Llagas Subbasin in South County, impacting many water supply wells. The investigation and clean-up of the contamination are under the jurisdiction of the Central Coast Regional Water Quality Control Board. Due to ongoing remediation by Olin and managed recharge by the District, both the plume size and number of wells impacted have been reduced. As of June 2019, perchlorate is present above the Maximum Contaminant Level (MCL) in fewer than 10 domestic water supply wells. The perchlorate plume exceeding the MCL extends south from the Tennant Avenue site for about 3 miles. Olin's remedial efforts have included on-site soil removal and groundwater treatment as well as off-site plume remediation.

(e) Flooding in the City of San Jose

Following a series of storms, a flood event occurred on the Coyote Creek in San Jose, California on or about February 21, 2017. The Coyote Creek is approximately 42 miles long and is the longest creek in the County. In the southern portion of the County, the District owns and maintains the Anderson Dam and Reservoir along the Coyote Creek near Morgan Hill, California. The Anderson Dam is upstream from the City of San Jose. After the reservoir reached capacity, water began going over the Anderson Dam spillway on February 18, 2017. The spillover volume peaked on the morning of February 21, 2017, increasing flows on Coyote Creek. Beginning on or about February 21, 2017, certain residential and non-residential areas of San Jose along Coyote Creek experienced flooding due to rising water levels in the creek. Thousands of residents were temporarily evacuated, and numerous properties experienced flood damage. Such flood water receded within a short period of time after February 21, 2017.

As of the date of this Official Statement, the District has received 423 claims with respect to the flooding along Coyote Creek. Estimated damages are in excess of \$10,000,000; however, the District cannot predict the final amount of any proven damages. Many of the claimants are also seeking recovery from the City of San Jose; therefore, a portion of the aggregate stated value of the claims may be apportioned to the City of San Jose.

A number of claimants have filed lawsuits in Santa Clara County Superior Court against the District, Santa Clara County, City of San Jose, DWR and/or DSOD alleging damage from the Coyote Creek flood event. Currently, 19 lawsuits have been filed and are pending against the District relating to the flood event. The District is evaluating all of such claims and lawsuits with respect to the Coyote flood event. The District intends to vigorously defend any actions brought against it with respect to flood-related property damage caused by the flooding along Coyote Creek.

Of the 423 claims, 192 of the claimants have not filed an action in superior court. As to these 192 claims, the District settled 162 of such claims in September 2019 at a total cost of approximately \$666,700.

(f) Rinconada Water Treatment Plant Upgrade

On May 26, 2015, the Board awarded a \$179,850,000 construction contract to Balfour Beatty Infrastructure, Inc. ("Balfour Beatty") for the Rinconada Water Treatment Plant (WTP) Reliability Improvement Project. Phase 2 of such project includes the construction of several new facilities for the upgraded treatment system at the Rinconada WTP, including flocculation/sedimentation, ozone

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

generation, and wastewater recover facilities. Such project also includes the installation of an electrical control building and appurtenant wiring and control systems, significant underground piping, and installation of chemical feed systems.

The District's contract with Balfour Beatty provided for the project to be built in five phases within a 5-year period. The existing Rinconada WTP is to remain operational during the entire construction period, with the newly-constructed facilities and upgrades integrated with plant operations at the end of each phase.

Balfour Beatty's current estimated completion date of Phase 2 work is more than two years later than originally provided in the construction schedule. The District has advised Balfour Beatty of the District's concerns regarding quality of construction work, the failure to comprehensively remedy construction defects, and Balfour Beatty's lack of diligence to ensure progress is made in a timely manner. The parties are engaged in ongoing discussions regarding remediating the defective work and obtaining a realistic schedule from Balfour Beatty.

On September 26, 2018, the District notified Balfour Beatty that the District was assessing liquidated damages of more than \$11 million for the lack of completion of both Phase 2 and Phase 3 construction milestones. The District began withholding liquidated damages from the progress payments to Balfour Beatty in October 2018 and continues withholding funds from monthly progress payments. To date, the District has withheld approximately \$7 million and assessed \$18 million in liquidated damages. Balfour Beatty had previously threatened to file suit if the District did not cease withholding liquidated damages by November 28, 2018. To date, Balfour Beatty has not yet filed such lawsuit against the District.

The District cannot predict the timeframe for the District and Balfour Beatty to resolve such issues. The District has not filed any formal claims against Balfour Beatty. The District does not believe the foregoing construction issues will have a material adverse impact on the operation of the Rinconada WTP.

(17) SUBSEQUENT EVENTS

Subsequent events have been evaluated through December 16, 2019.

On July 23, 2019, the Board approved a professional services agreement with INFOR, to implement the INFOR Enterprise Resource Planning (ERP) System to replace the current legacy Financial and Human Resource system, PeopleSoft. The new integrated solution will cover the District's core Financials, Human Resources, Contracts, and Procurement modules. The implementation of the INFOR CloudSuite ERP system is anticipated to take 20-24 months and will require intensive resource commitment and focus from District staff to be successful.

In November 2019, the District issued \$38,280,000 of Water System Refunding Revenue Bonds, Taxable Series 2019C to refund the outstanding Water Utility Revenue Certificates of Participation, Taxable Series 2007B and pay costs of issuance of the 2019C Bonds. The obligation of the District to pay principal of and interest on the 2019C Bonds is secured by a pledge of and lien on Water Utility System Revenues and are payable from the Net Water Utility System Revenues pursuant to the Parity Master Resolution, as amended (16-10). The refunding resulted in a net present value savings of \$9.7 million on a budgetary basis at an all-in-true interest cost of 2.76%.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Basic Financial Statements

For the Year Ended June 30, 2019

In November 2019, the Board unanimously approved a two-part agreement with the cities of Palo Alto and Mountain View that includes a local advanced treatment facility for recycled water and potential for a regional advanced water purification center. With the agreement, the District will fund \$16 million of the \$20 million needed to build a local advanced treatment facility for recycled water at the Regional Water Quality Control Plant (RWQCP) in Palo Alto. When completed, the facility would enhance water currently used for irrigation, making it better for use on salt sensitive landscape plants, like redwood trees, and allow for more facilities to use the recycled water.

SANTA CLARA VALLEY WATER DISTRICT

Notes to Required Supplementary Information

For the Year Ended June 30, 2019

The District annually adopts a budget in June to be effective July 1 for the ensuing fiscal year. Annual appropriated budgets are adopted for the general fund, special revenue funds, and for all proprietary funds. The COP construction and COP debt service funds are not budgeted.

Legal budgetary (expenditure) control is established at the fund level, further controlled within the fund at the category level. The categories are defined as the operating budget (operations and maintenance, debt service, and operating projects) and the capital budget (capital improvement projects) in the budget and actual budgetary basis schedules. The amounts stated therein as proposed expenditures become appropriations to the various District organization units. The Board may amend the budget by motion during the fiscal year. The District Chief Executive Officer is authorized to transfer appropriations within budget categories by fund. All unencumbered appropriations for operations and maintenance, operating projects and debt service lapse at fiscal year-end. The encumbered appropriation balance is carried forward to the succeeding year and is not re-appropriated. Unexpended appropriations for capital projects are carried forward until project completion or termination.

The budget process is based upon accounting for certain transactions on a basis other than the Generally Accepted Accounting Principles (GAAP) basis. The results of operations are presented in the budget and actual schedules in accordance with the budgetary basis to provide a meaningful comparison with the budget. The major differences between the budgetary basis and GAAP basis are as follows:

- Certain accruals (primarily accrued vacation and sick leave pay) are excluded from the budgetary basis because such amounts are budgeted on a cash basis.
- Year-end encumbrances are recognized as expenditures on the budgetary basis, while encumbered amounts are not recognized as expenditures on the GAAP basis until incurred.
- Certain budgeted debt service expenditures in special revenue funds are recorded as operating transfers out on a GAAP basis.
- Intra-district overhead reimbursement on a budgetary basis is reflected as a reimbursement of expenditures on a GAAP basis.

Reported budget amounts reflect the annual budget as originally adopted and as subsequently amended by the District Board of Directors. The budget amounts are based on estimates of the District's expenditures/expenses and the proposed means of financing them. The final budget of capital improvement projects includes budget adjustments related to capital projects' period year balance forward. Actual expenditures for capital items, as in the case of special revenue funds, may vary significantly from budget due to the timing of such expenditures.

Internal Service Funds

The Internal Service Funds are similar to Enterprise Funds, except that services are rendered to other District units rather than to District customers. This fund type consists of the Equipment Fund, Risk Management Fund, and Information Technology Fund.

Equipment Fund - the fund is used to account for the maintenance and operation of the District's fleet vehicles and heavy construction equipment. Financing is provided through rental charges to operations based upon usage.

Risk Management Fund – the fund is used to account for the monies set aside to pay for all claims, judgment and premium costs. Financing is provided through premiums charged to District operations.

Information Technology Fund – the fund is used to account for the maintenance and replacement of district-wide capital related information technology projects. Financing is provided through rental charges to operations based upon usage.

Santa Clara Valley Water District
 Computation of District Act Debt Margin
 June 30, 2019
 (Dollars in Thousands)

Authorized short-term debt under authority of District Act Section 25.6	\$	8,000
Outstanding short-term debt under Section 25.6, June 30, 2019		-
District Act Section 25.6 debt margin on short-term debt	\$	8,000

Note:

The Santa Clara Valley Water District's debt issuance practices are governed by the provisions of California law and Section 25.6 of the special legislation which formed the Santa Clara Valley Water District (the District Act). The District Act sets the limit on short term debt obligations (maturity of less than five years) at \$8,000,000.

The District may also issue short term notes under the tax and revenue anticipation note statute included in the California Government Code (sections 53850-53858). Under the tax and revenue anticipation note statute, the District may issue notes, provided the principal and interest are not to exceed 85% of the uncollected revenues of the District on the date such notes are issued (and subject to certain other limitations including a 15 month maturity provision). Section 53851 provides that the tax and revenue anticipation note statute is separate authority for the District to issue notes and any amount borrowed under the tax and revenue anticipation note statute is not limited by any other provision of law.

The District has elected to issue notes under the tax and revenue anticipation note statute to support the commercial paper program because it allows a larger amount of notes to be issued even though there is a shorter limitation on maturities.

The District is in compliance with its District Act and the debt issuance provisions of California law.

In July 1994, the District refunded its outstanding water revenue bonds and restructured its debt covenants under a Senior Master Resolution (94-58, as amended by 06-80) governing the issuance of all Water Utility System Senior debt obligations, including the method of calculating Senior Debt Service coverage ratio.

In February 2016, the District Board adopted the Water Utility Parity System Master Resolution (16-10) governing issuance of all Water Utility System Parity debt obligations, calculating the method of calculating Parity Debt Service coverage ratio.

Prescribed by the aforementioned Master Resolutions, operating revenues and expenses include adjustments which relate primarily to intergovernmental revenues, depreciation and amortization, other post employment benefits, and compensated absences and claims.

(1) The percent of overlapping debt applicable to the Water District is estimated using taxable assessed property value. Applicable percentages were estimated by determining the portion of the overlapping district's assessed value that is within the boundaries of the Water District divided by the district's total taxable assessed value.

(2) Excludes tax and revenue anticipation notes, enterprise revenue, mortgage revenue and non-bonded capital lease obligations. Qualified Zone Academy Bonds are included based on principal due at maturity.

Ratios to the 2018-19 Assessed Valuation

Total Direct Debt	0.02%
Gross Combined Total Debt	2.96%
Net Combined Total Debt	2.89%

Ratio to Redevelopment Incremental Valuation (\$54,818,765,953)

Total Overlapping Tax Increment Debt	3.41%

2017A Certificates of participation ⁴	-	-	-	-
Total Debt Service	<u>\$ 15,678</u>	<u>\$ 15,114</u>	<u>\$ 14,062</u>	<u>\$ 15,721</u>
Coverage	4.42	4.61	5.00	4.95

¹ The benefit assessment presented on the Statement of Revenues, Expenditures and Changes in Fund Balances are net of collection fees. For the purpose of the Flood Control System Debt Service Coverage, collection fees are excluded. Therefore, the benefit assessments presented above have been increased as follows:

- FY2019 - \$ 149
- FY2018 - \$ 148
- FY2017 - \$ 149
- FY2016 - \$ 149
- FY2015 - \$ 162
- FY2014 - \$ 163
- FY2013 - \$ 194
- FY2012 - \$ 193
- FY2011 - \$ 193
- FY2010 - \$ 194

In accordance with voter authorizations, benefit assessments are set at 1.25 of gross debt service allocable to flood control projects starting during Fiscal Year 2001.

² The 2003A Certificates were refunded by the 2012A Certificates.

³ The 2004A and 2007A Certificates were refunded by the 2017A Certificates.

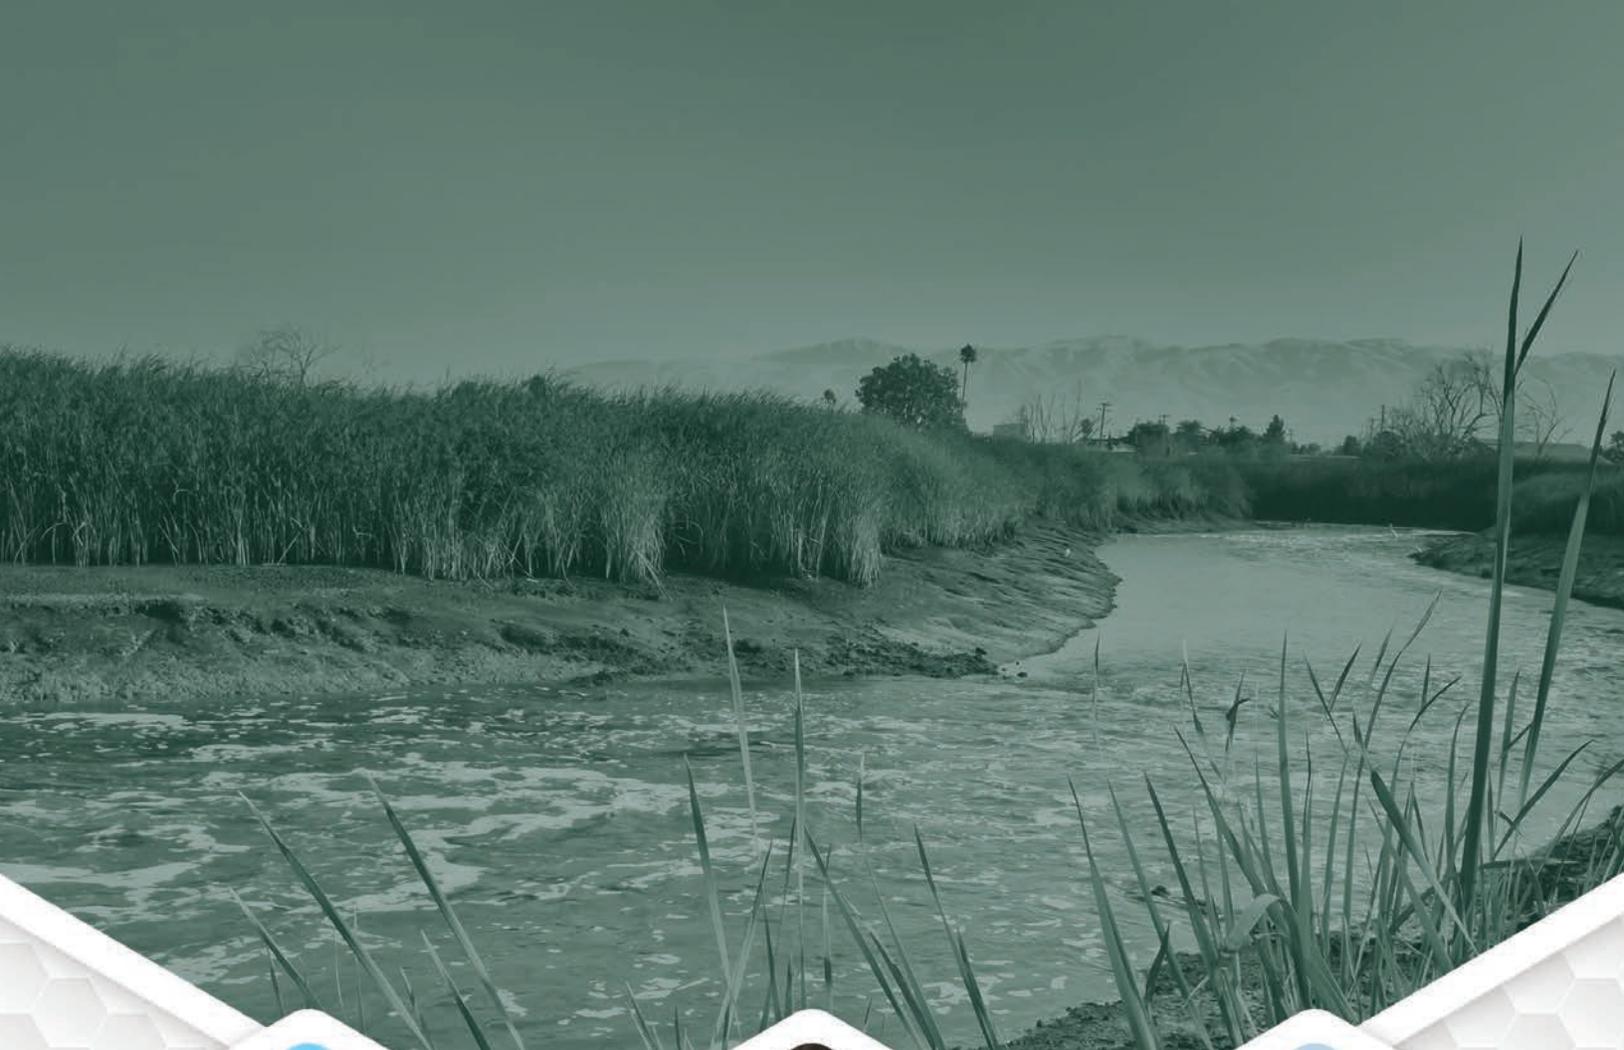

⁴ The 2004A and 2017A debt service payments exclude the portion paid by the District General Fund as this portion of debt service was not payable from benefit assessments (see Flood Control Master Resolution 94-60).

⁵ The Fiscal Year 2017 debt service coverage calculation was adjusted above to correct overstated debt service previously reported.
