If you have any questions, contact the Valley Water's Well Ordinance Program at (408) 630-2660.

I agree to properly maintain the well described in the permit so that:

- 1. The well head has no defects which may impair quality of water in the well or in the water-bearing formation penetrated;
- 2. The well head is appropriately protected to prevent injury or accidental entry by persons or animals;
- 3. The well head is watertight and appropriately protected to prevent the entrance of undesirable water or foreign matter;
- 4. The well head is watertight and appropriately protected to prevent the uncontrolled flow of water from the well;
- 5. The well is marked so that it can be clearly seen;
- 6. The area surrounding the well is kept clear of brush or debris.

Site Plan

Well Location

(Draw accurately; recommend using assessor's map)

- 1. Sketch well location to scale, show dimensions to nearest foot.
- Show a minimum of two dimensions at right angles. Dimensions shall be from the centerline of the closest named streets, roads, or highways.

Sketch well location as described above:
