

Save Water, Save Money.  
**watersavings.org**

## Water Efficient Technology **WET Rebate**

*A customized rebate for businesses and institutions like schools and government facilities.*

**Receive up to \$100,000** for upgrading technology that uses water.

*Maximum rebates may be bigger in some cost-sharing areas.*

*Valley Water provides Silicon Valley with safe, clean water for a healthy life, environment and economy.*

### **Water Efficient Technology (WET) Rebate Benefits**

- Modernize your facility with the latest water efficient technology.
- Save money on your water bill and possibly your energy bill too.
- Demonstrate that your business is a water conservation leader.

### **Qualifying Equipment Examples**

- Equipment that reuses a facility's water for other onsite purposes.
- Cooling towers with efficiency upgrades.
- Chiller efficiency upgrades (e.g., water cooled to air cooled).
- Any other equipment that results in measurable water savings.

### **Simple Application Process**

1. Submit the application before the equipment is installed.
2. After receiving a Notice to Proceed, purchase and install equipment.
3. Meet rebate requirements and submit paperwork indicating completion.

### **Rebate Amount**

\$4 per CCF of water saved per year by installed equipment, or up to 100% of the equipment cost, the lesser of either (1 CCF = 748 gallons). The maximum rebate is \$100,000 per project (may be higher in some cost-sharing areas) and the minimum is \$400 per project.

Note: All programs are subject to funding availability and program restrictions.
