

GOALS FOR AGRICULTURAL AREAS AT BEECH BLUFF COUNTY PARK:

1. Use gardens and agriculture to engage visitors in hands-on outdoor activities and education
2. Support long-term environmental and ecosystem health through leading-edge practice in soil building, biodiversity, waste reduction, and water conservation practice and demonstration
3. Express the natural and cultural history of Piedmont NC through agricultural demonstrations and interactive installations
4. Provide recreational opportunity that connects physical activity, community connections, and nutrition through healthy food

AGRICULTURAL AREAS at BEECH BLUFF COUNTY PARK

OCTOBER 2021: Rye and clover were no-till planted in the future orchard and agricultural landscaping fields. This cover crop is the first step in a regenerative agricultural approach.
