BLUE JAY POINT COUNTY PARK

WELCOME TO BLUE JAY POINT COUNTY PARK

ABOUT THE PARK

Experience environmental education surrounded by nature at Blue Jay Point County Park. This 236-acre park features hiking trails, shoreline fishing, picnic areas, playgrounds and open places to play. Opened in 1992, the park was named after the peninsula—or point—it forms on Falls Lake, and for the many blue jays that lived there when the area was farmed by tenant farmers.

OVERNIGHT LODGE

Take your group's environmental education to the next level with an overnight stay at our lodge. The lodge is exclusively used by organized groups that agree to complete six environmental education activities for each night of their stay.

BLUE JAY CENTER FOR ENVIRONMENTAL EDUCATION

(Pictured below) Enjoy hands-on exhibits on local ecology and conservation. The Blue Jay Center for Environmental Education offers a wide variety of programs, events and volunteer experiences with a natural history and natural science focus for all ages.

DISCOVER AND STUDY NATURE

Environmental education programming is the park's main attraction. Public programs and events for all ages are conducted throughout the year. Organized group programs are available by reservation.

NATURAL PLAY AREA

Jump on stumps, create nature art and build a castle or fort in the Natural Play Area. This area also has a large "Sandy Hollow" sandbox in the shade for those summer days!

SLIDE, CLIMB AND RUN

Challenge your kids physically on our Tot and Kid Lot playgrounds. Enjoy our open play areas and fly a kite, kick a ball or play a softball game on our T-ball field.

GO APE TREETOP ADVENTURE

The Go Ape Treetop Adventure course includes suspended obstacles, swings and breathtaking ziplines. Go Ape provides a portion of its proceeds and stewardship services back to the park. Find out more and book ahead at **GoApe.com** or call **1-800-971-8271**.

HIKING TRAILS

From short strolls to longer hikes, you'll find the perfect option to clear your mind and strengthen your body.
