

APPLES & SPICES

APPLES • SPICES • LION'S MANE

BLEND: CLARITY / FOCUS

RECIPE: Baked apples with the perfect proportions of cinnamon, nutmeg, cardamom and cloves create a flavor like miniature apple pie. Lion's mane mushrooms are traditionally used to support a sense of focus and clarity. Finally, the mixture is infused with live resin to preserve the terpenes and nuances of the cannabis plant.

STRAIN PROFILE: We look for strains that are balanced hybrids with a creamy flavor profile with sweet hints of vanilla and sugary dough. Strains with high ocimene content complement the lion's mane. This blend is crafted for calm alertness wrapped in a familiar flavor.
